SELECTMEN'S REPORT

REPORT OF THE BOARD OF SELECTMEN FOR 1940

Your Selectmen have thought that a report of the major accomplishments achieved during the decade just passed might be of interest to the taxpayers and citizens of the Town, for these accomplishments represent your investments in the Civic and Physical well being of this municipality.

Ten years ago, although we did not fully realize it, we were entering upon the longest period of depression our Country has ever known, and whatever has been achieved during this period has been the more difficult because of these conditions. We would record the following items as those most worthy of note:

The building and equipment of the new High School, construction of Edward Foster Bridge, building of the new Town Pier, development of the Harbor Parking Space into one of the finest in any Town of comparable size in the State; purchase and construction of Peggotty Beach Parking Space, and purchase of the Sand Hills bathing Beach and parking space. Improvements through collaboration with the State and Federal Governments of Scituate Harbor which has resulted in increasing the available anchorage area by more than three hundred percent, with greatly added safety offered by the construction of a new jetty and repair of the old one; construction of shore protective measure through State cooperation; improvement of our Fire Department by the building of the Brook Street Fire Station, the purchase of the Seagrave Ladder Truck, a Forest Fire Truck and many additional miles of Fire Alarm Circuits. The building of over six miles of new roads, construction of a Recreational Field at North Scituate and the inauguration of a garbage collection service. The purchase and maintenance of a public ambulance, and the purchase and improvement of the Road Barns at Egypt. The total cost of these improvements amount to approximately \$800,000.00 of which about half was supplied by the Town of Scituate and half by the Federal Government, Commonwealth of Massachusetts and the County of Plymouth.

Another matter which should afford us much gratification is that during this decade, while many other cities and towns increased their indebtedness to meet exceptional Welfare costs, Scituate has reduced its funded debt, other than the Water Debt, from \$165,000.00 in 1930 to \$23,300.00 as of December 31st, 1940.

Perhaps the most important event of the past decade was the purchase by the Town of the Scituate Water Company in 1931 at an approximate cost of \$750,000.00 and for which the Town gave its Bonds in payment therefor, the same to be paid for with interest within thirty years from date of purchase. We believe this action of the Town to have been the greatest single step in our Municipal History. Under Municipal ownership since 1931 and operated by a Board of Water Commissioners this Department has not only increased its value by extension and improvement by over \$200,000.00, paid all interest charges and retired \$264,590.00 of its bonded indebtedness and paid all operating expense,

SELECTMEN'S REPORT

but has actually reduced its domestic rates over those in effect at the time of purchase to the extent of an annual saving to the water consumers of Scituate of \$36,075.00 and a reduction in hydrant rental of twenty-eight dollars per hydrant.

We hope this resume of the major investments which you as citizens and taxpayers of Scituate have made has been of interest to those who may read this report, and as your Selectmen, congratulate you on the broad and unselfish spirit of civic pride and sacrifice on your part that has made this program possible.

Respectfully submitted,

JAMES W. TURNER,
W. IRVING LINCOLN
PHILIP S. BAILEY

Board of Selectmen.

TOWN CLERK'S REPORT

REPORT OF THE TOWN CLERK ANNUAL TOWN MEETING

March 4, 1940

At a legal meeting of the inhabitants of the Town of Scituate qualified to vote in Elections and Town Affairs held at the High School Auditorium in said Scituate on Monday the fourth day of March, 1940 at seven o'clock P. M.; order was called by Moderator Dennis H. Shea.

The warrant was read by Town Clerk William M. Wade.

Tellers appointed by the Moderator and sworn to their duties by the Town Clerk: C. Harry Driscoll, George F. Dwyer, Ernest B. Nord, J. George Vollmer, Eugene H. Lane, Kenmure W. Moffatt, Frank W. Clapp, George W. Murphy, Thomas W. Macy.

ARTICLE I

To choose all the necessary Town Officers other than those elected by ballot, viz: Surveyor of Lumber, Measurer of Wood and Bark, two or more Field Drivers, one Pound Keeper.

VOTED: Measurer of Wood and Bark and Surveyor of Lumber, Russell L. Fish.

Field Drivers, The Constables.

One Pound Keeper, Augustus L. Abbott.

ARTICLE 2

To hear the report of the Selectmen or other Town Officers and standing Committees, and act thereon.

VOTED: To accept reports of Town Officers as printed in the Town Report.

ARTICLE 3

Will the Town vote to establish salaries and compensation of all elected Town Officers, or act thereon. The following salaries are recommended:

Selectmen: Chairman \$1800.00 and legitimate expenses. Other members \$540.00 each and legitimate expenses.

Public Welfare: Chairman \$450.00 and legitimate expenses. Other members \$100.00 each and legitimate expenses.

Assessors: Chairman, \$1800.00 and legitimate expenses. Other members \$450.00 each and legitimate expenses.

Highway Surveyor: \$2200.00 he to furnish his own conveyance in the performance of his duties and to receive \$250.00 to cover expense of same.

Town Collector: \$2000.00 and legitimate expenses. All fees to accrue to the benefit of the Town.

Town Treasurer: \$1800.00 and legitimate expenses.

TOWN CLERK'S REPORT

Town Clerk: \$1200.00 and legitimate expenses.

Tree Warden: \$300.00.

Board of Health: Secretary, \$500.00 and legitimate expenses. Other two members \$350.00 each and legitimate expenses. This sum shall include their charges for all services performed by them or either of them, other than the inspection of plumbing, meat and cattle.

Park Commissioners: Recommended that each member be paid the same amount for work actually performed as is paid laborers in the Highway Department.

Water Commissioners: \$180.00 each and legitimate expenses, to be taken from the Water Department Budget.

Moderator: \$100 per annum.

VOTED: To establish salaries and compensation of all elected Town Officers as follows:

Selectmen: Chairman, \$1,800.00 and legitimate expenses. Other members \$540.00 each and legitimate expenses.

Board of Public Welfare: Chairman and other members, \$100.00 each and legitimate expenses.

Assessors: Chairman, \$1,800.00 and legitimate expenses. Other members \$450.00 each and legitimate expenses.

Highway Surveyor: \$2,200.00, he to furnish his own conveyance while in the performance of his duties and receive \$250.00 to cover expense of same.

Town Collector: \$2,000.00 and legitimate expenses. All fees to accrue to the Town.

Town Treasurer: \$1,800.00 and legitimate expenses.

Tree Warden: \$300.00.

Town Clerk: \$1,200.00 and legitimate expenses.

Board of Health: The sum of \$1,200.00 be paid to the Board of Health for salary divided as follows: Secretary, \$500.00 and legitimate expenses. Other members \$350.00 each and legitimate expenses. This sum shall include their charges for all services performed by them or either of them, other than the inspection of plumbing, meat and cattle.

Park Commissioners: Each member be paid the same amount per hour for work actually performed as is paid laborers in the Highway Department.

Water Commissioners: \$180.00 for each member and legitimate expenses to be taken from the Water Department Budget.

Moderator: \$100.00 per annum.

It was voted to accept the following resolution:

Resolved: That the voters of Scituate request the Advisory Board to make a complete study of all salaries paid by the Town and report at the next annual meeting with such recommendations, if any, as they deem necessary to protect the interest of the Town and its officials.

ARTICLE 4

To raise and appropriate such sums of money as may be necessary to defray the expenses estimated for the year 1940 and make appropriation for the following departments:

ARTICLE 5

To see if the Town will vote to authorize the Town Treasurer, with the approval of the Selectmen, to borrow money from time to time in anticipation of the revenue of the financial year, beginning January 1st, 1941, and to issue a note or notes therefor, payable within one year and to renew any note or notes as may be given for a period of less than one year in accordance with Section 17, Chapter 44, General Laws. —Selectmen.

VOTED: That the Town do authorize the Town Treasurer with the approval of the Selectmen, to borrow money from time to time in anticipation of the revenue of the financial year, beginning January 1, 1941, and to issue a note or notes therefor, payable within one year and to renew any note or notes as may be given for a period of less than one year in accordance with Section 17, Chapter 44, General Laws —Unanimous vote.

ARTICLE 6

To see if the Town will adopt the following by-law: The Board of Public Welfare may contract in their discretion for the relief, support and employment of the town's poor and indigent persons. —Public Welfare.

VOTED: Yes. To adopt. Unanimous vote.

Boston, Mass., April 12, 1940.

The foregoing by-law is hereby disapproved.

PAUL A. DEVER,

Attorney-General.

ARTICLE 7

To hear the report of any Committee heretofore chosen, or act thereon.

VOTED: To accept report of Insurance Committee and that two additional members, one a lawyer, one an insurance man, be added to the committee of three already appointed and that the work of this study committee on insurance be continued for one year, report to be made at next annual town meeting.
Committee:

MARK W. MURRILL
WILLIAMS B. JAMES
RUSSELL L. FISH
LOUISE J. ROTHERY
BURTON SCHAIR

TOWN CLERK'S REPORT

The report of the committee authorized to make a survey of the medical, nursing and hospitalization costs of the Town of Scituate was accepted and it was voted to file with the Town Clerk; that the committee be discharged and that the Selectmen be directed to establish a Community Health Council with the membership, function and authority as recommended in this report.

The committee on the subject of Elementary Schools submitted its report and it was voted to accept and place on file, and the committee be discharged with thanks.

The committee on the subject of snow removal made a brief report. It was voted to accept and file with the Town Clerk and that the Committee be continued with instructions to report at a future meeting but not later than the 1941 Annual Meeting.

ARTICLE 8

To see what sum of money the Town will vote to transfer from the Excess and Deficiency Account to be used by the Assessors in reducing the taxes for the current year.

—Advisory Board, Philip L. Schuyler, Chairman.

VOTED: To transfer \$25,000.00 from the Excess and Deficiency Account.
—Unanimous vote.

ARTICLE 9

Will the Town vote to accept the provisions of Chapter 48, Sections 42, 43, and 44 of the General Laws, which are relative to the Fire Department and the Selectmen's appointing the chief of the Fire Department; the Town's Fire Department to be under the control of an officer to be known as the chief of the Fire Department, appointed by the Selectmen, and the Board of Fire Engineers to be abolished thereby.

—William E. Shuttleworth, et al.

VOTED: Not to accept. Yes 113. No 542. Blanks 4.

ARTICLE 10

Will the Town accept the following by-law? The Town Clerk shall pay all fees received by him by virtue of his office into the Town Treasury beginning January 1, 1941.

—Advisory Board, Philip L. Schuyler, Chairman.

VOTED: To indefinitely postpone.

ARTICLE 11

To see if the Town will amend Section 5 of Article 1 of the Town By-Laws, so that as amended it will read as follows:

Section 5. All motions shall be submitted in writing at the discretion of the Moderator or Clerk. If a motion for reconsideration of a vote is made upon any question acted upon at a previous session of the same town meeting, a two-thirds vote shall be required to reopen the question.

—Advisory Board, Philip L. Schuyler, Chairman.

VOTED: Not to amend.

ARTICLE 12

Will the Town add to Sections 1 and 2 of its Zoning By-Laws the following paragraph: The boundary lines between said Zones A and Zones B shall be as shown upon plans on file with the Town Clerk entitled: "Detail Plans of Zone B Areas, etc., January, 1939; Daniel Appleton, Town Engineer." —Town Counsel

VOTED: To accept the addition to Section 1 and 2 of its Zoning By-Laws.
—Unanimous vote.

TOWN CLERK'S REPORT

ARTICLE 13

Will the Town vote to rescind its By-Laws establishing an Advisory Board and adopt the following By-Law in order to comply with the General Laws, Chapter 39, Section 16, Tercentenary Edition, or act thereon:

BY-LAW

Section 1. There shall be established an Advisory Committee for the Town, which shall perform duties as set forth in the following sections of this article and be governed by the provisions of General Laws. Said Committee shall consist of nine citizens of the Town, which committee shall be appointed as provided in the following section, and no person holding an elective or appointive town office or receiving a salary from the said Town shall be eligible to serve on said committee.

Section 2. Immediately upon taking effect of this by-law the Moderator shall appoint from the citizens of the Town three members whose term of office shall expire at the dissolution of the annual town meeting of 1943, three members whose term of office shall expire at the dissolution of the annual town meeting of 1942, three members whose term of office shall expire at the dissolution of the annual town meeting of 1941; and at each annual meeting thereafter the Moderator thereof shall fill vacancies occurring in this office. Said committee shall choose its own officers and serve without pay. Said committee shall cause to be kept a true record of its proceedings and annual file a copy in the office of the Town Clerk.

Section 3. To this committee shall be referred all articles in any warrant for town meeting hereafter issued. The Selectmen, after drawing any warrant for a town meeting, shall transmit immediately a copy thereof to the Advisory Committee, and said committee shall consider all articles therein and shall report thereon in print or otherwise, to the town meeting such recommendations as it deems to be for the best interest of the Town. Upon written request a reasonable time in advance the Advisory Committee shall grant a hearing to the petitioners for any articles, before making recommendations.

Section 4. The Advisory Committee shall require the Selectmen and other Town Officers, under whose direction, appropriations of money are expended, to submit to them, at least thirty days before the annual town meeting, an estimate of the appropriations necessary to be made for their various departments, and to come before them for consultation regarding the same, at such times and places as said committee shall determine. A public hearing may be held upon all articles due notice of which is to be given to the citizens. The Advisory Committee shall state the amounts which in its opinion shall be appropriated for the ensuing year, and shall add thereto such explanations and suggestions in relation to the proposed appropriations as it deems expedient and report thereon as provided in section three.

Section 5. Whenever any vacancy shall occur in said committee by any cause, said vacancy shall be filled by the Moderator. Five members of the Committee shall constitute a quorum for the transaction of business and if any member is absent from five consecutive meetings of said Committee, except in cases of illness, said Committee may consider his position vacant and report such vacancy to the Moderator who shall proceed to fill the same. The term of office of any person appointed as aforesaid to fill a vacancy shall be for the unexpired term of the person whom he succeeds.

Section 6. The Advisory Board heretofore established by vote of the Town is discharged upon qualification of the new Committee hereby established.

—Advisory Board.

TOWN CLERK'S REPORT

VOTED: To rescind the By-Laws establishing an Advisory Board and adopt the By-Law submitted in order to comply with the General Laws, Chapter 39, Section 16, Tercentenary Edition. Yes 251. No 8.

Boston, Mass., April 12, 1940.

The foregoing by-law is hereby approved.

PAUL A. DEVER,

Attorney-General.

ARTICLE 14

Will the Town vote to rescind Article 4 of the Special Town meeting January 4, 1908 which reads as follows: Voted to accept Section 339 of Chapter 11 of the revised laws. Beginning at the annual meeting to be held March, 1908, to elect a Selectman and Overseer of the Poor, one for three years, one for two years, and one for one year, and at each annual meeting thereafter elect one for three years?
—James H. Dwyer, et al.

VOTED: To indefinitely postpone.

ARTICLE 15

To see if the Town will vote the membership of the Board of Selectmen be five members instead of three to be voted on annually, each member to have a one year term; to become effective at the annual March meeting in 1941.

James H. Dwyer, et al.

Not a vote.

ARTICLE 16

Will the Town accept the following by-law: If any town official or Board having control of personal property owned by the town deems said property useless to said town for the purpose it was purchased or held by that official or board, said official or Board may sell said property at public or private sale after giving due notice thereof to the public; provided, however, that approval of any proposed sale shall first be obtained from the Board of Selectmen in writing, and if said property is under the control of the Selectmen there must be a unanimous vote of said Board for the sale.
—Selectmen.

VOTED: To indefinitely postpone.

ARTICLE 17

Will the Town vote to fix the term of the Highway Surveyor at three years beginning with that of the Highway Surveyor to be elected at the next (1941) annual Town meeting.
—Advisory Board, Philip L. Schuyler, Chairman.

VOTED: To fix term of Highway Surveyor at three years beginning with the 1941 election.

ARTICLE 18

To see if the Town will instruct the Selectmen with reference to any action toward securing installation of Rural Free Delivery and acquiring a new Federal Post Office in connection therewith.
—Selectmen:

Not a vote.

ARTICLE 19

To see if the Town will raise and appropriate \$20,000.00 to be administered by the Selectmen as a general unemployment relief fund for the Town's share of materials, trucking, and other necessary expenses in connection with Federal

TOWN CLERK'S REPORT

unemployment projects and for any proper Town improvement approved by the Selectmen who shall make appropriate rules for the employment of citizens of the Town in need thereof, or act thereon. —Selectmen.

VOTED: That the Town do raise and appropriate the sum of \$20,000.00 to be administered as a general employment relief fund for the Town's share of materials, trucking and other necessary expenses in connection with Federal unemployment projects.

ARTICLE 20

To see if the Town will raise and appropriate the sum of \$4000.00 to be used in conjunction with such sum as the Department of Public Works shall authorize for General Shore protection. Said costs to be borne equally by the Commonwealth of Massachusetts and the Town of Scituate, or act thereon. —Selectmen.

VOTED: To raise and appropriate \$4,000.00.

ARTICLE 21

To see if the Town will assume liability in the manner provided by section 29 of Chapter 91 of the General Laws for all damages that may be incurred by work to be performed by the Department of Public Works of Massachusetts for the improvement, development, maintenance and protection of rivers, harbors, tide waters and foreshores, in accordance with Section 11 of Chapter 91 of the General Laws, and authorize the Selectmen to execute and deliver a bond of indemnity therefor to the Commonwealth. —Selectmen.

VOTED: To accept per subject matter of article. Unanimous vote.

ARTICLE 22

To see if the Town will raise and appropriate the sum of \$225.00 for a life guard at Peggotty Beach from June 24th to September 8th, inclusive, or take action regarding thereon. —Women's Betterment Club.

VOTED: To raise and appropriate \$225.00.

ARTICLE 23

To see if the Town will raise and appropriate the sum of \$225.00 for the purchase of twelve (12) trash cans and disposal of contents, said cans to be distributed about Scituate, all under the direction of the Board of Health, or act thereon. —Women's Betterment Club.

VOTED: To raise and appropriate \$225.00. Yes 154. No 114.

ARTICLE 24

To see if the Town will raise and appropriate the sum of \$1000.00 for the eradication of poison ivy and ragweed on Town property under the direction of the Tree Warden. —Women's Betterment Club.

VOTED: To indefinitely postpone.

ARTICLE 25

To see if the Town will raise and appropriate the sum of \$5000.00 for the further improvement of the Scituate Harbor Parking Space, or act thereon. —Selectmen.

VOTED: To raise and appropriate \$5,000.00. Yes 121. No 112.

TOWN CLERK'S REPORT

ARTICLE 26

Will the Town vote to raise and appropriate the sum of \$5,000.00 to the Reserve Fund or transfer the whole or any part thereof from any available funds, or act thereon?
—Selectmen.

VOTED: To transfer from overlay surplus fund to the reserve fund.

ARTICLE 27

To see if the Town will raise and appropriate \$6500.00 for the purchase of land at the Sand Hills so-called for a public bathing beach, playground, and recreational center, and provide for the administration of said bathing beach, playground, and recreational center under the provisions of G. L., Ch. 45, s. 14; said land being bounded and described as follows:

Being the land described in deed dated April 22, 1937 and recorded in the Plymouth County Registry of Deeds, Book 1725, page 138, excepting that portion on the land side of the sea wall adjoining Lots 1 to 30 inclusive, and excepting the Dumping Ground so-called and described therein, said latter parcel to be deeded to the Town by the grantor free of charge, to be used as a parking space for the benefit of the inhabitants of Scituate, and so restricted by said grantor in deed given to Town of Scituate. Gift as mentioned to depend upon the purchase by Town of the first described property; or act thereon.

—Wilson S. Brown, et al.

VOTED: That the town raise and appropriate \$6,500.00 for the purchase of land at the Sand Hills so-called for a playground and recreational center, including bathing beach, to be administered by the Board of Selectmen under the provisions of General Laws, Chapter 45, Section 14; said land being bounded and described as follows:

Being the land described in deed dated April 22, 1937 and recorded in the Plymouth County Registry of Deeds, Book 1725, page 138, excepting that portion on the land side of the sea wall adjoining Lots 1 to 30 inclusive and excepting the Dumping Grounds so-called and described therein, said latter parcel to be deeded to the Town by the grantor free of charge, to be used as a parking space for the benefit of the inhabitants of Scituate, and so restricted by said grantor in deed given to Town of Scituate. Gift as mentioned to depend upon the purchase by Town of the first described property. Yes 183. No 20.

ARTICLE 28

Will the Town authorize the Selectmen to contract for the part time services of a Public Health Nurse to be employed under the direction of the Board of Health, Board of Public Welfare and the School Committee, and raise and appropriate the sum of \$1,600.00 for payment of said employment and the sum of \$1,280.00 to cover the cost of clerical assistance and transportation necessary in connection with said service, or act thereon?
—Selectmen.

VOTED: To raise and appropriate \$2,880.00 per subject matter of article.

ARTICLE 29

To see if the Town will vote to authorize the School Committee to secure detailed plans and specifications for an addition or additions to the present high school building, such an addition or additions to increase the floor space of said building, and to raise and appropriate the sum of two thousand dollars (\$2,000.00) for the expense of the School Committee for this purpose, or act thereon.

—School Committee.

VOTED: To indefinitely postpone by a vote of 161 to 84.

TOWN CLERK'S REPORT

ARTICLE 30

To see if the Town will raise and appropriate the sum of \$500.00 to meet the cost of operation of the Federal Commodities office or act thereon.

—Board of Public Welfare.

VOTED: To raise and appropriate \$500.00.

ARTICLE 31

To see if the Town will vote to transfer the Dog Fund received from the County to either the Schools or Libraries, or act thereon.

—Selectmen.

VOTED: That the proceeds of the Dog Fund be divided equally between the Pierce Memorial Library and the Allen Memorial Library.

ARTICLE 32

To see if the Town will appropriate from funds in the Treasury the amount earned by or appropriated for the Water Department, and a sum of money equal to but not exceeding the amount of water revenue, to meet the payments for bonds, interest, operation and improvement of the Water Department for the ensuing year, or take action relative thereto.

—Water Commissioners.

VOTED: That the Town appropriate from funds in the Treasury, the amount earned by or appropriated for the Water Department, and a sum of money equal to, but not exceeding the amount of water revenue for the ensuing year, for the use of the Water Department as follows: For payment of bonds, \$33,000.00; for interest on water bonds, \$22,701.25; for maintenance, operation and improvement of the Water Department, the actual balance of the water revenue to be received, now estimated to be \$35,104.72.

—Unanimous vote.

It was voted to accept the following resolution:

Resolved that our Selectmen look into the telephone situation regarding the enlarging of the present area for amount paid.

ARTICLE 33

To see if the Town will raise and appropriate the sum of \$1200.00 to provide payment of a pension of \$100.00 per month from January 1, 1940 to December 31, 1940, to the widow and child of the late Officer Edward W. Carson as certified by the Selectmen and in accordance with the provisions of Chapter 32, Section 89 of General Laws as amended by Chapter 326, Acts of 1936, or act thereon.

—Selectmen.

VOTED: To raise and appropriate \$1,200.00.

—Unanimous vote.

ARTICLE 34

To see if the Town will appropriate the sum of \$2000.00 for the purchase of a new ambulance, or act thereon.

—Selectmen.

VOTED: To raise and appropriate \$2,000.00.

ARTICLE 35

To see if the Town will raise and appropriate the sum of seventeen hundred fifty dollars (\$1,750.00) for the care and upkeep of the Civic Center Grounds, under the jurisdiction of the School Board.

—School Committee.

VOTED: To raise and appropriate \$1,750.00.

TOWN CLERK'S REPORT

Town Clerk

Commonwealth of Massachusetts WARRANT FOR STATE ELECTION

Plymouth, ss.

To either of the Constables of the Town of Scituate in the County of Plymouth, and the Commonwealth of Massachusetts.

Greeting:

In the name of the Commonwealth of Massachusetts you are hereby directed to notify and warn the inhabitants of the Town of Scituate, qualified to vote in Elections to meet at the High School Auditorium, Scituate, on Tuesday, the 5th day of November, 1940, at six o'clock in the forenoon.

To give in their votes for:

Electors of President and Vice President, Governor, Lieutenant Governor, Secretary, Treasurer, Auditor, Attorney General, Senator in Congress, Congressman in Fifteenth District, Councilor Second District, Senator Norfolk and Plymouth District, Representative in General Court Second Plymouth District, Clerk of Courts Plymouth County, Register of Deeds Plymouth County, two County Commissioners Plymouth County.

Also to vote "Yes" or "No" on the following:

Question of Public Policy

Shall the Senator from this District be instructed to vote for legislation providing for weekly ten dollar payments to each recipient of old age assistance?

Question of Public Policy

Shall the Senator from this District be instructed to vote for the establishment of a lottery to be conducted by the Commonwealth, the net proceeds of which shall provide additional revenue for the OLD AGE ASSISTANCE FUND?

TOWN CLERK'S REPORT

To obtain a full expression of opinion, voters should vote on all three of the following questions:—

(a) If a voter desires to permit the sale in this city (or town) of any and all alcoholic beverages to be drunk on and off the premises where sold, he will vote "Yes" on all three questions.

(b) If he desires to permit the sale herein of wines and malt beverages only to be drunk on and off the premises where sold, he will vote "No" on question one, "Yes" on question two and "No" on question three.

(c) If he desires to permit the sale herein of all alcoholic beverages but only in packages, so called, not to be drunk on the premises where sold, he will vote "No" on questions one and two and "Yes" on question three.

(d) If he desires to permit the sale herein of wines and malt beverages to be drunk on and off the premises where sold and in addition other alcoholic beverages but only in packages, so called, not to be drunk on the premises where sold, he will vote "No" on question one and "Yes" on questions two and three.

(e) If he desires to prohibit the sale herein of any and all alcoholic beverages whether to be drunk on or off the premises where sold, he will vote "No" on all three questions.

1. Shall licenses be granted in this city (or town) for the sale therein of all alcoholic beverages (whiskey, rum, gin, malt beverages, wines and all other alcoholic beverages)?

2. Shall licenses be granted in this city (or town) for the sale therein of wines and malt beverages (wines and beer, ale and all other malt beverages)?

3. Shall licenses be granted in this city (or town) for the sale therein of all alcoholic beverages in packages, so called, not to be drunk on the premises?

All of the above to be voted for on one ballot in the manner prescribed by law.

The polls will be open from 6 a. m. to 8 p. m.

And you are directed to serve this warrant in the manner prescribed by vote of the town, seven days at least before the time of holding said meeting.

Hereof fail not, and make due return of this warrant with your doings thereon to the Town Clerk at the time and place of meeting as aforesaid.

Given under our hands this twenty-fourth day of October, A. D. 1940.

JAMES W. TURNER
W. IRVING LINCOLN
PHILIP S. BAILEY

Selectmen of Scituate

Plymouth, ss. October 26, 1940, Pursuant to the foregoing warrant, the inhabitants of the Town of Scituate, qualified to vote in Elections are hereby notified to meet at the time and place and for the purpose therein notified.

RALPH L. CONTE

Constable of Scituate

Scituate, November 5, 1940.

Plymouth, ss.

By virtue of the within named warrant I have hereby notified and warned the inhabitants of the Town of Scituate, qualified to vote in Elections and Town Affairs, to meet at the time and place and for the purpose herein stated, by posting up attested copies, thereof, one in each of the Post Offices in said Town and one at the Town Hall, said posting being seven days at least before time of said meeting.

RALPH L. CONTE,
Constable of Scituate.

TOWN CLERK'S REPORT

TOWN CLERK'S REPORT

Parents, be sure to record the birth of your child with given name in full.

READ THE LAW!

"Parents, within forty days after the birth of a child, and every householder, within forty days after a birth in his house, shall cause notice thereof to be given to the clerk of the town where such a child is born." General Laws, Chapter 46, Section 6.

SOME OF THE MANY REASONS WHY BIRTHS SHOULD BE RECORDED

To establish identity.

To prove nationality.

To prove legitimacy.

To show when the child has a right to enter school.

To show when the child has the right to seek employment under the child labor laws.

To establish the right of inheritance to property.

To establish liability to military duty, as well as exemption therefrom.

To establish the right to vote.

To qualify to hold title to, and to buy and sell real estate.

To prove the age at which the marriage contract may be entered into.

To establish the right to public office.

To make possible statistical studies of the health conditions.

Your co-operation to the end that all births may be properly recorded will be greatly appreciated.

Blanks for returns of births will be furnished upon application to parents, householders, physicians, and registered medical offices as provided in Chapter 46, Section 15, General Laws.

Attest: WILLIAM M. WADE,

Town Clerk.

Town Clerk.

PARK COMMISSIONERS' REPORT

REPORT OF PARK COMMISSIONERS

Board of Selectmen,
Scituate, Mass.:

In our report for the year 1940, we wish to thank everyone who has helped to make the year a successful one for this Department.

Owing to the scarcity of rain, the parks were unable to be at their best.

The small parks around town were taken care of to the best of our ability.

At Minot the cliff was washed away and the fence on the waterfront was torn down by the storm in April.

We repaired and painted the damaged fence and filled in the bank with loam and reseeded it all along the waterfront. The result was that we were able to have a fine looking beach front.

Respectfully submitted,

ERNEST F. LITCHFIELD, Chairman,
JOHN F. DALBY,
GEORGE YENETCHI,

Park Commissioners.

January 16, 1941.

REPORT OF FIRE DEPARTMENT

To the Honorable Board of Selectmen,
Scituate, Massachusetts.

Gentlemen:

The report of the Fire Department for the year 1940 is herewith submitted for your approval.

During the year 1940, the department responded to 148 alarms, a detailed report of which will be found attached hereto.

Your Board of Engineers found, on entering their duties, that a new working plan for the men of the department had been introduced and was operating. While this plan was not a two-platoon system, it followed closely on that line and required the service of one additional permanent man. The men were well pleased with the new arrangement, and since it increased materially the number of permanent men available at all fires, it seemed well to continue its operation even though the budget had not been set up to take care of same. By a careful study and by making economies in other lines, it was possible to go through the year on the original budget. Your Board feels that this plan should be continued.

FIRE DEPARTMENT REPORT

A new problem presented itself at Humarock Beach shortly after the Board took office. The call man in charge of our apparatus in this section resigned his position. A large building development was started, increasing considerably our fire hazard in this district. The older residents of this part of the Town demanded adequate protection of their properties. The only possible way to meet their needs was to place a permanent man of the department in charge at this point. This was done and is being continued at this time, since your Board feels that it is absolutely necessary for the protection of the locality. In addition to fire hazards, your permanent man has been able to give valuable aid in several instances to victims of immersion. The saving of life in itself has warranted our additional expense at this point.

While the Board has had to make savings in order to carry out some of these new problems, it has not done so to the detriment of your Department's upkeep. Our apparatus at the present time is in good condition. Our equipment has been kept up. We have been able to purchase additional hose to a point, whereby our yearly purchases of same should be at a minimum.

While your apparatus is in good condition now, it should be borne in mind that several pieces are very old and an emergency might arise at any time demanding that the Town take action on new apparatus. This we do not anticipate this year, but do call it to your attention.

In considering our budget for 1941, we shall not increase the budget over that of this past year, with the exception of the amount of money needed to take care of our problem at Humarock Beach. The increase in the Town's revenue at this point should more than offset any question of the small amount of money asked for to take care of that problem.

The Board extends its thanks to the Selectmen and to the citizens of the Town for their cooperation during the past year.

Respectfully submitted,

J. GEORGE VOLLMER
EBEN B. PAGE,
EDW. P. BREEN,
Engineers

REPORT OF THE FIRE WARDEN

January 16, 1941

To The Honorable Board of Selectmen
Scituate
Massachusetts

Gentlemen:

This year the Forest Fire Department has had an unusually good year. Our fire loss, per acre, was the smallest of any we have had in recent years. We reported to 66 calls.

We have bought 2,000 feet of No. 1 inch hose and the equipment is in good condition.

We, once again, would like to remind the citizens to apply to the Department for a permit if outside burning is desired.

Your Department extends its thanks to the Selectmen and the citizens of the Town for their cooperation during the past year.

Respectfully submitted,

J. GEORGE VOLLMER,
Forest Fire Warden

HIGHWAY DEPARTMENT

REPORT OF THE HIGHWAY DEPARTMENT

February 5, 1941

To the Citizens of Scituate,

On December 31, 1940 there were approximately 70 miles of accepted Town streets together with culverts and bridges, drainage systems, curbing and sidewalks which were maintained, developed and improved by the Highway Department.

There are 13 regular department employees and various other numbers at seasonal times and in emergencies. Equipment consists of 1 motor grader with V-type snow plow, 2 tractors with V-type snow plows, 1 dump truck, 1 steam roller, 1 gasoline roller, 1 compressor, 1 stone crushing plant, 1 cement mixer, 1 pick-up truck and 13 blade snow plows.

In the spring, the work consists of cleaning streets of the sand used in the winter to prevent skidding; taking down and storing snow fence; repairing guard rails, street signs and roadsides damaged by snow plows; and patching holes in the road surfaces caused by frost boils. Snow and ice in the winter with frequent freezings and thawings are the principle sources of trouble in construction and maintenance operations, and time is taken in the spring of the year to study drainage problems and maintenance requirements of all highways throughout the Town.

Most of the maintenance work, highway and sidewalk construction and drainage systems installed is done during the summer months when the work can be done in the most economical manner with few complications arising from weather conditions.

Part of the fall program includes cleaning all ditches, drains, catch basins and culverts so that excess water during the spring thaw can be adequately handled. All snow equipment is completely overhauled at this time and snow fence is erected at the most effective locations throughout the Town.

The winter season is almost entirely devoted to snow removal problems. Unlike summer maintenance work where it can be determined in advance just how much work will have to be done, snow and ice problems with the kind and amount is subject only to the dictates of Nature. The Town of Scituate takes pride in its winter maintenance system. Visitors here have been favorably impressed with the road conditions after a heavy snowfall as compared with other localities. As new equipment, materials and methods have come along, refinements have been made in operations but the basic principle has remained the same—speed of operation. The equipment and materials used and the methods employed in their use are all pointed toward taking care of a maximum mileage of roads in a minimum of time.

The Highway Department has utilized the service of the Federal Work relief program since its incorporation, employing about 70 men daily on highway projects.

Work performed under the supervision of the Highway Surveyor during the year ended December 31, 1940 is herewith presented under the proper classification, giving the location and the nature of the improvement thereon.

Rebuilding and Drainage

Greenfield Lane:

Rebuilt 2300 linear feet of roadway, macadam construction; regraded and seeded slopes; installed 70 linear feet of 12 inch corrugated iron pipe and 4 catch basins.

HIGHWAY DEPARTMENT

Cornet Stetson Road:

Installed 310 linear feet of 12 inch vitrified clay pipe and 4 catch basins.

Hawley Road:

Installed 225 linear feet of 8 inch vitrified clay pipe and 2 catch basins.

Hatherly Road (near Egypt Beach Road):

Installed 60 linear feet of 36 inch iron culvert under highway.

Hollett Street:

Installed 96 linear feet of 8 inch vitrified clay pipe and 1 catch basin.

Jericho Road (at Porter Road):

Installed 96 linear feet of 8 inch vitrified clay pipe.

Jericho Road (at Foam Road):

Installed 40 linear feet of 10 inch vitrified clay pipe and 2 catch basins.

Lawson Road:

Installed 90 linear feet of 8 inch vitrified clay pipe and 1 catch basin.

Gilson Road (at Kent Street):

Installed 379 linear feet of 8 inch vitrified clay pipe, 1 catch basin and widened corner.

Oceanside Drive (at Seventh Avenue):

Constructed 50 square yards of bituminous concrete gutter.

Scituate Avenue:

Rebuilt 600 linear feet of gravel and tar blanket roadway.

Stockbridge Road:

Installed 138 linear feet of 12 inch corrugated iron pipe.

Third Avenue:

Rebuilt 600 linear feet of gravel and tar blanket roadway.

Tilden Road (at Turner Road):

Installed 90 linear feet of 12 inch corrugated iron pipe, 132 linear feet of 10 inch corrugated iron pipe, 3 catch basins; and widened corner.

Sidewalks and Concrete Curbing

Booth Hill Road:

Rebuilt 1098 linear feet of sidewalk with tar-penetrated, crushed stone base and bituminous concrete surface.

Brook Street:

Constructed 162 linear feet of sidewalk with tar-penetrated crushed stone base and bituminous concrete surface; and installed 162 linear feet of concrete curbing.

Crescent Avenue (at Bridge Avenue):

Installed 163 linear feet of concrete curbing and regraded slopes.

Jericho Road:

Resurfaced 385 linear feet of sidewalk with bituminous concrete.

Mordecai Lincoln Road:

Constructed 294 linear feet of new sidewalk and rebuilt 288 linear feet of old sidewalk with tar-penetrated, crushed stone base and bituminous concrete surface; and installed 294 linear feet of concrete curbing.

HIGHWAY DEPARTMENT

New Streets

Mary's Lane and Boardman Avenue:

Constructed 1300 linear feet of gravel and tar blanket roadway.

Mitchell Avenue:

Constructed 800 linear feet of gravel and tar blanket roadway; and installed 46 linear feet of 6 inch iron spiral pipe and 1 catch basin.

Town Way off Ann Vinal Road:

Constructed 750 linear feet of gravel and tar blanket roadway; installed 75 linear feet of 21 inch corrugated iron pipe, 126 linear feet of 12 inch corrugated iron pipe and 1 catch basin.

Town Way off Union Street:

Constructed 750 linear feet of gravel and tar blanket roadway; and installed 32 linear feet of 36 inch iron culvert.

State, County and Town Projects (Chapter 90)

Country Way:

Rebuilt 2220 linear feet of highway—gravel base and 2½ inch stone mixed in place surface; regraded street and reduced curve; installed 1515 linear feet of 12 inch concrete pipe, 54 linear feet of 10 inch concrete pipe, 510 linear feet of 12 inch perforated iron pipe, 120 linear feet of 6 inch perforated iron pipe, 24 linear feet of 18 inch reinforced concrete pipe, 15 linear feet of 15 inch reinforced concrete pipe and 10 catch basins; and installed 305 linear feet of concrete curbing.

Gannett Road:

Excavated 2250 cubic yards of peat from roadside; filled in 2719 cubic yards of gravel; installed 60 linear feet of 12 inch reinforced concrete pipe, 213 linear feet of 12 inch plain concrete pipe and 6 catch basins.

Miscellaneous

Ann Vinal Road:

Installed 90 linear feet of retaining wall.

Harbor Parking Space:

Constructed 3500 square yards of additional parking area—filled in with 7838 cubic yards of gravel; tarred entire new section, reset guard rails; installed 72 linear feet of 18 inch corrugated iron pipe with tide gate; and constructed 200 linear feet of concrete curbing.

The progress that has been made by the Highway Department in recent years can be attributed to three principle reasons:

1. Sufficient revenues provided through appropriations made by the voters, a well balanced program and a planned budget.
2. Cooperation between the Board of Selectmen, the Advisory Board, Town Departments, the County Commissioners, The Massachusetts Department of Public Works and the public in general.
3. Competent planning, designing, recording and supervision by a personnel who are thoroughly acquainted with the needs relative to highway development and who, as citizens of Scituate, have a personal interest in the Town's growth.

Respectfully submitted,

CHARLES M. WAGNER,

Highway Surveyor.

PEIRCE MEMORIAL LIBRARY REPORT

REPORT OF THE PEIRCE MEMORIAL LIBRARY

The trustees of the Peirce Memorial Library submit the following report for the year ending December 31, 1940, and express their thanks to the citizens of Scituate for the assistance and co-operation.

Books in circulation in 1939	21,116
Books in circulation in 1940	22,410
Gain	1,294
Magazines in circulation in 1939	1,957
Magazines in circulation in 1940	2,059
Gain	102
Books purchased in 1940	583
Books given in 1940	52
Books borrowed from State or other libraries in 1940	62
Books rebound in 1940	62
Number of active card-holders in 1940	531

During the year a new toilet has been installed, also a storm porch added.

The financial report, covering library expenses found on another page of this book, covers only the actual amount appropriated at the town meeting. The additional money from the dog tax received is much appreciated. We want the taxpayers to know, however, that the amount given by the town does not cover all of the expenses of maintaining the library.

Respectfully submitted,

KATHERINE ELLIS,
President.

ALLEN MEMORIAL LIBRARY REPORT

REPORT OF THE ALLEN MEMORIAL LIBRARY

To the Selectmen of Scituate

The Directors of the Allen Memorial Library have had a very constructive year. The necessary repairs for the building have been completed and it is in first class condition.

The library hall has been relet to the Veterans of Foreign Wars.

A large assortment of new books for reference and fiction are constantly being added. It is the wish that the Library may be of increasing use.

A visit to the Library will, I am sure, convince one that everything is being done to bring and keep the assortment of books useful and up to date.

Respectfully submitted,

T. B. ALEXANDER,
President.

REPORT OF THE SEALER OF WEIGHTS AND MEASURES

Board of Selectmen

Gentlemen:

I respectfully submit my report for the year ending December 31, 1940.

The number of devices sealed for use in trade was five hundred forty-nine. Ten devices were condemned, being unfit for use in trade. One hundred thirty-two adjustments were made on various devices.

Inspections were made of various packaged goods and food products. Many packages put up for sale by weight were inspected and reweighed.

The licenses of many peddlers were inspected. All transient vendors were licensed and the fees received by the town.

Sealing fees collected for the year of 1940 were \$96.46. Adjusting charges were \$5.15. Outstanding fees December 31, 1940, \$0.59. The total amount paid the Town Treasurer during 1940 was \$101.61.

Respectfully submitted,

HOLLIS H. YOUNG,
Sealer of Weights and Measures.

BOARD OF REGISTRARS REPORT

REPORT OF THE BOARD OF REGISTRARS

Meetings for registration of voters in 1940:

February 14th	at North Scituate Fire Station
February 19th	at Scituate Harbor Fire Station
February 21st	at Town Hall
April 10th	at Town Hall
August 28th	at Town Hall
October 11th	at North Scituate Fire Station
October 14th	at Scituate Harbor Fire Station
October 16th	at Town Hall

Nine additional meetings were held for certification of names on Town and State nomination papers.

Registered Voters in the Town of Scituate on December 31, 1940:

Males	1,528
Females	1,487

The Board made a house to house canvas throughout the entire Town of Scituate as required by Chapter 440 of the Acts of 1938, an Act transferring certain duties of local Assessors to the Registrars of Voters relative to the listing of inhabitants.

There were 388 names added to the voting list in 1940 by means of registrations, while 187 names were dropped because of deaths and change of residence, resulting in a gain in registration of 201.

Respectfully submitted,

BERTHA L. TURNER,
J. EDWARD HARNEY,
DANIEL J. QUEENEY,
WILLIAM M. WADE,

Board of Registrars of Voters.

REPORT OF THE CLEAN-UP COMMITTEE

January 19, 1941

Board of Selectmen
Scituate, Massachusetts

Gentlemen:

Your Clean-up Committee for 1940 asked for a slight increase in its appropriation with the intention of adding a second clean-up day in mid-summer.

After careful study and consideration this was not done as we decided it would be a step towards the addition of another costly service by the Town which was not necessary at this time.

CLEAN UP COMMITTEE REPORT

We delayed our collection day this year till the week before Memorial Day to better serve the owners of Summer property. This appears to have been a successful change.

We decided this year to conduct our activity upon a strictly business basis and ignore the fact that there were several trucks available whose owners were clamoring for work; we therefore advertised for bids for the entire trucking job. Not to exclude any truck owners we arranged so that the work need not be done all in one day. This also saved the Board of Health any expense for extra help at the dump. We let the work to the lowest bidder—did a better job and saved about 30% over the previous year. We left an unusual balance of 40% of our appropriation revert to the Excess and Deficiency Account.

We feel very definitely that this activity should be conducted in the future by the Board of Health and they agree with us and have included in their budget for 1941 sufficient funds to provide for doing so.

We therefore recommend the abolition of the Clean-up Committee.

PHILIP L. SCHUYLER
LOUISE ROTHERY
A. D. CREELMAN

REPORT OF THE SCITUATE PUBLIC HEALTH NURSING SERVICE

The Scituate Public Health Nursing Service has held ten regular meetings, with an average attendance of sixteen members.

The President was appointed by the Board to represent the Nursing Service on the Medical Council approved at the Annual Town Meeting in March.

Mrs. James Harris once again conducted a very profitable Membership Drive.

After due consideration, the Nursing Service opened its new headquarters, on July 1st. The new office is located on Front Street in Scituate Harbor. Board Members, under the leadership of Mrs. Joost DeHaan have been very generous in subscribing to the new heating unit. Plans are under way for a Thrift Shop, to be held there at stated intervals, and any donations the townspeople might wish to make such as clothing, books, household articles, etc. will be most gratefully received.

An educational program has been carried out at the monthly meetings whereby members have had the opportunity of keeping abreast of the times in all types of health work. Our sincere thanks to the local doctors who have given so freely of their time to lecture to us, and the hostesses who welcomed us to their homes.

A very successful T. B. Seal Sale Drive was conducted under the chairmanship of Mrs. Robert Tilden.

SCITUATE PUBLIC HEALTH NURSING REPORT

On the recommendation of the Finance Committee, a new car has been purchased for the nurse.

It was voted to hold the Annual Meeting at the High School Cafeteria with Dr. William F. Murphy, as guest speaker.

Our achievements in 1940 are an incentive to more extensive work in the coming year to meet the ever-increasing demands of Public Health Service.

Respectfully submitted,

EDITH G. STALK,

Secretary of Nursing Service.

ANNUAL FINANCIAL STATEMENT OF THE SCITUATE PUBLIC HEALTH NURSING SERVICE

Receipts

January 1, 1940—Cash on hand	\$710.18

Cash on hand, January 1, 1941	566.63
	\$2,067.41

Respectfully submitted,

C. L. HARTS,
Treasurer.

REPORT OF THE BOARD OF HEALTH

To the Citizens of Scituate:

During the past year the Health Department has continued its work, conforming in every way to State laws and all other regulations that make for better health conditions in the various communities of our Town. We cannot urge too strongly upon every individual that health and health conditions are vitally important for the best interests of all. The cooperation of every citizen of this Town is necessary for better health conditions, whether it be in Schools, Clinics or any other Agency that promotes Health education. Therefore we again seek the kindly cooperation we have had in the past for the promotion of those health measures that will continue to make Scituate one of the healthiest communities of the Commonwealth.

Collection of Garbage

The collection of garbage has been carried on as in former years. An increase of new houses, especially on the water front, necessitates that an additional sum of money be raised to care for extra collections. Your Board will also change its contract this year, adding extra collections during the winter months.

Town Dump

Favorable comments have been made by State Departments of the manner in which our Dumps have been kept and regulated, and many of the surrounding towns have copied our methods and have made Dumps similar to those of Scituate. The roadways leading to the Dumps have been kept in good condition so that people can get in and out easily, without mishap. Many individuals are now disposing of rubbish more frequently, which, in itself, helps to reduce the spread of contagion.

Clinics

School Dental, Well Baby, and Antitoxin Clinics were held during the past year, and the favorable results obtained warrants your Board to highly recommend the continuance of all Clinics and broaden out on them whenever necessary.

BOARD OF HEALTH

Inspectors

Inspectors of Milk, Animals, Meat, and Slaughter, also plumbing, have carried on their work very satisfactorily. Separate reports have been rendered by each of them.

Vital Statistics

These records are kept by the Town Clerk and all information regarding Burials, Deaths and Births will be found under the Town Clerk's Report.

Roadside Cleaning

Roadside cleaning has been carried on from time to time during Spring, Summer and Fall, and although a slight improvement has been made, there are still people who continue to disregard rules and signs and persist in disposing of their rubbish on our roadsides instead of taking same to the Dump. We again make a strong appeal to our townspeople and summer visitors to report any violations so that we may know the parties responsible.

Care of Beaches

During the summer months we have cleaned Town Beaches of such waste that is brought in by tides or after a severe storm; by so doing our beaches have been free of any health menace and have been safe at all times for bathing purposes. The cost for this work is comparatively small considering the results obtained and we shall continue the practice during the coming year.

Town Free Parking Spaces

The Town maintained Comfort Stations at most of its free parking areas with the exception of Humarock. If the article now in the Town Warrant for a Police and Fire Dept. Building at Humarock passes, there will also be a Comfort Station here and the serious situation at this point will be taken care of; we urge the passing of this article because a building of that type is greatly needed at this point.

Development Area at Fourth Cliff

Special regulations governing sewage disposal at this point were put into effect to conform strictly to the State Department of Health and Sanitation. No cesspool, septic tank, or plumbing, can be installed unless permit be obtained from our Plumbing Inspectors and locations for tanks, cesspool and drainage must meet the approval of the Inspectors.

Mushquashcut Pond

The complaints from this area were greatly reduced during the past year. We continued the work as outlined by the State Department and although the nuisance is not entirely abated we feel that the methods used were in a great measure responsible for reducing the health nuisance at this point. By the expenditure of a very small amount of money from our annual appropriation this year, we can easily care for the work and therefore we are not asking for any special appropriation.

Cleanup Week

The annual Clean-up that has been held in former years by special article in the Town Warrant has been placed under the direction of the Health Department, instead of special committee. Your Board will hold this Annual Clean-up Week sometime during the month of May; due notice will be given in the Scituate Herald about two weeks in advance.

Complaints properly brought before your Board were given serious consideration, the proper investigations made and satisfactory settlements made in all cases.

BOARD OF HEALTH

No serious epidemics of any nature have occurred in the Town during the past year; what few contagious diseases that were reported were of a very mild nature. **COOPERATION IN HEALTH MEASURES CANNOT BE TOO STRONGLY IMPRESSED UPON THE MINDS OF OUR TOWNSPEOPLE.** Our School Doctor, our Health Nurse, and other agencies have been greatly responsible for the check of many cases, that if neglected, might have caused a spread of contagious disease. We most earnestly request that your support be given in all cases, and that advice given by School Doctor or Health Nurse be followed very closely. Call upon your family doctor frequently in times of epidemics, do not delay at any time; delays are sometimes fatal, many times an illness can be checked before it becomes serious. Report violations of quarantines, and by so doing you will greatly assist in checking the spread of disease.

All Inspectors under the jurisdiction of your Health Department have carried on their work and the Board again takes this opportunity to thank them for the satisfactory manner in which they have performed their duties and to commend them for the success they have had.

Our Town ranks high in the Commonwealth as a health resort and we know the citizens of Scituate are proud of the fact. Therefore we again seek your co-operation in maintaining the health standing we now enjoy.

Many times during the year we have called upon different Departments and Town Officials for assistance and in every case advice and counsel has been given freely. We take this opportunity to thank them for the assistance given.

Respectfully submitted,

WALTER L. ENOS, Chairman
GEORGE H. OTIS
DR. WILLIAM P. GROVESTEN

REPORT OF THE PLUMBING INSPECTOR

To the Board of Health:

During the year 1940 there were 111 permits issued and inspections made of the installation of Plumbing.

New health problems arise each year and they have been met and handled after careful thought thus protecting the health of our constantly growing community.

The development of Fourth Cliff and Humarock Beach with the constant increase in the number of houses presented a particular problem in the matter of the disposal of sewage. This was met by your board through the establishment of Rules and Regulations calling for purification by Septic tanks, leaching drains and cesspools, specified to give the best results in accordance with the location in which the particular disposal was to be made.

Respectfully submitted,

PHILIP S. BAILEY,
WILLIAM F. HARNEY,
Plumbing Inspectors.

BOARD OF HEALTH

REPORT OF THE INSPECTOR OF ANIMALS

To the Board of Health
Scituate, Massachusetts

I wish to report inspection of all cattle, goats and swine. All found in good condition. Have quarantined all dogs that have bitten people.

CHARLES O. CHASE,
Inspector of Animals.

REPORT OF THE MILK INSPECTOR

Board of Health
Scituate, Massachusetts

Gentlemen:

I have issued fifty-four milk licenses, five oleomargarine licenses, one license for milk pasteurization and two licenses for the manufacture of ice-cream.

Samples of milk have been obtained from milk dealers and taken to the City Laboratory in Brockton for tests. In all cases the reports were very favorable.

Respectfully,
GEORGE H. OTIS,
Milk Inspector.

REPORT OF THE INSPECTOR OF SLAUGHTERING

To the Scituate Board of Health

In accordance with the laws of the State of Massachusetts as Slaughtering Inspector I have been present at the slaughtering of all cattle during the year 1940.

I have inspected all slaughtered animals during 1940 and found the same in good condition and suitable for eating and have stamped the same.

Respectfully,
EDWIN L. MERRITT.

BOARD OF HEALTH

REPORT OF THE SCHOOL DENTIST

To the Superintendent of Schools
and the Board of Health.
Scituate, Mass.

Gentlemen:

I take pleasure in presenting the following report of the dental clinic in the Hatherly and Jenkins Schools for the year 1940:

Fillings in Permanent Teeth	345
Fillings in Temporary Teeth	207
Permanent Teeth Extracted	9
Temporary Teeth Extracted	74
Teeth Treated	69
Cleansings	171
Completed Cases	170

For the last few years I have been concentrating on filling the permanent teeth of the children from the second through the sixth grades.

The filling of all small crevices and pits at the proper time prevents many serious disturbances in the oral cavity. This work shows in the report with the insertion of three hundred forty-five fillings in the permanent teeth.

Respectfully submitted,

WILLIS B. PARSONS, D.M.D.,
School Dentist.

REPORT OF THE PRE-SCHOOL DENTAL CLINIC

Scituate Board of Health
Scituate, Massachusetts

Dear Sirs:

The examination of the Pre-School child is most important in that frequently mouths and arches are ruined before the school age.

Dentistry's greatest service can be rendered at this age level, in that the child has before it a long life span with great potentialities, while the adult in many cases has passed his or her productive years.

PUBLIC WELFARE REPORT

During the nine mornings of Pre-School Clinic, thirty-four children were examined this year, with two hundred twenty-one defects within the oral cavity, stressing again as I did last year, the advantage an earlier approach would have.

Twenty-one of those examined were treated at the clinic; in proportion, a twenty percent increase over last year's number. Of this group, nine were completed, with fifty-nine deciduous teeth, and thirteen permanent teeth filled. Four treatments, four extractions, six radiodontic examinations, and seven prophylaxis were included in the work covered.

This year's clinic gave a general knowledge of dietary faults. The 1941 Clinic will include a check-up on such habits and corrective diets will be recommended for every individual child.

Active tooth decay is but one evidence of a disturbance of general health, and the child with active caries should receive nutritional advise, not directed only toward the correction of tooth decay, but toward the enhancement of his nutrition in all regards. Such an approach results in the arrest of decay already present; and used in its entirety, without seasonal lapse, has been adequate to prevent dental caries.

The sponsorship of such a clinic as this speaks well indeed for your board, for it places it in the foreground as a pioneer in health, and establishes its progressiveness in the field of public health service.

Yours respectfully,

JOHN F. CRIMMINS D. M. D.

REPORT OF THE BOARD OF PUBLIC WELFARE

This department made approximately the same expenditures for the year 1940 as for 1939. During the winter the W.P.A. case load increased to 84 from the summer figure of 36. There is no doubt that this has helped the Welfare expenditures in this town to a large degree. The department has received cooperation from the Highway, Water and Tree Departments and this has also aided in keeping expenses at a lower level. The Old Age Assistance and Aid to Dependent Children case load has not advanced during the year. The number of cases on Old Age Assistance and Aid to Dependent Children at the close of the year was respectively 90 and 8.

The following tables show the appropriations, the unexpended balances, and reimbursements to the town from the Commonwealth and other cities and towns.

Town Appropriation	Public Welfare	Old Age Assistance Relief	Old Age Assistance Administration
Bal. from previous year	\$40.06	\$7.00	
Appropriation	17,000.00	22,000.00	1,200.00

	<u>17,614.37</u>	
		34,067.95

The U. S. Grants are reimbursed directly into the Old Age Assistance and Aid to Dependent Children accounts. The amount received from the Commonwealth and other towns are not returned for the use of the Public Welfare Department.

Amount Appropriated	\$44,400.00
Amount received from all sources	34,067.95
	<u> </u>
Net Cost	\$10,332.05

ENGINEERING DEPARTMENT REPORT

On December 19, 1940 the Board lost one of its oldest members, Dr. Harry F. Cleverly, who had been associated with the Welfare Department and the Board of Selectmen in the town for many years. He had acted in an advisory capacity for the past few months because of his failing health.

We wish to thank all organizations, individuals, and other town departments for their cooperation during the year.

Respectfully submitted,

RALPH S. BROWN,
ANNIE M. SOMERS.

REPORT OF THE ENGINEERING DEPARTMENT

Honorable Board of Selectmen:

Gentlemen:

The purpose of this report is to describe the work done by the Engineering Department and to explain the manner in which the money appropriated for Engineering was expended during the past year.

The Town of Scituate employs the method of obtaining Engineering service that other towns of similar size do; i. e., such service is ordered when needed from the Town Engineer and his assistants who work on a part-time basis. This method has been found to be more economical and satisfactory than maintaining a full-time Engineering Department.

The services rendered by this department during the year ending December 31, 1940 are listed as follows:

1. Attending hearings and viewing conditions on the ground preparatory to making layouts of unaccepted streets offered for acceptance as Town Ways.
2. Making surveys and plans for layouts of said streets.
3. Setting monuments in the ground to define the lines of streets accepted during 1940.
4. Making surveys and plans for easements for public utilities crossing private property.
5. Staking street lines for various town departments, public utilities and individuals.
6. Reproducing street lines and replacing monuments where monuments were destroyed.
7. Establishing definite street lines where none existed for land court surveys and other surveys, both public and private.
8. Locating property lines of town property other than streets, i.e., gravel pits, parking spaces and playgrounds.

TOWN WPA AGENT REPORT

9. Appearing at the Massachusetts Land Court for protection of town interests.

10. Making miscellaneous plans for various town departments; making plans of W. P. A. Projects for W. P. A. Officials.

11. Engineering design and supervision of construction projects, both Town and W. P. A. throughout the town.

12. Estimating costs of various proposed improvements throughout the town.

13. Locating details not shown on the Town Plan.

14. Obtaining information at the Plymouth County Registry of Deeds relative to Town interests.

It has been clearly shown to the men in the Engineering Department by comparative observation during the past three years especially that the services required of this Department are steadily increasing with the normal growth of the Town and we in Scituate believe that this fact reflects the progress that our community enjoys.

Respectfully submitted,

DANIEL F. APPLETON,
Town Engineer.

HENRY A. LITCHFIELD,
Assistant Town Engineer.

REPORT OF THE TOWN WPA AGENT

January 21, 1941

To the Board of Selectmen
Town of Scituate

Gentlemen:

At the 1940 Annual Town Meeting, the Town voted \$20,000 to be administered by the Board of Selectmen as a general unemployment relief fund, for the Town's share of materials, trucking and other necessary expenses in connection with Federal unemployment relief projects in Scituate.

This appropriation made it possible for the Selectmen to have eleven relief projects, described later in this report, operated in Scituate, under which the WPA contributed \$42,208.59 for Scituate labor, and \$3,025.52 for non-labor items. These amounts were further increased by the distribution of surplus commodities and clothing valued at \$11,330.59, making a total of \$56,564.70 in Federal Funds granted to Scituate for the year.

At the beginning of the year 1940, there were 114 persons on local pay rolls, including 18 men at the Hingham Naval Ammunition Depot. The usual seasonal reduction in quotas and increase in opportunities to secure private employment reduced the number on all projects to 36 on June 30. From that date there was a steady increase until the number reached 84 at the close of the year, 76 of this

TOWN WPA AGENT REPORT

number being on Scituate projects, 4 at Hingham, and 4 on State-wide projects. The weekly average for the year was 73 as compared with 95 for the previous year, showing a decrease of 22 over the year 1939.

This decrease was not the result of insufficient projects to provide work for all applicants, but was caused by the usual reduction of WPA quotas prior to June 30, the close of the Government's fiscal year, improving industrial conditions making it possible for more workers to secure private employment, increased enlistments in the Military and Naval Service, and the opportunities for men to work on National Defense projects. The percentage of labor turnover indicated that WPA workers cooperated to the fullest extent in their efforts to secure private employment.

It is also a significant fact that of the 35 men who voluntarily left WPA for private employment last spring and summer, and have not requested reinstatement up to the close of the year, that their average age was 37½ years, indicating that the younger men have the advantage in the matter of employment over their older fellow-workers.

The following work projects in Scituate were operated, completed, or held in abeyance during the year 1940, as indicated below:

WP 16,559 Develop a Recreational Area at North Scituate. Operating from April 30 to May 13. Closed.

WP 17,264 Highway Department General Road Construction and Repairs, Drainage, etc. Blanket project. Operating from January 2 throughout the year. Continued operation January 1941.

WP 17,686 Install New Filing System for Police Department. Operating January 2 to March 22. Completed.

Supplementary project to Complete Installation of Police Records File System. Not operated in 1940 on account of contemplated project changes.

WP 17,899 Conserve Shade Trees Throughout the Town. Operating from January 2 to June 10. Seasonal. Operation in 1941 uncertain account of National Defense program.

WP 18,097 Indexing and Classifying Old Town Records. Operating January 2 to April 12. Closed.

WP 18,380 Control and Eliminate Leaf Feeding Pests. Operating January 2 to May 6. Completed.

WP 18,431 Construct Fire Trails Through Woodlands. Not operated in 1940. Operation in 1941 uncertain account of National Defense program.

WP 18,974 Prepare Record of Graves of Veterans Buried in Scituate. Operating January 2 to February 13. Completed.

WP 20,978 Improve Water Supply System. Cedar St., Front St., Tilden Rd., Hawley Rd. and Brockton Ave. Operating from January 9 throughout the year. Continued operation January 1941.

WP 21,432 Control and Suppress Leaf-Feeding Insect Pests. Not started in 1940. Operation in 1941 uncertain account of National Defense program.

WP 21,490 Index School Committee Meeting Records, etc. Operating from July 22 for remainder of year. Continued operation January 1941.

WP 21,689 Distribution of Surplus Commodities. Operating from January 2 throughout year. Continued operation January 1941.

TOWN WPA AGENT REPORT

WP 21,771 Indexing and Classifying Old Town Records. Supplementary. Operating from September 30 for remainder of year. Continued operation January 1941.

WP 22,361 Construct Water Mains in Jericho Road. Approved for operation December 14. Operating January 1941.

Construction Work at Hingham Naval Ammunition Depot. Employs Scituate citizens. Operating throughout the year. Continued operation January 1941.

In the non-manual projects, employment is provided for 3 ladies as Sr. Clerks and 2 ladies as Sr. Typists.

There were no changes in the WPA wage or work schedules during the year.

The regulation that all persons having 18 months continuous employment, be removed from the pay rolls for at least 30 days, is still in effect.

The rules regulating the referral by the Board of Public Welfare of persons for certification for WPA employment remain unchanged.

Work projects embracing Highway Construction and Repairs, mean better traffic conditions and greater safety to the public, while the installation of new Water Mains and the replacement of old and badly corroded pipes for those of larger diameter, is of widespread benefit, because it means a better household water service, additional fire protection, and the opening up of new areas for home building which have remained idle in the past.

In these two Town departments alone the possibilities of development through WPA work projects are unlimited. Projects of this character also give the greatest measure of satisfaction, because the majority of those seeking WPA employment are unskilled workers and those whose physical condition or age would not meet present-day employment requirements, and are therefore, least likely to secure employment in regular industry or on the National Defense program, and must depend to a great extent on Federal Relief work for a livelihood.

The National Youth Administration has been particularly active in providing work for the youth of both sexes between the ages of 17 and 24 years, inclusive.

The Cohasset Resident Training Center, where a combined work and training program is in operation, now has 5 Scituate young men among its enrollees. Applicants are selected on a basis of aptitude and suitability to the training offered. Young men in the above age class, who are interested and unemployed, regardless of family income, should apply at 143 Pond St., Cohasset, for enrollment information.

For the employment of young ladies under NYA, the Allen and Pierce Libraries provide employment for 4, where their work under the supervision of the Librarians enables them to secure a training in library methods which fits them for future work in this field.

Another NYA project, put into operation in December, provides clerical and stenographic assistants for Town Departments when required. At the close of the year 5 young ladies were thus employed.

The later part of December, a NYA project to employ young ladies as school lunch assistants in the High School Cafeteria was approved. It is expected that assignments will be made to it during January.

These new projects of the NYA greatly benefit the youth worker who is experiencing much difficulty in getting suitably placed in commercial or industrial life.

TOWN COUNSEL REPORT

As a result of the operation of these varied activities under the WPA and NYA during the year, the Federal Relief program has unquestionably reduced unemployment and welfare expenditures, as well as provided the Town with desirable improvements which could not have been otherwise obtained at this time except through a substantial expenditure of money.

In closing this report I wish to express my sincere appreciation to the Board of Selectmen and other Departments for the splendid cooperation given me, and to the representatives of the WPA and NYA for their helpful and timely suggestions which have been of great assistance during the year.

Respectfully submitted,

HERBERT A. WHITING,
Town WPA Agent.

REPORT OF TOWN COUNSEL

February 7, 1941.

In addition to a variety of legal matters submitted by various departments of the town in 1940, I call special attention to the following matters:

Settlement of Estelle Powers v. Town after calling of pre-trial list for Suffolk County—suit for personal injuries and property damage.

Settlement case of Mary K. Nichols v. Town—personal injuries.

William Holden et al v. Board of Assessors, 2 Appellate Tax Board—case dismissed.

Prouty Land Court petition, reservation of public rights in sea wall in final decree.

Cohasset v. Scituate Board of Public Welfare—case argued before the Appellate Court. Plaintiff's appeal dismissed.

New York, New Haven and Hartford Railroad and Old Colony Railroad hearings—appearance at Washington and Boston on various phases of proceedings.

All of the above cases have come to a satisfactory conclusion except the New Haven and Old Colony proceedings now pending and in which we are awaiting the report of the Interstate Commerce Commission.

The National Defense program has greatly enhanced the likelihood of our maintaining present rail passenger service on the Boston and Greenbush line.

The principal land acquisition of the town during the year is the purchase of Barker Beach with other land for recreational center and parking space.

Respectfully submitted,

VERNON W. MARR,
Town Counsel.

W. IRVING LINCOLN,

Assessors of Scituate.

PLANNING BOARD REPORT

PLANNING BOARD REPORT

Selectmen of the Town of Scituate.

Gentlemen:

The Planning Board of Scituate has not given up its ideas of some day seeing a Civic Market somewhere in Town for the use of its citizens.

Your Board has been busy getting the opinion of the Town as to the advisability of a Building Code. Next year we expect to have a simple Code that will make for better building in some instances and will definitely protect the prospective owner against poorly constructed houses.

It's a pleasure to report that the legitimate builder as a whole in this Town builds as good builders should; it's mostly the outside contractor who is to blame for abuses in the Building Trades.

RALPH C. ACKERMAN, Chairman,
HAMILTON W. WELCH,
STEVEN C. WEBSTER,
JOHN M. GOODNOW,
RICHARD A. LEVANGIE, Secretary,
Scituate Planning Board.

Released—first offense—drunkenness	36
Sentenced to County and State institutions—committed.....	18
Suspended sentences—placed on probation	13
Turned over to other police departments	6
Complaints investigated by police officers	2678
Cottages inspected	2467
Fires covered by police officers	78
Intended sale and transfer of motor vehicles—reported.....	81
Motor Vehicle accidents investigated by police officers.....	63
Operators booked	260
Windows unlocked and lights left on	297
Pistol permits issued	25
Summonses served for other police departments.....	75

REMARKS

The practice of inspecting all untenanted cottages has been carried on as in other years. These inspections are made as often as time permits. The number as listed above is the number of inspections made and is not intended to convey the idea that we have 2467 untenanted cottages in town. All business houses or stores are observed nightly to see that doors and windows are secure—and as a protection against fire and theft.

The ambulance provided by a vote of the town—for use by its citizens—in May of 1935 continues to be regarded as a blessing by those who, because of illness or injury, require this service. During the year 159 trips were made for a total mileage of 6557 miles. The total cost of upkeep amounted to \$246.82, of which \$50.00 was returned by nonresidents. This service required 427 hours of an officer's time or better than 47 working days of 9 hours per day. Words of commendation, both written and oral, best indicate the deep appreciation of those to whom this service was rendered.

PUBLIC HEALTH NURSE REPORT

Police officers are detailed to traffic duty during the school year at the Hatherly and Jenkins Schools—three times each day, as a protection to school children while crossing the roadway. That this service minimizes the chances of injury to the pupils having occasion to cross the street at these points, and is appreciated by the parents of the children, is evidenced by the expressions of appreciation from these parents.

Details of one or more officers have covered all school activities which were public, both on the playground and the high school auditorium when requested.

The demand for special police service during the summer months has increased materially. Full time service has been rendered from June 15th to Sept. 15th at Humarock Beach and North Scituate Beach. The officers assigned to this service are each provided with one of the department's motorcycles in order to better cover the territory to which they have been assigned. A request from the Sand Hills Beach Association has been received calling for the services of a motorcycle officer from June 15th to Sept. 15th. We feel that this service is essential and that the demands from the people of these sections is not unreasonable. This added service has added but little to the cost of the department.

The heavy increase in traffic and the need of more attention to the parking problems at Scituate Harbor has called for the use of extra men. We feel that with these men now on duty at the beaches they may be called upon during the rush hours to help regulate traffic and parking at the Harbor.

A School of Instruction for police officers was held during the months of February and March. The instructors were special agents of the Federal Bureau of Investigation and were obtained through the courtesy of Chief Edgar Hoover and Special Agent in Charge of the New England District V. W. Peterson. These school sessions were attended by some sixty police officers from various departments in the district. The opportunity afforded the individual officer to further his knowledge on police matters is of course highly beneficial but beyond that such sessions have a tendency to create good will between officials and members of these departments and a greater promise of co-operation and co-ordination of effort when the occasion arises.

In conclusion we wish to express our deep appreciation of the support, advice and encouragement tendered us by your honorable board throughout the year. Without your co-operation, our task would indeed be more difficult and the service rendered less efficient.

Respectfully submitted,

MICHAEL E. STEWART,
Chief of Police.

REPORT OF THE PUBLIC HEALTH NURSE

Selectmen,
School Committeemen,
Board of Health Officers,
Directors and Members of the Scituate Public Health Nursing Service:

The Nurse's annual report is what might be termed a yearly account of her stewardship. To those who have been actively engaged in helping the nurse with the health program, it reveals the fruits of their efforts to do good in the community. To others, it may be a factor in stimulating their interest so that they too, will be able to contribute in some measure to the welfare and happiness of the townspeople.

PUBLIC HEALTH NURSE REPORT

The general program has followed about the same pattern as in previous years, with occasional changes made from time to time.

Our objectives are familiar to you all. The Public Health Nursing Service, in conjunction with the Departments of School, Welfare, and Board of Health, provides an organized service which includes the interpretation of medical, sanitary, and social procedures for the correction of defects, prevention of disease, and promotion of health in the community.

Number of Nursing Visits	195
Number of Free Nursing Visits	44
Number of Prenatal Visits	6
Number of Infant Welfare Visits	27
Number of School Visits	129
Number of Home Visits for School Children	58
Number of Home Visits for Preschool Children	38
Number of Children taken home ill	14
Number of Follow up Visits	140
Number of Local Clinics	103
Number of Hospital Clinic Visits	201
Number of Doctor's Office Visits	36
Number of Office Visits	269
Number of Conferences (with health workers)	142
Number of Public Health Meetings attended	38
Number of Unclassified Visits pertaining to Public Health Work.....	809
Total Number of Visits	2249
Trips for transportation for local clinics, approximately	300
Telephone communications, approximately	2000

The morbidity service shows a considerable decrease in the number of visits. This is, however, offset by the number of visits to hospitals and clinics made in the interest of cases under the Federal and State Old Age Assistance Program.

Visits made for prenatal service were fewer in number this year, since nearly all patients received hospital care.

The Well Child Conference was held on the fourth Wednesday of each month, and was well attended with the exception of a few times when traveling was difficult.

The Diphtheria Prevention Clinic was held in the Spring. Seventy-nine (79) children were immunized against diphtheria. Dr. Alexander and Dr. Stalk conducted the clinic.

The Preschool health examination was held, and many of the children found to have defects, had corrections made before entering school.

The Dental Clinic for preschool Children was held during the summer. Dr. John Crimmins was in charge.

For the School age group, the following services were available:

School Dental Clinic, in charge of Dr. W. B. Parsons.

Hearing Tests with the aid of the audiometer. These tests were made by Anna J. Foley, of the County Health Department.

Vision tests were made by the school principals.

Several children were cared for in the Habit Clinic, and Clinic for the mentally retarded.

PUBLIC HEALTH NURSE REPORT

An opportunity was given to all children in the High School to receive a check-up for the purpose of discovering tuberculosis in this age group. The report showed:

Skin tests made	156
Reactors	36
X-rays	37
(Negative 34)	
Physical examinations	3
Continued on follow up group	5
Discharged from follow up	2
Left school	3

Total number of pupils on follow up group—5. Known contacts were checked at the Plymouth County Hospital.

There was a mild outbreak of chicken pox, whooping cough, and a few cases of scarlet fever. Cases reported were:

Chicken Pox	26
Whooping Cough	47
Scarlet Fever	8
Mumps	4

This year the Nursing Service did not sponsor a clinic for the removal of defective tonsils and adenoids. Limited funds was the reason for omitting this service.

During the past twenty-one years, the Nursing Service has been provided with office space without expense to the Organization. For the past twelve years, the scope of the work has been gradually widening so that more room was required for records and supplies, and for carrying on regular business. Fortunately, a place just suited to the needs of the Organization became available for rental in June; and the Board, after giving serious thought to the expense of maintaining headquarters, finally voted to go through with the plans. This office has been a means of creating more interest in the work of the Organization, and many people have expressed their willingness to give support for its upkeep.

The office has also been used to provide placement service to those seeking various kinds of employment; also for the distribution of clothing, supplies, and health material.

In the spring, the nurse and two Board Members, Mrs. Murray Trefrey and Mrs. Kenneth Mayo took a course in "Mental Hygiene." Meetings and classes in other subjects were also attended by the Board Members and Nurse during the year.

To all who have helped with the work, I express my sincere appreciation. In working together, let us keep in mind as a guide, the words of the late Justice Oliver Wendall Holmes, "I find the great thing in this world is not so much where we stand, so much as in what direction we are moving." May we be given the light to go forward in that direction which will enable us to do most for the needs of our fellowmen.

Respectfully submitted,

MARGARET J. O'DONNELL, R.N.,
Public Health Nurse.

COMMUNITY HEALTH PROGRAM REPORT

ADMINISTRATION OF COMMUNITY HEALTH PROGRAM

PRESENT SET-UP: Annual appropriation made at March Meeting to provide one Public Health Nurse for a generalized Health Program. (Nurse to meet with State and National qualifications for Public Health Nurses) to be employed under the direction of:

SELECTMEN BOARD OF HEALTH
BOARD OF PUBLIC WELFARE SCHOOL DEPARTMENT
SCITUATE PUBLIC HEALTH NURSING SERVICE, INC.

OBJECTIVES: To better the living conditions of individuals and families through education, and to provide skilled nursing care for the sick in the homes.

Nurse's responsibility to each Department:

SELECTMEN: Care of the Indigent (non-relief cases).
Soldiers' Relief Cases.
General Community Health Interests.

BOARD OF PUBLIC WELFARE:

Cooperating with this Board in getting patients to Clinics. Reporting cases and carrying out recommendations of the Board. (Old Age Assistance Cases, Aid to Dependent Children, Border line cases).

Recommendation by this Department, that due to the number of Old Age Assistance Cases, more time is needed for health supervision. This Board feels that because of the pressure of work by the combined Departments, it has been reluctant to put more duties on the Nurse. Yet, the Board agrees on the fact that much could be accomplished, and Old Age Pension Recipients would fare better if more health supervision could be given them.

BOARD OF HEALTH: (Function of Public Health Nurse)

To plan and direct clinics for communicable disease control, and measures for disease prevention. Aid Department in finding T. B. cases (provide examination, and supervision of contacts). Aid Department in finding Syphilis and Gonorrhea cases and providing transportation for treatment (supervision of contacts). Local Clinics (Baby Clinic, Preschool Dental Clinic, Preschool Clinic, School Dental Clinic (grade schools) Diphtheria Prevention Clinic, Tuberculosis Clinic) Follow up on communicable disease cases.

SCHOOL DEPARTMENT: (Program in conjunction with Board of Health)

Assists School Physician with examinations.

Makes Home Visits for Children (follow up on physical defects).

Checks up on absentees whenever possible.

Assists with clinics (preschool, Preschool Dental, Dental, and Audiometer tests).

Arranges with parents in cooperation with family physician for correction of physical defects.

PLYMOUTH COUNTY EXTENSION SERVICE REPORT

Class room inspections (periodic and emergency) (First Aid)

Health Records—(Letters and notifications to parents)

Conferences with Parents and Teachers.

Weighing and measuring classes (underweights)

Guidance (mental clinics) conferences with parents, teachers, pupils in social maladjustment.

The wide range of school health activities, clinics, first aid treatments, inspections, individual conferences, attendance work should necessitate the presence of the nurse throughout the school day. This type of work cannot be scheduled for a definite time in the day, but must be carried out as the occasion or need arises.

The recent epidemic of colds and grippe, and in some instances influenza, has indicated the need for more school health service. With one nurse doing part-time work in the schools, it frequently happens that she is busy with duties elsewhere in the community when she is needed in one of the three schools. Sometimes, this means quite a delay before the nurse can answer the call. Therefore, the School Department could very well use more of the nurse's time.

NURSING SERVICE:

A volunteer agency which assists the nurse in carrying on a generalized health program in the Town. This Organization raises funds for use in conjunction with Town Departments. Until a few years ago this Organization provided the car for transportation of patients and nurse. The cost was more than the Nursing Service could meet, and by vote of the townspeople, an appropriation was made to take care of this expense.

Prenatal, home delivery, postpartum, infant welfare, preschool, morbidity service, follow up, health education in the community (School, Youth, and Adult). (See Nursing Service Pamphlet.)

THE PLYMOUTH COUNTY EXTENSION SERVICE

During 1940, the Plymouth County Extension Service has performed its usual function of helping rural, village, and city people with the problems of farming, homemaking, and 4-H club training. Each year ever-increasing demands are being made on this organization to organize, administer, and teach programs of national, state, county, and town importance.

The agricultural department has a wide range of services for commodity groups in dairying, poultry husbandry, fruit and vegetable culture, cranberry growing, general livestock management, forestry, and many other subjects. In each of these, special emphasis has been placed on marketing in recognition of this need with production problems more completely solved than those of merchandising.

Close cooperation and collaboration have been maintained with local organizations and other federal agencies. Some of these are as follows: Plymouth County Farm Bureau, Cape Cod Cranberry Growers' Association, Plymouth County Poultry Association, Bristol-Plymouth Fruit Growers' Association, Satucket Dairy Herd Improvement Association, and Brockton Cooperative Egg Auction Association, The Federal Land Bank, Taunton Production Credit Association, Farm Security Administration, and the Agricultural Conservation Program.

WATER COMMISSIONERS' REPORT

The Home Demonstration Department held meetings in every town in Plymouth County during the past year. Emphasis was placed on home beautification, food preservation, nutrition, health and recreation. In addition to meetings, other help was given by letters, phone calls and home visits.

4-H club work not only develops agricultural and homemaking ability among its boys and girls, but trains them also in self reliance, good sportsmanship and good citizenship. Clothing, home furnishing and food projects teach girls a greater appreciation of good home and community living, while in the stock and crop raising projects boys are shown the value of modern methods as well as getting a knowledge of business.

4-H club work is a truly American idea, for all of America's youth.

The course which the Extension Service follows is largely determined by local people. Your board of trustees, town directors, women's advisory council, and commodity committeemen, have by a majority approved these programs. The service of all departments is available to everyone. The Extension Service has its place in bringing to the attention of Plymouth County people the principles of good farming, good homemaking and good citizenship.

Briefly, some of the accomplishments for Plymouth County in 1940 which may be shown statistically, are as follows:

Number of meetings conducted	877
Attendance at these meetings	26,650
Farm and Home Visits made	2,233
Number of different circular letters	293
Total circulation of these circular letters	95,656
Number of 4-H clubs	101
Number of 4-H members enrolled	1,881
Number Home Demonstration Clubs	115
Number women enrolled	2,171

The financial assistance and moral support of Scituate is greatly appreciated by the people the Extension Service assists. A continuation of its support is justified on the record it has achieved. Its influence cannot be measured by monetary values, but its educational programs and individual assistance constitute one measure in the first line of national defense.

CHARLES E. MITCHELL,
Town Director.

STATEMENT OF BOARD OF WATER COMMISSIONERS TO TOWN OF SCITUATE

It is pleasing to report vast improvements in the water system. The replacing of small lines with eight-inch mains, and the steady extension of a water supply to new takers continue. We recommend, for full details of the work done and improvements made in 1940, a careful study of the report of the Superintendent of the Water Department, which follows. The actual cost to the Town has been surprisingly small because of federal aid on many projects.

WATER COMMISSIONERS' REPORT

The extension of an eight-inch main, one and a quarter miles to Fourth Cliff under the most difficult conditions was accomplished at a cost of \$13,382.24. Of this, only \$2882.24 was paid by the Water Department; interested parties paid \$10,500.

Annually in January the rates are fixed, and our income is estimated, and work for the year is planned.

At the Town Meeting in March each year, various projects are voted, new streets are accepted, and the Water Department finds itself saddled with expenditures for which there are no available funds. We think that the best interests of both the Town and the Water Department would be met by including in each article accepting a street, enough money to lay the water main when one is to be required. When there is need of a new street, a water main is needed also. If the street already contains a shallow main, the construction will require its removal, and it should be replaced by a permanent line below frost. This obviously should be done before a new street is surfaced.

Every citizen will be interested in the figures that follow. This statement is a comparison of the conditions in the Water Department when Scituate took it over in 1931 and conditions and costs as of 1940.

	1931	1940	Increase	Decrease
Value	\$742,123.48	\$942,893.17	27%	
Mains	39.8 ms.	59.6 ms.	50%	
Hydrants	223	335	50%	
Services	2283	2775	21.5%	
Rates	\$34. 1st op. Tub,w.c. 34 meter	\$21.00 18.00		38% 47%
Fire Serv.				
Rate/hyd.	\$125.	\$97.00		22.5%
Bonds paid		\$264,590.00

Difference between 1931 rates & 1940 rates		36,075.00 Less		
Added 1,250,000 gallon standpipe (storage) Purchased and operated Humarock developments.				

JOHN F. McJENNETT, Chairman,
STEPHEN C. WEBSTER,
WILLIAMS B. JAMES,
Board of Water Commissioners.

REPORT OF SUPERINTENDENT

The Honorable Board of Water Commissioners,
Scituate, Mass.

Gentlemen:

Herein I beg to submit for the consideration of the Water Commissioners, the ninth annual report of the Scituate Water Department, including therein a chronicle of the work performed during the year 1940 and recommendations for future operation and improvement of the Water Department.

WATER COMMISSIONERS' REPORT

One of the improvements undertaken by the Water Department is that of replacing the small shallow supply lines in Humarock, with mains of sufficient size to supply fire service, through hydrants, and laying them at such a depth as to avoid the frost action. This work has been accomplished for the most part during the winter months, to relieve the unemployment situation, and another section was started in the early part of January of this year. About nineteen hundred feet of six inch pipe was laid during January and February, and later the services to the property line were completed below the frost line. This installation not only assures the consumers water service for the entire year, but saves the Town the cost of labor and materials for service and repairs, constantly required, where small shallow lines are in use. Lines of this type throughout the Town are gradually being replaced with mains of fire service capacity, giving twelve months service. The work is being done as funds become available, or as required when the streets are rebuilt. Particular appropriations should be made for new construction, or reconstruction, where the water lines are now small and shallow, if renewal is required at once.

Early in the year, development of Fourth Cliff was started by private enterprise. There was no water supply at Fourth Cliff and it immediately became necessary to devise ways and means to finance the installation of a potable supply for the development.

The budget of the Water Department is such that it was of course absolutely impossible for the Department to make the addition to the system without the use of other funds, and any money whatsoever that was to be supplied from the Water Department funds, became an expense that was entirely unforeseen and for which no provision whatsoever had been made.

After the futility of attempts to obtain Federal aid became definitely apparent, the Water Department, the developer and the U. S. Navy arranged to supply funds for the installation of 6,726 feet of 8-inch, and 782 feet of 6-inch water main, extending from the end of the 10-inch main at the northerly end of Humarock to, and around, the west side of Fourth Cliff.

At this point, time became a very important factor, and together with the difficulties to be met in the beach sand and loose beach stones, resulted in a decision to have the work done by a contractor, using power shovels, under the supervision of the Water Department.

Under these conditions an addition of 7,508 feet of water main was made between June 3 and June 25, in 17 work days.

The supply lines to the higher parts of the Cliff were furnished by the developer, using 2-inch galvanized steel pipe and laying it about 12 inches deep. This is not a particularly satisfactory condition and requires labor to drain the lines in the fall and to recondition and restore the service again in the spring. Most of the houses in this section where two-inch pipe has been laid have been built for summer occupancy only, and do not require water service during the winter, but there have been requests from owners of property to have mains laid deep enough to avoid frost action.

The development of the Fourth Cliff has added many thousands of dollars worth of taxable property to the Town, and a water supply of this character would have been demanded by the many property owning taxpayers in this section, at once, and at the entire expense of the Town. It was indeed very fortunate that the U. S. Navy and the developer agreed to furnish funds to such an extent that the project became possible; and the wisdom of completing the work as outlined is very apparent.

WATER COMMISSIONERS' REPORT

The Water Department was, at once, required to install service connections, and during the season, 76 connections were made, adding what must be termed, unforeseen expenditure by the Department.

Reconstruction of Mitchell Avenue and Pond Road was carried on during April and the Water Department was called on to lay a main approximately 1,000 feet long through these streets. This work had been contemplated by the Department as a Federal Aid project but no provision had been made for it in the 1940 budget. It would seem feasible, in a case of this sort, to include sufficient funds in the appropriation for reconstruction to install the water supply as required.

Throughout the year, Federal Aid Work has been carried on to considerable advantage and while the work during the winter months cannot be prosecuted as efficiently as during the summer, the average has been very satisfactory and 5,610 feet of main have been laid during 1940.

In January and February a main was laid on Tilden Road from Norwell Avenue to Garden Road, completing an essential loop in that section.

From March to July, work was carried on, in the westerly part of the Town, to finish the installation of a main on Cedar Street.

During July, August and September, mains were placed in Hawley Road and Brockton Avenue.

Because of the summer or seasonal traffic, the work of replacing a very badly corroded and carbonized cast iron main at Satuit Brook was done in October and November. This particular project consisted of laying a twelve-inch Transite main in Front Street to take the place of the old main in the marsh.

Work replacing an old two-inch line and completing a circuit on Tilden Road between Turner Road and Garden Road was continued in December. The small pipe was replaced and the circuit is being completed with an eight-inch main.

Federal approval has been obtained for a project to replace an old line on Jericho Road with a larger main, and work is scheduled to start early in the year. This new main will reinforce the system in the Sandhills to a very considerable extent and the fire fighting service will be improved very much.

Deficiency in rainfall amounting to 15.43 inches in the last two years has affected our supply very noticeably. While we have not been short of water, or even dangerously close, it would seem expedient to construct another well in Webster Meadow to help carry our peak loads.

The well system at Beaver Dam has depreciated considerably and could be reconditioned to advantage.

The information we have on this well field indicates the possibility of using a gravel packed well system and relocation of the pump for improved efficiency. The work in these well fields should be carried on as soon as funds can be made available.

Emergency measures are always in order and the wars in Europe which seem to be approaching the United States closer every day, only suffice to impress everyone with the importance of additional protection. We are now using electric power for pumping water at all of the stations, and purchase the power from the Brockton Edison Company which has many interconnections through the neighboring states. However, with all this backing, there have been times when the power has been off, and the pumps at a standstill. To overcome this condition, a larger generator could be installed in the Old Oaken Bucket Station and operated by the diesel motor that we have now. This would furnish power to operate pumps in Webster Meadow and provide an emergency supply of water.

WATER COMMISSIONERS' REPORT

Numerous complaints have been received from different parts of the Town, throughout the year, relative to the hardness of the water.

Inability to produce soapsuds or the exceptional amount of soap powder required to remove the dirt was spoken of most frequently. Reports from the State Board of Health, show a hardness of 64 parts per million in Seituate in 1939, while at the same time, reports from the same source, indicate a hardness of 23 P.P. M. in Cohasset and 11 P.P.M. in Marshfield. These figures mean that Seituate water requires several times as much soap and work to obtain satisfactory results. A section of the Old Oaken Bucket pumping station could be used to advantage if a softening plant were installed.

Further development in the Fourth Cliff, in Humarock and in a new section south of the present settlement in Humarock, will require numerous extensions for water service. Preparations are being made to construct one hundred or more summer houses, fifteen of which are already built or now under construction. These developments will not require quite as drastic action as did the Fourth Cliff originally, but will, nevertheless, require water service.

Tables on the following pages show detailed account of various phases of the work.

WILLIAM J. LUMBERT,
Superintendent.

General Statistics

Population by census of 1935	3846
Construction of system started	1893

Now owned by the Town of Seituate:

Valuation, December 31, 1940	\$942,893.17
------------------------------------	--------------

Sources of Supply: Ground water from wells, and the Old Oaken Bucket Pond.

Water is supplied to the system through pumps as shown.

Pumping Statistics

1. Smith Vail Triplex pump electrically driven by 10 H. P. Century Motor.
2. Fairbanks Morse Turbine pump driven by 30 H. P. Fairbanks Morse electric motor.
3. Fairbanks Morse Duplex pump driven by 15 H. P. Howell Motor.
4. Dean Hill centrifugal pump driven by DeLaVergne 130 H. P. Diesel engine.
5. Smith Vail Triplex pump driven by DeLaVergne 35 H. P. Diesel engine.
6. Byron Jackson centrifugal pump electrically driven by 40 H. P. G. E. Motor.
7. Byron Jackson centrifugal pump electrically driven by 75 H. P. G. E. Motor.
8. Byron Jackson centrifugal pump electrically driven by 75 H. P. G. E. Motor.
9. Sterling deep well pump electrically driven by 10 H. P. G. E. Motor with Morris centrifugal booster pump driven by 10 H. P. G. E. Motor.
10. Sterling deep well pump electrically driven by 10 H. P. G. E. Motor with Morris centrifugal booster pump driven by 7½ H. P. G. E. Motor.
11. Peerless deep well pump electrically driven by 15 H. P. G. E. Motor with Morris centrifugal booster pump driven by 7½ H. P. G. E. Motor.
12. Fairbanks Morse deep well pump driven by 15 H. P. Fairbanks Morse Motor.
14. Fairbanks Morse Turbine driven by 3 H. P. F. M. Electric Motor.
15. Fairbanks Morse Turbine driven by 3 H. P. F. M. Electric Motor

WATER COMMISSIONERS' REPORT

REPORT OF THE TREE WARDEN

To the Citizens of Scituate:

I have planted one hundred and nine shade trees, namely: Maple, Elms, and Willows.

The Elm Tree Beetle is very badly spread all over our town. The only remedy is to spray.

The Dutch Elm Disease is in the southern part of our State, near the Connecticut line. Investigation shows that the disease may be in a tree for several years before the leaves wilt, which is the only outward evidence of its presence.

This makes early detection very difficult and therefore many isolated infections may be in existence even in Massachusetts, which will not be revealed for three to five years.

The only known effective means of eradicating the disease is to cut down all infected trees and burn.

It is carried chiefly by insects such as the elm tree beetle which is the chief offender.

The attention of the public is called to the fact that unscrupulous persons representing themselves as expert tree men have claimed to find disease on private estates in hope of getting work. The disease has not been found in this State as yet.

WILLIAM F. FORD,
Tree Warden.

TREASURER'S RECEIPTS AND EXPENDITURES REPORT

REPORT OF THE TOWN FOREST COMMITTEE

To the Citizens of Scituate:

The usual annual work has been carried on at the Town Forest, pruning and trimming, and the young trees are showing a wonderful growth.

The past summer the fireplace has been quite a convenience. An invitation is extended to the townspeople to visit and enjoy this forest.

MARY CRESSY, Secretary,
EMMA LITCHFIELD,
WILLIAM F. FORD,
Town Forest Committee.

TOWN ACCOUNTANT'S REPORT

REPORT OF THE TOWN ACCOUNTANT

To the Honorable Board of Selectmen:

Gentlemen:

In compliance with the provisions of Chapter 44 of the General Laws, I herewith submit the following report of the Accounting Department for the year ending December 31, 1940.

I have also included a detailed statement of disbursements showing amounts paid and the persons to whom payments were made, as requested by vote at the annual meeting held March 7, 1927.

E. ELIZABETH COLE,

Town Accountant.

REPORT OF STATE AUDIT

February 8, 1940

To the Board of Selectmen:

Mr. James W. Turner, Chairman

Scituate, Massachusetts

Gentlemen:

I submit herewith my report of an audit of the books and accounts of the town of Scituate for the year ending December 31, 1939, made in accordance with the provisions of Chapter 44, General Laws. This is in the form of a report made to me by Mr. Herman B. Dine, Assistant Director of Accounts.

Very truly yours,

THEODORE N. WADDELL,

Director of Accounts.

TNW:FC

STATE AUDIT REPORT

Mr. Theodore N. Waddell

Director of Accounts

Department of Corporations and Taxation

State House, Boston

Sir:

As directed by you, I have made an audit of the books and accounts of the town of Scituate for the year ending December 31, 1939, and report thereon as follows:

The financial transactions, as recorded on the books of the several departments receiving or disbursing money for the town or committing bills for collection, were examined, checked, and reconciled with the books and records of the town accountant.

The books and accounts kept by the town accountant were examined and checked in detail. The recorded receipts were verified by a comparison with the treasurer's books, while the payments, as recorded, were checked with the warrants authorizing the treasurer to disburse town funds. The recorded appropriations and transfers were checked with the town clerk's records of town meetings and with the advisory board's records of transfers from the reserve fund.

The ledger accounts were analyzed, and a balance sheet, which is appended to this report, was prepared showing the financial condition of the town as of December 31, 1939.

The books and accounts of the town treasurer were examined and checked in detail. The cash book additions were verified, and the recorded receipts were analyzed and compared with records of the town collector and of the several other departments collecting money for the town, as well as with the other sources from which money was paid into the town treasury. The payments were checked with the selectmen's warrants to the treasurer. The treasurer's cash balance on January 19, 1940, was proved by a reconciliation of the bank balances with statements furnished by the banks of deposit and by actual count of the cash on hand.

The recorded payments on account of maturing debt and interest were checked with the amounts falling due and with the cancelled securities and coupons on file, the outstanding coupons being listed and reconciled with a statement furnished by the bank.

The tax title deeds on hand were examined and listed. The amounts transferred from the tax and assessment levies to the tax title account were verified, the reported redemptions and foreclosures were checked, and the tax titles on hand were listed and checked with the records in the Registry of Deeds.

The savings bank books representing the investment of the trust funds in the custody of the selectmen were examined and listed. The income was proved and the transfers to the town were verified.

The books and accounts of the town collector were examined and checked. The tax, assessment, departmental, and water accounts outstanding at the time of the previous examination were audited, and all subsequent commitment lists were added and reconciled with the records in the departments committing the accounts for collection.

STATE AUDIT REPORT

The payments to the treasurer by the collector were checked to the treasurer's and accountant's books, the recorded abatements were compared with the assessors' records and with the records of other departments authorized to grant abatements, and the outstanding accounts were listed and reconciled with the accountant's ledger accounts.

Verification of the outstanding accounts was made by mailing notices to a number of persons whose names appeared on the books as owing money to the town, the replies received thereto indicating that the accounts, as listed, are correct.

The records of licenses and permits issued by the selectmen and by the police and health departments were examined and checked, and the payments to the town treasurer were verified.

The town clerk's receipts from dog licenses, sporting and trapping licenses, and from transient vendors' licenses were checked with the records of licenses issued.

It was found, although the attention of the town clerk has been repeatedly called since 1934 to the provisions of law governing the payment to the treasurer of dog license fees collected by him, that he has again failed to pay to the town treasurer on the first Monday of each month the money due the county for dog licenses issued by him, as required by Section 147, Chapter 140, General Laws, as amended. The following schedule shows the amount collected by the town clerk for dog licenses during each month of 1939, the deductions therefrom for fees allowed him by law, and the dates on which these collections were paid to the town treasurer:

Month	Value of Dog Licenses Issued	Less Fees Retained by Town Clerk	Amount Payable To Town Treasurer	Date of Payment to Town Treasurer
January	\$9.00	\$.60	\$8.40	February 27, 1939
April	296.00	21.20	274.80	November 16, 1939
May	137.00	10.40	126.60	" " "
June	157.00	10.40	146.60	December 21, 1939
July	236.00	14.60	221.40	" " "
August	202.00	14.20	187.80	" " "
September	79.00	6.40	72.60	" " "
October	14.00	1.40	12.60	" " "
November	11.00	.80	10.20	" " "
December	4.00	.40	3.60	Cash balance Jan. 19, 1940
	<u>\$1,145.00</u>	<u>\$80.40</u>	<u>\$1,064.60</u>	

The penalty for neglect of duty imposed upon a town clerk by Chapter 140, General Laws, previously mentioned, is provided in Section 169, Chapter 140, General Laws, which reads as follows:

STATE AUDIT REPORT

“A county, city or town officer who refuses or wilfully neglects to perform the duties imposed upon him by the provisions of this chapter relating to dogs shall be punished by a fine of not more than one hundred dollars, which shall be paid, except in Suffolk county, into the county treasury. Whoever is aggrieved by such refusal or neglect may report the same forthwith to the district attorney of his district.”

It was further noted that payment to the Division of Fisheries and Game by the town clerk of the money received for sporting and trapping licenses issued by him has not been made on the first Monday of each month in accordance with Section 5, Chapter 129A, General Laws, inserted by Chapter 329, Acts of 1933. The following schedule shows the amount collected by the town clerk during each month of 1939 for sporting and trapping licenses, the deductions therefrom for fees allowed him by law, and the dates on which these collections were paid to the Division of Fisheries and Game, per receipts examined:

Month	Value of Licenses Issued	Less Fees Retained by Town Clerk	Amount Payable to Division of Fisheries and Game	Date of Payment to Division of Fisheries and Game, per receipts
January	\$99.00	\$10.75	\$88.25	February 28, 1939
March	7.00	.50	6.50	May 9, 1939
April	121.00	8.00	113.00	July 20, 1939
May	72.25	4.25	68.00	July 21, 1939
June	14.00	1.00	13.00	October 4, 1939
July	45.00	2.25	42.75	October 7, 1939
August	7.00	.50	6.50	" " "
September	66.00	8.25	57.75	December 7, 1939
October	124.00	15.50	108.50	January 11, 1940
November	40.50	4.25	36.25	" " "
December	12.00	1.50	10.50	" " "
	<u>\$607.75</u>	<u>\$56.75</u>	<u>\$551.00</u>	

The penalty for violation by a town clerk of the provisions of Section 5, Chapter 129A, General Laws, previously mentioned, is found in the same section, and reads as follows:

“Any town clerk violating any provision of this section shall be punished by a fine of not less than fifty nor more than five hundred dollars, or by imprisonment for not less than one month nor more than one year, or both.”

The surety bonds of the officials bonded for the faithful performance of their duties were examined and found to be in proper form.

In addition to the departments mentioned, the available records of all other departments receiving money for the town were checked and the payments to the treasurer were verified.

STATE AUDIT REPORT

Appended to this report, in addition to the balance sheet, are tables showing a reconciliation of the treasurer's and the collector's cash, summaries of tax, assessment, tax title, tax possessions, departmental, and water accounts, as well as tables showing the condition and transactions of the trust funds.

For the cooperation extended by the various town officials during the progress of the audit, I wish, on behalf of my assistants and for myself, to express appreciation.

Respectfully submitted,

HERMAN B. DINE,

Assistant Director of Accounts.

HBD:FC

REPORT OF STATE AUDIT

February 5, 1941

To the Board of Selectmen
Mr. James W. Turner, Chairman
Scituate, Massachusetts

Gentlemen:

I submit herewith my report of an audit of the books and accounts of the town of Scituate for the year ending December 31, 1940, made in accordance with the provisions of Chapter 44, General Laws. This is in the form of a report made to me by Mr. Herman B. Dine, Assistant Director of Accounts.

Very truly yours,

THEODORE N. WADDELL,

Director of Accounts.

TNW:O

Mr. Theodore N. Waddell
Director of Accounts
Department of Corporations and Taxation
State House, Boston

Sir:

In accordance with your instructions, I have made an audit of the books and accounts of the town of Scituate for the year ending December 31, 1940, and submit the following report thereon:

The books and accounts in the town accountant's office were examined, checked and compared with the records of the several departments in which money is collected or bills are committed for collection, and with the records of the town treasurer.

STATE AUDIT REPORT

The general and appropriation accounts in the ledger were analyzed, the appropriations and transfers being compared with the town clerk's record of financial votes passed in town meetings and with the advisory board's records of transfers from the reserve fund. A trial balance was taken off proving the accounts to be in balance, and a balance sheet, showing the financial condition of the town on December 31, 1940, was prepared and is appended to this report.

The balance sheet shows overdrawn accounts in the appropriations for snow removal and for soldiers' benefits, these overdrafts having been authorized by the selectmen under Section 31, Chapter 44, General Laws. In this connection it should be noted that the above statute merely authorizes the incurring of liabilities in excess of appropriations under certain conditions, but does not provide for the payment of these liabilities.

The balance sheet also shows an overdraft of \$10,151.92 in the water department appropriation, which is partly due to a misunderstanding of the intent of the vote passed by the town appropriating money for the water department.

The vote appropriating funds for the water department reads as follows:

"Voted that the town appropriate from funds in the treasury the amount earned by or appropriated for the Water Department and a sum of money equal to, but not exceeding the amount of water revenue for the ensuing year, for the use of the Water Department, as follows:—

For the payment of bonds	\$33,000.00
For interest on water bonds	22,701.25
For maintenance, operation and improvement of the Water Department—the actual balance of the water revenue to be received, now estimated to be	35,104.72
	\$90,805.97"

The town accountant, in setting up the appropriations, and the assessors, in fixing the tax rate, construed the vote as authorizing appropriations of \$90,805.97 to be met from water revenue credited to estimated receipts, which corresponds to the receipts of the preceding year. The water commissioners construed the vote as allowing them to spend an amount up to the aggregate of the available surplus at the close of 1939, together with the amount of water revenue received in 1940, but Section 53, Chapter 44, General Laws, prevents this. The construction placed on the vote by the town accountant and the assessors appears to be the only one possible.

Subsequent credits, consisting of refunds and a transfer from the reserve fund, increased the amount as raised by the assessors and set up on the books of the town to \$91,838.65. The water revenue in 1940, plus the available surplus at the beginning of the year of \$1,420.64, amounted to \$100,474.25 and the excess of this amount over the appropriation of \$90,805.97 voted, or \$9,668.25, has been set up as "Available Water Surplus".

The water department apparently failed to abide by the vote of the town, as it appears to have been correctly interpreted by the town accountant and assessors, and expended \$101,990.57. The amount of \$10,151.92, representing the excess of the expenditures over the appropriation, appears on the books as an overdraft which should be provided for by vote of the town. It should be noted that the water department appropriation would be overdrawn even though a basis existed to support the contention of the Water Commissioners that the

STATE AUDIT REPORT

sum of \$100,474.25, representing net water receipts together with the water surplus at the beginning of the year, was available for expenditure during 1940, for the amount actually expended is \$1,516.32 in excess of the total revenue available in 1940 under any circumstances.

It is recommended that the vote of the town appropriating money for the water department specifically state the total amount available for the department, so that no misunderstanding may arise as to the amount that may be expended by that department.

The books and accounts of the town treasurer were examined and checked in detail. The cash book was footed throughout, the recorded receipts were analyzed and compared with the departmental records of payments to the treasurer and with other sources from which money was paid into the town treasury, while the records of disbursements were compared with the accountant's books and with the treasury warrants.

The cash balance on January 11, 1941, was proved by reconciliation of the bank balances with statements furnished by the banks in which town funds are deposited and by the verification of a deposit in transit.

The payments on account of debt and interest were verified by a comparison with the amounts falling due. The cancelled securities and coupons on file were checked, the outstanding coupons being listed and found to agree with the amount on deposit for payment of same.

The records of tax titles held by the town were examined, checked, and compared with the deeds on file, and all tax title transactions, including takings, additions, redemptions and foreclosures, were examined and checked with the books of the treasurer and the collector.

The savings bank books representing the investment of the trust funds in the custody of the selectmen were examined and listed, the income being proved and the disbursements being verified.

Appended to this report are schedules showing a reconciliation of the treasurer's cash, together with summaries of the tax title and tax possessions accounts and the trust funds.

The books and accounts of the town collector were examined and checked in detail. The taxes and assessments outstanding at the time of the previous examination were audited and all subsequent commitments of poll, personal property, real estate, and motor vehicle excise taxes and of special assessments were proved with the assessors' warrants, while the commitments of departmental and water accounts were compared with the amounts reported to the town accountant. The collections as posted on the commitment books and records were compared with the cash book collections, which were analyzed, and with the recorded payments to the treasurer as shown by the treasurer's cash books. The abatement of taxes and assessments as entered were checked with the assessor's record of abatements granted, and abatements of departmental and water accounts were checked with the records in the departments authorized to grant abatements. The outstanding tax, assessment, departmental, and water accounts were listed and proved with the controlling accounts in the accountant's ledger.

The outstanding accounts were further verified by mailing notices to a number of persons whose names appeared on the books as owing money to the town, the replies received thereto indicating that the accounts, as listed, are correct.

STATE AUDIT REPORT

Appended to this report are summaries of the tax, assessment, departmental, and water accounts.

The records of licenses and permits issued by the selectmen and by the police and health departments were examined and checked, and the payments to the town treasurer were verified.

The town clerk's receipts from dog licenses issued on behalf of the county, of sporting licenses, the proceeds of which are paid to the State, as well as from transient vendors' licenses which are paid into the town treasury, were checked with the records of licenses issued.

It was found, although the attention of the town clerk has been repeatedly called since 1934 to the provisions of law governing the payment to the treasurer of dog license fees collected by him, that he has again failed to pay to the town treasurer on the first Monday of each month the money due the county for dog licenses issued by him, as required by Section 147, Chapter 140, General Laws, as amended. The following schedule shows the amount collected by the town clerk for dog licenses during each month of 1940, the deductions therefrom for fees allowed him by law, and the dates on which these collections were paid to the town treasurer.

Month	Value of Dog Licenses Issued	Less Fees Retained By Town Clerk	Amount Pay- able to Town Treasurer	Date of Payment to Town Treasurer
Cash balance 1/1/40 ...	\$3.60		\$3.60	March 29, 1940
January	4.00	\$.40	3.60	March 29, 1940
February	2.00	.20	1.80	April 2, 1940
March	2.00	.20	1.80	Dec. 30, 1940
April	235.00	16.60	218.40	" " "
May	280.00	23.20	256.80	" " "
June	443.00	28.80	414.20	" " "
July	72.00	5.40	66.60	" " "
August	65.00	5.00	60.00	" " "
September	46.00	4.00	42.00	" " "
October	9.00	.60	8.40	" " "
November	8.00	.80	7.20	" " "
	<u>\$1,169.60</u>	<u>\$85.20</u>	<u>\$1,084.40</u>	

The penalty for neglect of duty imposed upon a town clerk by Chapter 140, General Laws, previously mentioned, is provided in Section 169, Chapter 140, General Laws, which reads as follows:

"A county, city or town officer who refuses or wilfully neglects to perform the duties imposed upon him by the provisions of this chapter relating to dogs shall be punished by a fine of not more than one hundred dollars, which shall be paid, except in Suffolk County, into the county treasury. Whoever is aggrieved by such refusal or neglect may report the same forthwith to the district attorney of his district."

STATE AUDIT REPORT

It was further noted that payment to the Division of Fisheries and Game by the town clerk of the money received for sporting licenses issued by him has not been made on the first Monday of each month in accordance with Section 5, Chapter 129A, General Laws, inserted by Chapter 329, Acts of 1933. The following schedule shows the amount collected by the town clerk during each month of 1940 of sporting licenses, the deductions therefrom for fees allowed him by law, and the dates on which these collection were paid to the Division of Fisheries and Game, per receipts examined:

1940 Month	Value of Licenses Issued	Less Fees Retained By Town Clerk	Amount Pay- able to Division of Fisheries and Game	Date of Payment to Division of Fisheries and Game, per Receipts
Cash balance 1/1/40	\$155.25		\$155.25	January 11, 1940
January	80.75	\$9.00	71.75	February 29, 1940
February				
March				
April	84.50	6.75	77.75	June 27, 1940
April	5.00	.25	4.75	July 11, 1940
May	97.00	6.00	91.00	October 15, 1940
June	18.50	1.50	17.00	October 15, 1940
July	71.25	5.50	65.75	October 19, 1940
August	22.00	1.25	20.75	October 19, 1940
August	2.50	.50	2.00	October 22, 1940
September	45.00	5.25	39.75	November 26, 1940
October	166.00	20.75	145.25	December 6, 1940
November	33.25	3.75	29.50	December 6, 1940
December	8.00	1.00	7.00	January 15, 1941
	<u>\$789.00</u>	<u>\$61.50</u>	<u>\$727.50</u>	

The penalty for violation by a town clerk of the provisions of Section 5, Chapter 129A, General Laws, previously mentioned, is found in the same section, and reads as follows:

“Any town clerk violating any provision of this section shall be punished by a fine of not less than fifty nor more than five hundred dollars, or by imprisonment for not less than one month nor more than one year, or both.”

The town clerk furnishes a surety bond annually to the town for the faithful performance of his duties, and it would appear that failure to comply with the statutes mentioned in the foregoing is a violation of the terms of the surety bond of the town clerk.

The receipts of the sealer of weights and measures were examined and checked with the records of work done. The collections were checked and the payments to the treasurer were compared with the treasurer's and the accountant's books.

STATE AUDIT REPORT

The records of the school department on account of receipts for manual training, rentals, etc., were examined and checked in detail, the payments to the treasurer being verified.

The surety bonds on file for the several officials of the town required by law to furnish them were examined and found to be in proper form.

While engaged in making the audit, cooperation was received from the officials of the town, for which, on behalf of my assistants and for myself, I wish to express appreciation.

Respectfully submitted,

HERMAN B. DINE,

Assistant Director of Accounts.

SCHOOL COMMITTEE REPORT

SCHOOL CALENDAR—1941

WINTER TERM—January 2 to February 21 inclusive.

One Week Vacation.

March 3 to April 18 inclusive.

Holiday—April 11.

One Week Vacation.

SPRING TERM—April 28 to June 20*.

Holiday—May 30.

Summer Vacation.

FALL TERM—September 8 to December 23 inclusive.

Holidays—October 13, November 11, 27 and 28.

* This date is tentative. The statutes require high schools to have one hundred eighty sessions per year.

“NO SCHOOL” SIGNAL

The “No School” signal is 3-1-3, and will be sounded from the fire stations at North Scituate, Scituate Harbor and Greenbush at 7:20 a. m. to designate the omission of school sessions for the first six grades—e. g. the Hatherly and Jenkins Schools. If the signal is repeated at 7:30 a. m., it will indicate no school in the High School. It is, however, the general policy of the Committee to hold regular sessions whenever it is practicable to maintain transportation service.

COMMITTEE MEETINGS

The regular meetings of the Committee are held monthly, at the office of the Superintendent, Old High School Building, September to June, inclusive.

Appointments with the Superintendent may be made upon request.

The age of admission to Grade One of the Hatherly and Jenkins Schools is five years and four months on the day of the opening of school in September.

No child will be admitted to school for the first time after October 1, unless, before this date, permission has been granted by the Superintendent for a later entrance.

A vaccination certificate must be presented to the school when the pupil enters for the first time.

A birth certificate must be presented by those pupils whose births were recorded outside of Scituate.

REPORT OF THE SCHOOL COMMITTEE

To the Citizens of Seituat:

Since we made our last report, an almost World wide cataclysm has taken place, and the repercussion incidental thereto, will undoubtedly have a bearing on our Educational program, and future. The Department of Education is submitting to the Great and General Court, a report relating to "The Education and the Employment of the Youth of the Commonwealth of Massachusetts". This voluminous report—with its various recommendations, if adopted is bound to affect our entire Educational set up.

Dr. Samuel Brownell of the Yale University Graduate Department of Education, states:

"The granting of broad powers to communities in Massachusetts, for determining the kind of education which they will provide, enables them to decide what needs of young people in their community can best be cared for through schooling. As conditions change it is possible for communities to change the schooling to fit new conditions—if they wish. Such grant of power may easily be recognized as of extraordinary importance to communities that wish to give their youth the best possible start in life. It also presents an obligation to communities for regularly and continuously checking on their schools to determine if they are recognizing in changed practices, the rapidly changing demands of society upon young people who leave the schools to take their place as adult citizens."

We are still of the opinion that our High School should be enlarged, so as to provide for courses preparatory for the training essential for such trades as may be desired. We recommend waiting until we know just what may develop, or be required, as a result of the Special Commission's report, as previously mentioned. The matter of a new building, or buildings, for the Grade Schools is again brought to your attention.

SCHOOL COMMITTEE REPORT

From a financial standpoint we are well situated. Scituate is the fifth richest Town in Plymouth County. We ranked 17 in the class under 5,000 population, with an expense of \$107.10 per pupil, and based on a one thousand dollar valuation, our appropriation for schools was \$6.29 per thousand. This gave us a rank of 100. It should be considerably less. On a Tax rate of \$33. our rank was 54. The highest in our class, is \$19.68, and the lowest \$4.54 per thousand valuation.

This fall, we added two more courses in the Evening School, Woodworking, and one in Short Story writing, the former under the supervision of Mr. Sandberg, and the latter conducted by Mrs. May Futrelle.

The Buildings have had our attention and the necessary repairs made. Steps and Railings at the High School, have been put in good condition. A Fire Alarm system has been installed at the Hatherly School. This is similar to the one in use at the Jenkins School. It communicates direct with Fire Headquarters, and eliminates the hazard connected with depending on dry cell batteries. We desire at this time to express our appreciation to the Board of Fire Engineers for their co-operation, in this matter. This system can readily be moved to another building, whenever it should be built. The Clock system, at the High School was worn out; we accordingly contracted with the Telechron company to install a new one. The Parking Space around the Domestic Science building is in bad shape. Mr. Wagner estimates it will cost around \$525. to put same in proper condition.

The system of Transportation adopted two years ago, has not worked out as satisfactorily as had been anticipated. We have had numerous complaints. We are of the opinion that the addition of one more Bus, would eliminate this dissatisfaction.

Your Committee, as the result of the death of Mr. Perez Young, (whose passing away we deeply regret, he having been a faithful and conscientious driver for many years) passed a Vote, that hereafter, on the decease of any School Bus Contractor, his contract should revert for its unexpired term to his direct next of kin, provided, that he or she, were competent to comply with said terms of the contract. In Mr. Young's case, we are pleased to state that his mother, Mrs. Young, will continue to operate this route, with Mr. Charles Lane as driver of the bus.

Mr. Lewis B. Newcomb, who, like his father before him, has been for many years, an earnest and faithful janitor, one upon whom we could always depend, applied for a year's leave of absence, on account of his health. This was unanimously granted, and as a substitute in his place, we engaged Mr. Frederic G. Peirce.

In closing, we wish to thank the various organizations, who have made manifest their interest in our schools and to the citizens, for their unstinted financial support and which we feel sure will redound to their credit, by enabling us to maintain a high standard of Education, in this fair town of ours, with its famous Historical and Educational background.

Respectfully submitted,

PETER W. SHARP, Chairman,
MRS. EMMA L. DAMON, Secretary,
MRS. MARION C. ALEXANDER,
School Committee.

SCHOOL COMMITTEE REPORT

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Committee of Scituate:

I take pleasure in submitting my fifteenth annual report for your consideration.

CHANGES IN TEACHING STAFF

There were four teacher resignations that took effect at the end of the school year in June, 1940. Two of these were in the supervisory field and the other two were members of the staff of the Hatherly School.

Miss Ruth A. Whidden, for ten years supervisor of physical education in the Scituate schools, resigned to be married. This position was filled by the appointment of Miss Virginia E. Vines, Scituate, a graduate of the Sargent School of Physical Education, with one year's experience at The Rumson Private School, Inc. of Rumson, N. J. In addition to being Supervisor of Physical Education in the elementary schools, Miss Vines has charge of the girls' physical education classes and sports, and teaches Ancient and Modern History at the High School.

The other resignation in the supervisory field was received from Mr. Philip W. L. Cox, Jr., for the past two years Supervisor of Music. To the vacancy thus created, two appointments were made. Miss Gertrude M. Reynolds, Scituate, a graduate of the Boston University School of Music, became the Supervisor of Music for the Hatherly and Jenkins Schools, a part-time position. Mr. John T. Samuelson, of Hull, a graduate of the Boston University School of Music, with some teaching experience during the past year in the Hingham schools, became Music Instructor in the High School. Mr. Samuelson also teaches a class in General Science and one in the Survey of Mathematics.

Miss Doris C. Crocker, for the past ten years a teacher in our elementary schools, was married during the school year and so resigned in June. Her position, as teacher of the second grade at the Hatherly School, was filled by the appointment of Miss Evelyn C. Ames of Natick, Mass., a graduate of the Framingham State Teachers' College with three years' experience in Grade Two at Marion, Mass. The position of assistant teacher in Grade One at the Hatherly School was also made vacant when Miss Barbara T. Young resigned to accept a teaching position at Winthrop. The vacancy was filled with the appointment of Miss Priscilla Kelley, Scituate, a graduate of the Perry Kindergarten Normal School with experience as a special teacher in the schools of Medford.

SCHOOL ENROLLMENT—OCTOBER 1

	Ten Year Period		Total
	Elementary	High School	
	Grades I-VI	Grades VII-XII	
1931	421	235	656
1932	436	272	708
1933	443	304	747
1934	440	333	773
1935	400	341	741
1936	412	356	768
1937	388	358	746
1938	409	357	766
1939	411	368	779
1940	415	359	774

SCHOOL COMMITTEE REPORT

The enrollment in the Scituate schools on October 1, 1940 differs very little from that of the preceding year; the elementary grades show an insignificant increase and the High School a small decrease. Over the ten-year period there has been little change in the enrollment of the elementary grades, while in the High School the increase has been marked. In 1931, sixty-four per cent of our pupils were enrolled in the Hatherly and Jenkins Schools, and thirty-six per cent in the High School; while in 1941 less than fifty-four per cent were enrolled in the elementary grades and over forty-six per cent were in the High School. This explains why the number of teachers in the elementary grades—including the special class teacher now required by law—is the same in 1941 as in 1931. It also explains, in part, the reason for the increase of the High School staff from eleven in 1931 to eighteen in 1941.

UPKEEP OF BUILDINGS AND GROUNDS

In addition to the usual routine repairs at the Hatherly and Jenkins schools, during the past year over one thousand square feet of slate blackboards were resurfaced. A sandtable and some additional kindergarten chairs were purchased for the Hatherly School, and at the recommendation of the local fire department, a new fire alarm system, connecting the school system with the town fire stations, was installed in this building.

Numerous repairs and replacements were made at the High School. The stone steps of the two entrances on the west side of the building were reset and all the iron railings, the fire escape rails and treads, and the metal grills of the auditorium wing of the building, were repaired and painted. The north walls of the auditorium wing were weatherproofed.

New electric light fixtures were installed in Room 103 and Room 207. This completes the changes in the improvement of the artificial lighting in the High School building recommended by the survey conducted in 1939. The shades were replaced in the eighteen windows on the south side of the east wing. New window curtain material was purchased for the six large windows in the auditorium, and the curtains were made by the girls of the Household Arts classes. Twelve chairs for replacement purposes were purchased for the cafeteria. Eight new work benches were made for the shop by the boys of the Practical Arts department. And finally, a new electric time clock with class-bell controls was installed in the Principal's office, replacing the old one that had been in use since the building was constructed in 1916.

New equipment purchased during the year included a parallel bar for the gymnasium, a combination scrubbing and polishing machine for the use of the janitors, and three filing cabinets for keeping records. In addition, iron gates were installed at the entrances to the balcony, and a crane was attached to the wall on the left side of the stage opening to be used in lifting heavy equipment, such as piano and gymnasium apparatus, on and off the stage.

In the Household Arts building, an unused air shaft and old hot air furnace was removed, a low water cut-off was installed in the heater; and four new light fixtures were placed in the sewing and cooking rooms.

In connection with the care of the community center grounds, a new power mower was purchased to replace the one in use for the past ten years. To better house the mower and to provide room for the equipment used in the care of the grounds, a small tool house was constructed by the boys of the Practical Arts classes.

SCHOOL COMMITTEE REPORT

EVENING SCHOOL FOR ADULTS

(a) Americanization Classes

For the school year ending in June, 1940, two classes in adult-alien education were maintained. These classes, taught by Miss Anne L. Cunneen and Mrs. Edith W. Burrill, had a total enrollment of fifty men and women and were in session forty-six evenings. Forty-seven of those enrolled were of Portuguese ancestry and three of Italian. On April 11, forty-two of the group were awarded State Certificates.

It has been a pleasure to work with these groups, and they have been most appreciative of what the school is doing to help them better understand the English language and American ideals. Individually, they are industrious, earnest, courteous, sincere and very responsive to what is good and what is right. It is to their credit that such a large proportion of their number have become citizens,—of the thirty-three enrolled in the classes this year, all are either citizens, petitioners for second papers or declarants for first papers. It is their firm intention to be good citizens.

(b) Classes in High School Subjects

During the year 1940 classes in Typewriting and Shorthand with Miss Ruth E. Hawkes as teacher, were held for a total of forty-seven evenings. The attendance was very large from January through April. The total enrollment during the fall term was twenty-nine.

In October an adult class in Practical Arts was started and to the end of 1940 met for a total of sixteen evenings. It has an enrollment of twenty-five men and an average membership of fifteen. Mr. Nels H. Sandberg is the teacher in charge.

Early in January 1941, an adult evening school class in Story Writing, taught by Mrs. May Futrelle, and one in choral singing, taught by Mr. John T. Samuelson, was started.

These classes are all open to the public and no tuition charges are made.

TRENDS IN EDUCATION

Present world conditions, and the determination of our leaders, approved by the great majority of the American people, to rapidly build up our defenses and to give all possible material aid to the world democracies in their struggle for existence, has established the fact that there is a shortage of well-trained mechanics when industry is geared to high production. This means that the facilities of our trade schools should be increased, by enlarging existing plants or establishing new ones, or both. The State Department of Education is vigorously attacking this problem and is making substantial progress. While this does not mean that every high school should be made over into a trade school, we must be alert to the needs of the time, and shape our courses accordingly.

Irrespective of changes, all schools must work zealously to build up a high morale. We must teach, with increased emphasis, the blessings and privileges bestowed upon the individual by our democratic form of government. "At the same time we must not let anyone forget that these liberties involve and require the highest degree of individual and group responsibility and sacrifice for the common good." We must seek to renew faith in the American way of life and to increase loyalty to all of our democratic institutions.

Your attention is called to the several reports of school officers and teachers, together with the various statistical tables and the Financial Statement for 1940.

Respectfully submitted,

HAROLD C. WINGATE,

Superintendent of Schools.

SCHOOL COMMITTEE REPORT

REPORT OF THE HIGH SCHOOL PRINCIPAL

Mr. Harold C. Wingate
Superintendent of Schools
Scituate, Massachusetts

Dear Sir:

I submit herewith my sixth annual report as principal of the Scituate High School.

The over-crowded condition of our school building continues, making it necessary this year to hold a bookkeeping class in the cafeteria and a history class in the science laboratory, which is far from ideal.

The graduating class of 1940 was the largest ever to leave Scituate High School. Sixty pupils received diplomas. About one-third of this number went on to higher institutions of learning and many others found positions of merit. They are showing the results of the good foundation they received at this school.

Although the State Department of Education records show the average number of high school graduates throughout the state attending colleges to be about 13.2%, Scituate High School has sent over 20% of its graduates to college in the past five years. Students prepared for college at this school are at present enrolled at Boston College, Boston University, Bowdoin, Brown, Duke, Fitchburg Teachers College, Harvard University, Lowell Textile, Massachusetts State College, Massachusetts School of Art, Northeastern, Rhode Island State College, Simmons, Smith, the United States Naval Academy and the University of California.

At the beginning of the school year our business department was broadened by the addition of several new courses. Typewriting is now being given in the sophomore year so that three years of the subject may be taken instead of two. A course in Junior Business Training has been added to the sophomore curriculum, also. The institution of half-year courses in Salesmanship and Commercial Law, and a second year of Bookkeeping allow students to take a general commercial course without Stenography if they so desire. Senior Science has been added in the Science Department. This latter course may be substituted for Physics by pupils not preparing for the colleges or scientific schools.

Much interest is being taken in instrumental and choral music this year under the direction of a new instructor. An orchestra of thirty musicians and a senior high school chorus of about sixty-five singers are delighting the members of the school at assemblies and at public performances.

A non-credit course in Character Guidance is being tried out this year in grade 9. Discussions on pertinent subjects dealing with school problems are held during home-room periods.

Our Safety Driving Club proved to be so successful last year that it is being continued. The Scituate High School Club received the first certificates issued by the Registry of Motor Vehicles to any Massachusetts High School.

SCHOOL COMMITTEE REPORT

Other school clubs and activities have had a successful year. The Junior Red Cross was joined by a very large percentage of the student body. Many departments of the school are working on Junior Red Cross projects and several boxes of dolls, toys and scrap books, made or repaired by seventh and eighth grade pupils, were sent to hospitals and childrens' homes before Christmas.

Our athletic teams continue to be successful in competition with teams from other South Shore towns. The 1940 girls' hockey team deserves special commendation, their schedule being completed without a defeat, while the baseball team and football team each lost but one game.

It is always gratifying to have your fine support, Mr. Wingate, and the backing of an efficient corps of teachers.

Respectfully submitted,

FREDERICK A. CALKIN,

Principal.

REPORT FROM HATHERLY SCHOOL

George W. Burrill

Principal

Hatherly School opened in September, again with an increase in the number of pupils in attendance, the registration being the largest since the seventh and eighth grades were taken from our building to form the Junior High School.

Due to the prevalence of colds and grippe the attendance record has not been up to our usual standard. We find the parents very co-operative in this respect. They realize, I believe, that regular attendance is very necessary to continued progress. The foundation of two important school subjects is laid in the early grades and regular attendance is most desirable.

We recently learned with sincere regret that Mr. Lewis B. Newcomb, owing to poor health, had been granted a year's leave of absence from his duties as janitor of Hatherly School. Mr. Newcomb has been connected with our school for about twelve years during which time his faithfulness to his many duties and his loyalty to those with whom he came in contact have been highly appreciated.

Following the Christmas vacation we resumed the serving of hot drinks and soup. Many pupils avail themselves of the opportunity of having something hot with their lunches and we feel that especially on extremely cold days this is of great value to them.

Following our usual custom, appropriate programs have been arranged in the different rooms to observe the several holidays and days of special note. During the latter part of the year our grades were pleasantly entertained by Mr. John Hines who gave his dramatization of "Jack and the Beanstalk" which was greatly enjoyed by all.

We are again enrolled one hundred per cent in the Junior Red Cross. In addition we have donated money to the American Red Cross to help provide for needy children in the war-torn land across the sea.

REPORT FROM JENKINS SCHOOL

LeRoy E. Fuller

Principal

The number of pupils enrolled in Jenkins School has not varied much over a period of four or five years. As has been true throughout the country, entering classes have been small during these years. Our present (Jan. 2, 1941) enrollment

SCHOOL COMMITTEE REPORT

is 221 pupils, quite evenly distributed over the grades. Attendance is generally very good, although at the present time we are feeling the effects of the influenza epidemic.

Each class is enrolled in the Junior Red Cross, while some have made scrap-books which have been sent to the County hospital. Programs have been given at times during the year, the special feature being a performance of "Jack and the Beanstalk" by Mr. John Hines, Actor.

Several new books have been added to the room libraries during the year. Some of these were provided by the Department, while others were purchased with money from our school fund. Acquiring a suitable library is a slow process. Through the co-operation of the librarian of the Allen Memorial Library we have been able to borrow books, especially those that appear on the State Reading Certificate List. Children like to read and it is one of our problems as teachers in the elementary grades to direct their reading into the proper channels. Publishers of school textbooks have done much to create an interest in reading by producing books with fascinating stories and attractive illustrations. We must do even more; we must bring about a desire within the boys and girls to want to read the best books and magazines available.

COMMERCIAL CLASSES IN THE EVENING SCHOOL

Ruth E. Hawkes
Commercial Teacher

Classes are held each week on Monday and Wednesday evenings at the high school from seven to nine o'clock in business subjects. These classes consist of beginning Gregg shorthand theory, advanced dictation in Gregg shorthand, and typewriting.

The advanced shorthand class offers a good opportunity for a person to review his outlines and to keep up his speed in taking down dictation. The rate of dictation is graded according to the group and speed work is given. New matter as well as practiced material is dictated and then this may be transcribed while the beginning shorthand class is carried on.

The beginning shorthand class is taught by the Functional Method and takes one assignment an evening. Forty-five minutes of preparation is required for each assignment. The theory work can be covered in about seventy assignments. No writing is done until after twenty-one assignments have been covered; this develops a good writing style.

Beginning typing is taught to those who have had no typing experience, and drills, exercises, and speed work are given to those more advanced. Also instruction in the set-up of different forms including business letters is given. The material presented is adjusted to the individual needs of the members of the class.

Some students prefer to take only the typewriting without the shorthand and spend the entire evening on this work.

A COURSE IN SALESMANSHIP

Clarence O. Atkinson
Teacher of Business Subjects

This year a course in salesmanship has been added to the commercial department of the High School in the eleventh grade. This course is designed to help those students who, after graduation, find themselves confronted with apparently insurmountable obstacles in the business world. These obstacles are usually, first, lack of experience and, second, inability to sell their services to an employer.

SCHOOL COMMITTEE REPORT

What constitutes experience can be taken to mean the ability to get along with others and to influence them to take certain desirable action. This ability in the past has usually been acquired by years of experience. Today its principles are so clearly defined that they may be to a large degree acquired in the classroom by learning and practicing specific and well-defined techniques in the selling process.

A general outline of the course starts with the study of each of the above mentioned principles in their natural order as follows: first, the physical and mental qualities of personality and the salesman's use of English and his ability to reason; second, knowing the goods and the company that the salesman represents; third, understanding the customer, buying motives and how to secure prospects; fourth, the many phases of the sale itself, including demonstrations and closing the sale; and fifth, the mechanics of salesmanship,—letter writing, and advertising.

Written assignments go along with the study of each topic and a large part of class time is used to discuss selling problems. Probably the most valuable part of the course is a series of projects that are prepared and presented to the class by the students themselves to illustrate what has been studied and discussed. Each one has the opportunity to practice salesmanship while the others offer constructive criticisms.

To accomplish the two-fold purpose of the course it is hoped that the mastery of the fundamentals of salesmanship will lead to a more satisfactory solution of the employment problems after graduation.

THE BOYS' ATHLETIC PROGRAM

Edward L. Stewart
Instructor

Academic subjects have been discussed in papers by other teachers so a few words on an extracurricular activity at Scituate High School should prove of interest.

To call the athletic program extracurricular is perhaps a misnomer, for even though the varsity athletic activities take place outside school hours they, nevertheless, are an important part of any school program.

Here at Scituate we compete interscholastically in four different sports, football, basketball, baseball and tennis. In order for a boy to become a candidate for any sport he must first be given consent by his parents and then be certified as physically fit by the school physician.

Parents sometimes are reluctant to permit their boys to play football. Football is a game of physical contact and there is a certain amount of danger, however this danger is minimized by close supervision and prompt medical care in case of any injury.

Considering the number of hours spent in practice and competition by the boys on the football squad it seems that their chances of being injured are no greater than any equal number of boys who do not take part in the sport. From our observations here, boys who have not participated in football have been injured just as frequently and oft-times more seriously than the football players. This statement covers only those accidents that have occurred during the hours when football was being practiced. Non-participants have been injured while at work, in automobile accidents and in several instances playing football without supervision.

SCHOOL COMMITTEE REPORT

This year we enrolled in the insurance plan of the New England Headmasters' Association. Under this plan each boy, who so desires, may take out an accident insurance which covers him on injuries he may receive in school athletics. The premium is one dollar if he is to participate in football, otherwise it is fifty cents. Under the plan, doctor's bills, and x-ray expenses which result from certain specified injuries, such as dislocation and fractures, are paid. The benefits are not large but are usually sufficient to cover expenses.

Over fifty per cent of the boys in school are participants in interscholastic athletics, at least to the extent of trying out for the teams. All the other boys in school are required to take physical education two periods per week unless excused by their physician.

Our athletic program is financed by the High School Athletic Association. This association gets its funds through dues from voluntary student enrollment and the revenue from football and basketball games.

At Scituate High School the various sports are looked at in their proper light, neither over emphasized nor deemphasized, and we believe that they have no small part in moulding the complete man.

BASIC ENGLISH

Anne L. Cunneen

Teacher in Americanization Classes

It is my desire to give in Basic English a short account of the Basic English system now in use in the Adult Alien classes in Scituate.

Basic English is a form of English in which 850 words with some changes and additions will do the work of 20,000 words.

In Basic it is possible to give an account of the senses of all the other words in the English language. This is not to say however, that this small number will at all times or for all purposes take the place of every other word in the language.

The selection of the 850 words was based on a number of different tests. The important question was not: "How many times was the word used?" but "In what ways will it take the place of what other words?" The outcome was to be a working language that would give all the necessary senses of words. So the system was formed by taking out everything unnecessary to the sense.

Basic English does not take the place of standard English. Its most important values are to make the sense of a word or statement clear to the learner and to take him to the point where he is ready for a wider knowledge of English.

Because English verbs can be broken down into the operations and directions they are talking about, it is possible for Basic English to have only 18 verbs in addition to certain names of directions. (in, from, on, up, under, and so on) At this point I will give some examples. I have put one line under the standard English verbs and two lines under the Basic forms.

To immerse your hands in water is to put them under water; to emerge from a room is to come out of it; to illustrate your argument is to give examples; and to climb or ascend a mountain, you go up it (on foot, in an automobile, and so on). It may be readily seen that the Basic translation gives the sense of the standard English verb completely.

The selection of the second group of words, the names of things or nouns, was based on the words having the greatest number of relations with other words. Of the 850 Basic words 600 are names of general or picturable things.

SCHOOL COMMITTEE REPORT

The selection of the third group of words, the qualities or adjectives, was made in the same way. There are 150 adjectives of which 50 are opposites. The adverbs in "ly" are made from certain of these qualities.

Among other words that may be made in Basic are plurals of the Basic nouns, all of the pronouns, comparisons, conjugations, derivatives in er, ing, and ed from certain words, terms of measurement, numerals, money, calendar, international terms in English form, and recognized persons and places.

Three important uses of the Basic system are:

1. It gives an international language which takes as little of the learner's time as possible and gives him a working language for every day's purposes.
2. It is a smooth and quick way of learning English. It may be said to be the key to full English because the senses of all the other English words may be given in Basic, and because the structure of full or standard English may be made clear by comparison with the Basic.
3. It makes a person more conscious of the senses and feelings within the language, and for one whose natural language is English it is valuable training in full English.

These facts about Basic are of interest.

1. Thirty countries are using Basic today.
2. It is being used by international organizations and for international radio.
3. It is being used for teaching reading to very young children.
4. It is being used to teach English to foreign born persons.
5. It is being used for helping older boys and girls who have trouble with reading and the use of language.
6. Its use in high schools and colleges in the United States is increasing.

This statement in standard English is from "The Reader's Digest."

"For, though the government knew that war was virtually inevitable, so long as the faintest chance of peace remained, it refused to tell the British nation how serious the situation was lest the public displeasure bar further conciliation."

So that a comparison may be made, the same statement is put into Basic.

"For, though the government now had knowledge of the fact that war was in effect certain, so long as there was the smallest chance of peace, it did not let the British nation see how serious its position was for fear of getting on the wrong side of the public and of putting a stop to any future peace."

It may be seen that the sense of the first statement has been kept in the Basic translation.

It is necessary at all times to take into account the full sense of an English statement and to keep in mind the fact that common sense is important in the use of Basic English.

SCHOOL COMMITTEE REPORT

REPORT OF THE SCHOOL PHYSICIAN

To the School Committee of Scituate:

Examination of the pupils of the Scituate Schools has been followed this year as previously, viz, examination with special attention to height, weight, nose and throat conditions, and heart, lungs, posture and general appearance.

A child may be somewhat under-weight, and, at the same time, healthy. The rapid growth and great activity use up so much energy that it is difficult for them to put on enough weight. In such cases it is well to try to, in some measure, restrict their activity. Additional food, such as milk and cocoa, may help along this line.

Athletics play a very important role in the health life of school children. The health, morals, and school work cannot but be helped by well supervised athletic activity. The athletic supervision of the schools has constantly showed improvement, and is reflected in the individual.

At a meeting of School Physicians at Bridgewater, the subject of closing the schools during an epidemic was discussed, and it was the opinion that this was not necessary except in cases of very severe epidemics. The procedure recommended was daily inspection of contacts with the individual during the period of incubation, and followed up as fresh cases develop. This method is followed in Scituate.

The Schools for a period have been quite hard hit by the Influenza epidemic, but are getting back to normal.

Inspection of the school buildings, and grounds, have been made, and these are in excellent condition.

The School Nurse's report will contain data of visits which I will not include because of duplication.

Respectfully submitted,

T. B. ALEXANDER, M.D.,
School Physician.

REPORT OF THE SCHOOL NURSE

Mr. Harold C. Wingate,
Superintendent of Schools,
Scituate, Massachusetts.

Dear Sir:

The thirteenth annual summary of my work as part-time school nurse is as follows:

Number of School Visits (including those made with school physician for examinations, class and individual inspection, and first aid treatments)..... 129

SCHOOL COMMITTEE REPORT

Number of Home Visits for School Children.....	58
Number of Children taken home ill	14
Number of Children examined by School Physician.....	512
Number of Children with Nose and Throat Defects	96
Number of Children with Defective Vision	18
Number of Children with Heart Murmurs	137
Number of Children with Defective Posture	8
Number of Children with Defective Hearing	20
Number of Children having had Defects Corrected (all types).....	33
Number of Preschool Dental Clinics	8
Number of School Dental Clinics	67
Whooping Cough (Number of Cases Reported).....	47
Chicken Pox (Number of Cases Reported).....	26
Scarlet Fever (Number of Cases Reported).....	8
Mumps (Number of Cases Reported).....	4

The few cases of scabies, ringworm, impetigo and pediculosis responded quickly to treatment.

For the purpose of avoiding duplication, may I call your attention to the report made to the Nursing Service which gives detailed information on the generalized health program.

I fully realize that there is a great need for more of the nurse's time to be given for School Health Service. This can only be done by the various departments bringing the problem before the citizens and sponsoring an article in the warrant at the next Town Meeting, to provide extra help to carry on the entire health program.

Respectfully submitted,

MARGARET J. O'DONNELL, R.N.,
School Nurse.

SHEA WINNER FOR SELECTMAN IN SCITUATE (Continued from Page 1)

out over Archibald Bartington by a plurality of 919 votes.

Walter W. Jones sprung a surprise when he won out for constable defeating Ralph T. Conte, who was a candidate for re-election. Mr. Jones polled 1070 votes as against 727 for Mr. Conte. The other two candidates Ernest L. Damon and Charles B. Jenson were re-elected.

All the other candidates on the ticket were unopposed.

William M. Wade running for re-election as town clerk received the highest vote on the ballot with a total of 1648 and Mrs. Rose A. Smith, running for Town Treasurer was a close second with 1646 votes.

The result of the balloting was as follows:

Total Vote	2028

SELECTMEN'S REPORT

REPORT OF THE BOARD OF SELECTMEN FOR 1941

To the Citizens of the Town:

The Selectmens' report for 1940 presented a summary of the major accomplishments for the decade ending with that year. Our report for 1941 may record the constructing and placing in operation of the new combination Fire and Police and First Aid Station at Humarock. This new unit is an attractive bungalow type station and serves a most useful purpose in this rapidly growing community.

Another section of Country Way has been reconstructed over a layout made by the County Commissioners and completes the improved way from the Elm St. intersection Southerly to Union Street. This work was carried on under so called Chapter 90 proceeding under which the Commonwealth of Massachusetts furnishes 50% of the construction costs, the County of Plymouth 25% and the Town of Scituate 25%. This new piece of highway presents a striking contrast to the rough and dangerous conditions that have prevailed in the past. A contract for the reconstruction of 2,275 feet of First Parish Road Easterly from its junction with Chief Justice Cushing Road over a modified layout has been let and is now under operation. This too is a co-operative project with the Town bearing 25% of the cost. Although it is now apparent that there is to be a drastic curtailment in Chapter 90 allotments for 1942 it is hoped that we may be able to secure a small allotment of State, County and Town funds sufficient to complete the rebuilding of First Parish Road through to Country Way.

Reference to the report of the W. P. A. Coordinator on another page will give in detail all of the operations carried on under this Federal Organization. Owing to the requisitioning by the Government of most of those certified for W. P. A. for employment at Ft. Revere and elsewhere, it is apparent that it will not be necessary to make a large appropriation for the continuance of the W. P. A. program for 1942. In as much as war activities are absorbing most of our employable workers and war taxes and prices will require the heaviest toll upon all our incomes ever experienced it would seem that new or unnecessary enterprises might well be postponed and your Selectmen would recommend that for the ensuing year appropriations for the most part be confined to providing for the normal functioning of our regular Town Departments.

Respectfully submitted,

JAMES W. TURNER,
W. IRVING LINCOLN,
WILLIAMS B. JAMES,

Selectmen of Scituate.

TOWN CLERK'S REPORT

REPORT OF THE TOWN CLERK ANNUAL TOWN MEETING ELECTION OF OFFICERS

March 3, 1941

At a legal meeting of the inhabitants of the Town of Scituate qualified to vote in Elections and Town Affairs held at the High School Auditorium in said Scituate on Monday the third day of March, 1941 at seven o'clock P. M.; order was called by Moderator Dennis H. Shea.

The warrant was read by Town Clerk William M. Wade.

Tellers appointed by the Moderator and sworn to duties by the Town Clerk were C. Harry Driscoll, Ralph C. Ackerman, Thomas W. Macy, J. George Vollmer, Raymond S. Slack, George F. Dwyer.

ARTICLE 1

To choose all the necessary Town Officers other than those elected by ballot, viz: Surveyor of Lumber, Measurer of Wood and Bark, two or more Field Drivers, one Pound Keeper.

VOTED: Measurer of Wood and Bark and Surveyor of Lumber, Russell L. Fish.

Field Drivers, The Constables.
One Pound Keeper, Augustus L. Abbott.

ARTICLE 2

To hear the report of the Selectmen or other Town Officers and standing Committees, and act thereon.

VOTED: That reports of Selectmen, other Town Officers and standing committees be accepted as printed in Town Report.

ARTICLE 3

Will the Town vote to establish salaries and compensation of all elected Town Officers, or act thereon.

The following salaries are recommended:

Selectmen: Chairman \$1800.00 and legitimate expenses. Other members each \$540.00 and legitimate expenses.

Board of Public Welfare: Chairman, \$400.00 and legitimate expenses. Other members \$100.00 each and legitimate expenses. This sum shall include their charges for all services performed by them or either of them.

Assessors: Chairman, \$1800.00 and legitimate expenses. Other members each \$450.00 and legitimate expenses.

TOWN CLERK'S REPORT

- Highway Surveyor: \$2200.00. He to furnish his own conveyance while in the performance of his duties and to receive \$400.00 to cover expenses of same.

Town Collector: \$2000.00 and legitimate expenses. All fees to accrue to the Town.

Town Treasurer: \$1800.00 and legitimate expenses.

Tree Warden: \$300.00.

Town Clerk: \$1200.00 and legitimate expenses.

Board of Health: \$1200.00 divided as follows: Secretary, \$500.00 and legitimate expenses. Other members \$350.00 and legitimate expenses. This sum shall include their charges for all services performed by them or either of them, other than the inspecting of plumbing, meat and cattle.

Park Commissioners: Recommended that each member be paid the same amount per hour for work actually performed as is paid laborers in the Highway Department.

Water Commissioners: \$180.00 each and legitimate expenses. Same to be taken from the Water Department budget.

Moderator: \$100.00 per annum.

Voted: To establish salaries and compensation of all elected Town Officers as follows:

Selectmen: Chairman, \$1,800.00 and legitimate expenses. Other members \$540.00 each and legitimate expenses.

Board of Public Welfare: Chairman, \$150.00 and legitimate expenses. Other members \$100.00 each and legitimate expenses. This sum shall include their charges for all services performed by them or either of them.

Assessors: Chairman, \$1,800.00 and legitimate expenses. Other members \$450.00 each and legitimate expenses.

Highway Surveyor: \$2,200.00, he to furnish his own conveyance while in the performance of his duties and receive \$400.00 to cover expense of same.

Town Collector: \$2,000.00 and legitimate expenses. All fees to accrue to the Town.

Town Treasurer: \$1,800.00 and legitimate expenses.

Tree Warden: \$300.00.

Town Clerk: \$1,200.00 and legitimate expenses.

Board of Health: \$1,200.00 divided as follows; Secretary \$500.00 and legitimate expenses. Other two members \$350.00 each and legitimate expenses. This sum shall include their charges for all services performed by them or either of them, other than the inspection of plumbing, meat and cattle.

Park Commissioners: Each member to be paid the same amount per hour for work actually performed as is paid laborers in the Highway Department.

Water Commissioners: \$180.00 each and legitimate expenses to be taken from the Water Department Budget.

Moderator: \$100.00 per annum.

TOWN CLERK'S REPORT

VOTED: Yes \$700.00.

ARTICLE 14

To see if the Town will raise and appropriate \$20000.00 to be administered by the Selectmen as a general unemployment relief fund for the Town's share of materials, trucking, and other necessary expenses in connection with Federal Unemployment Projects, or act thereon. —Selectmen.

VOTED: That the Town raise and appropriate the sum of \$20,000.00 to be administered by the Selectmen as a general unemployment relief fund for the Town's share of materials, trucking and other necessary expenses in connection with Federal Unemployment Projects.

TOWN CLERK'S REPORT

ARTICLE 15

To see if the Town will raise and appropriate the sum of \$275.00 for a beach guard at Peggotty Beach from June 23 to September 7 inclusive, guard to also keep beach well cleaned and in A No. 1 condition.

—Womens Betterment Club.

VOTED: Yes. \$275.00.

—Unanimous vote.

ARTICLE 16

To see if the Town will raise and appropriate the sum of \$375.00 for the eradication of rag weed.

—Womens Betterment Club.

VOTED: No.

ARTICLE 17

Will the Town raise and appropriate the sum of \$500.00 for the extension of the present sidewalk on the Easterly side of Central Avenue at Humarock Beach, in a Northerly direction from the corner of Lowell Street, or act thereon.

—Humarock Beach Imp. Ass'n.

VOTED: Yes \$500.00.

—Unanimous vote.

ARTICLE 18

Will the Town raise and appropriate or transfer the sum of \$9000.00 to provide for the construction, grading and equipment, other than fire apparatus, of a building on land owned by the Town of Scituate at Humarock to provide quarters for firemen and police, and a public comfort station; and appoint a committee to have full charge of expenditure of said money, or act thereon.

—Fire Engineers.

VOTED: That the Town raise and appropriate the sum of \$9,000.00 to provide for the construction, grading and equipment, other than fire apparatus, of a building on land owned by the Town of Scituate at Humarock to provide quarters for firemen, police and a public comfort station. Said sum to be expended under the direction of a committee consisting of the three Fire Engineers and two citizens appointed by the Moderator, who shall have full charge of the expenditure of the money, and when the building is completed, it shall be placed under the jurisdiction of the Selectmen: (Frank L. Westerhoff and Michael E. Stewart appointed by Moderator to serve on this committee.)

ARTICLE 19

Will the Town raise and appropriate the sum of fifteen thousand dollars for dredging the channel in the South River, Marshfield and Scituate, from Humarock Bridge to the North River, to be expended by the Department of Public Works in conjunction with an appropriation of Fifteen thousand dollars by the Town of Marshfield and Thirty thousand dollars by the State in accordance with plans on file with the Department of Public Works for said project, and determine the manner of raising any sum voted hereunder, or take any action thereon.

—Selectmen.

VOTED: To indefinitely postpone.

ARTICLE 20

Will the Town raise and appropriate the sum of \$75.00 for channel markings and regulations of the usage of North River from Humarock Beach to the sea, same to be in conjunction with like control by the Town of Marshfield, or act thereon.

—Selectmen.

VOTED: Yes \$75.00.

TOWN CLERK'S REPORT

ARTICLE 21

Will the Town raise and appropriate the sum of \$60.00 for payment of dues for a yearly membership in the Maritime Division of the Boston Chamber of Commerce, or act thereon.
—Selectmen.

VOTED: Yes \$60.00.

ARTICLE 22

Will the Town authorize the Selectmen to contract for the part time services of two registered Public Health Nurses to be employed under the direction of the Board of Health, Board of Public Welfare and School Committee, and raise and appropriate the sum of \$3200.00 for payment of said employment, and the sum of \$750.00 for payment of transportation necessary in connection with said service, or act thereon.
—Selectmen.

VOTED: That the Town authorize the Selectmen to contract for the part-time services of two registered Public Health Nurses, to be under the employ of and selected by the Board of Health, Board of Public Welfare and School Committee, and that the Town raise and appropriate the sum of \$3,200.00 for payment of nurses' services and \$750.00 for transportation costs in connection therewith and that it is the sense of this meeting that the above agencies seek the collaboration of the Scituate Public Health Nursing Service in the administration of this program.

ARTICLE 23

To see if the Town will appropriate a sum of money equal to, but not exceeding the amount of the water revenue, to meet the payments for bonds, interest, operation and maintenance of the Water Department for the ensuing year, or take action relative thereto.
—James W. Turner.

VOTED: To indefinitely postpone.

ARTICLE 24

To see if the Town will raise and appropriate the sum of \$350.00 for the purpose of providing quarters for the Satuit Post 3169 Veterans of Foreign Wars in accordance with the provisions of General Laws, Chapter 40, (Ter. Ed.) Section 9, or act thereon.
—Elmer F. Ramsdell, Adjutant.

VOTED: Yes \$350.00.

ARTICLE 25

To see if the Town will raise and appropriate the sum of \$650.00 for the care of soldiers' neglected graves in accordance with the provisions of the General Laws, Chapter 115, (Ter. Ed.) Section 22.
—Selectmen.

VOTED: Yes \$650.00.

ARTICLE 26

To see if the Town will raise and appropriate the sum of \$500.00 for a series of seven band concerts to be given during the months of July and August, 1941.

—American Legion Band of Scituate.
Henry B. Merritt, Manager.

VOTED: Yes \$250.00.

TOWN CLERK'S REPORT

ARTICLE 27

To see if the Town will raise and appropriate \$3500.00 for the purchase of land at Scituate Harbor, Northwesterly corner of First Parish Road and Front Street, for a playground and recreational center and provide for the administration of said playground and recreational center under the provisions of General Laws, Chapter 45, Section 14, said land being bounded and described as follows: being the land described in deed dated January 9, 1930, and recorded in the Plymouth Registry of Deeds, Book 1585, Page 365-368 inclusive.

—By petition.

VOTED: To indefinitely postpone.

ARTICLE 28

To see if the Town will raise and appropriate \$2000.00 for the purchase of land at the Sand Hills, Allen Cove, so-called, for a public bathing beach, playground, and recreational center under the provisions of General Laws, Chapter 45, Section 14, being the land described in instrument dated November 18, 1930, and recorded in the Plymouth County Registry of Deeds, Book 1603, Page 474, to apply to that section as aforesaid instrument in exclusion of all other sections of aforesaid instrument as thence from said government land Northerly to the termination of Jericho Road at the ocean and beach of John T. Fitts, et al. now owned by the Town of Scituate.

—Nathaniel Tilden, et. al.

VOTED: To indefinitely postpone.

ARTICLE 29

To see if the Town will raise and appropriate the sum of \$2000.00 for the care and upkeep of the civic Center Grounds under the jurisdiction of the School Committee.

—School Committee.

VOTED: Yes \$1,750.00.

ARTICLE 30

To see if the Town will raise and appropriate the sum of \$1000.00 to be used for maintaining adult evening classes, under the jurisdiction of the School Committee.

—School Committee.

VOTED: Yes \$1,000.00.

ARTICLE 31

To see if the Town will raise and appropriate the sum of \$1200.00 for the improvement of the Scituate Harbor Parking Space, said sum to be used for regrading and tarring.

—Selectmen.

VOTED: To indefinitely postpone.

ARTICLE 32

Will the Town raise and appropriate the sum of \$500.00 to increase the parking area around the Town Hall, or act thereon.

—Selectmen.

VOTED: Yes \$500.00.

ARTICLE 33

To see if the Town will raise and appropriate the sum of \$500.00 for the improvement of the Minot Parking Space, or act thereon.

—Selectmen.

TOWN CLERK'S REPORT

TOWN CLERK'S REPORT

Parents, be sure to record the birth of your child with given name in full.

READ THE LAW!

"Parents, within forty days after the birth of a child, and every householder, within forty days after a birth in his house, shall cause notice thereof to be given to the clerk of the town where such a child is born." General Laws, Chapter 46, Section 6.

SOME OF THE MANY REASONS WHY BIRTHS SHOULD BE RECORDED

To establish identity.

To prove nationality.

To prove legitimacy.

To show when the child has a right to enter school.

To show when the child has the right to seek employment under the child labor laws.

To establish the right of inheritance to property.

To establish liability to military duty, as well as exemption therefrom.

To establish the right to vote.

To qualify to hold title to, and to buy and sell real estate.

To prove the age at which the marriage contract may be entered into.

To establish the right to public office.

To make possible statistical studies of the health conditions.

Your co-operation to the end that all births may be properly recorded will be greatly appreciated.

Blanks for returns of births will be furnished upon application to parents, householders, physicians, and registered medical offices as provided in Chapter 46, Section 15, General Laws.

Attest: WILLIAM M. WADE,
Town Clerk.

DEATHS REGISTERED IN SCITUATE FOR THE YEAR 1941

Date	Name of Deceased	Age Y. M. D.	Cause of Death	Names of Parents
Jan. 1	Charlotte Litehfield	75 3 23	Carcinoma of stomach; cachexia	Harry and Caroline Litehfield
Jan. 10	Graee Allen Legge	61 2 28	Sudden death. Heart disease, presumably coronary thrombosis	Frank W. and Amelia M. Damon

WILLIAM M. WADE,
Town Clerk.

PARK COMMISSIONERS' REPORT

REPORT OF PARK COMMISSIONERS

Board of Selectmen,

Gentlemen:

We are submitting our annual report for your approval.

It was our aim to improve and beautify all of the parks in the town. This was very difficult to do as it was such a hot dry season that grass was burned very easily.

We built a fence at Hollet Island Park so that people could not drive cars through the park.

It was necessary for us to reseed the park at Second Cliff, also the triangle at Greenbush and a strip of Elm Park.

The old flag staff on Lawson Park was rotten and a new steel one was purchased by the Department.

We thank everyone who has cooperated with us during the year.

Respectfully submitted,

EARNEST F. LITCHFIELD.

REPORT OF FIRE DEPARTMENT

To the Honorable Board of Selectmen,

Gentlemen:

The report of the Fire Department for the year 1941 is herewith submitted for your approval:

During the year the Department responded to 227 alarms, a detailed report of which will be found attached hereto.

In July of this year your Humarock Beach Branch of this Department was enabled to move into its new quarters. This new combination Fire and Police Station has made it possible to increase the efficiency of the Department in this vital section of the Town. It is hoped that any persons interested will visit and inspect this new Station.

Our report of last year pointed out to the Citizens of the Town, that certain pieces of our Fire apparatus were old and might soon be in need of replacement or repairs. The time has arrived when at least two of our engine trucks should

FIRE DEPARTMENT REPORT

be equipped with power brakes, the steering mechanism thoroughly repaired and in the case of the oldest White pumper a new radiator. These machines are not safe on the road at the present time and this work will be started at once. Your Board will plan to equip the next two oldest machines with power brakes in 1943.

With the entry of this Country into the war, your Board, in line with other communities felt it necessary to organize a Voluntary Auxiliary Fire Force. This force now comprises 70 volunteers and though in the early stages of training is taking on the appearance of a very useful unit.

The record of the Department for the past year is, in our opinion, an excellent one. Full credit for these results should be given to the Permanent and Call men who actually fight the fires. We feel that the citizens should be informed that each of these men will be called upon during the coming year for even more of their time and even greater efforts in our program to furnish more man power in each of the fire stations during the night time and in the training of the Auxiliary Department.

In conclusion we wish to thank your Board for its complete cooperation and extend our thanks to all who have by word or action assisted the Department.

Respectfully submitted,

GEORGE VOLLMER,
EBEN B. PAGE,
EDW. P. BREEN,

Engineers.

REPORT OF THE FOREST FIRE WARDEN

January 19, 1942.

Honorable Board of Selectmen,
Scituate, Mass.

Gentlemen:

During the year 1941, 140 alarms were answered by this department.

A detailed account will be found incorporated in the report of alarms under fire department.

A new law passed by the legislature this past year, requires all towns to maintain a forest patrol on days when the fire hazards are greatest. Notification of such days is broadcast by the State Forestry Department each morning.

This means extra expense to the forest department.

Your department extends its thanks to the Selectmen and the citizens of the town for their co-operation during the past year.

Respectfully submitted,

GEORGE VOLLMER,
Forest Fire Warden.

HIGHWAY DEPARTMENT

REPORT OF THE HIGHWAY DEPARTMENT

To the Citizens of Scituate:

We are pleased to report to the citizens of the town that the Highway Department has carried out their program of road construction and highway maintenance in a very systematic and economical manner.

This is more apparent this year due to the change in the lengthening of the term of the Highway Surveyor from a one year period to a three year term. Under the present system the Highway Department is able to make a more comprehensive and detailed study of road construction and maintenance, to install new drainage where none exists and to gradually change antiquated systems of drainage to a more efficient and modern type. This program for the past year is a part of a new method of incorporating our future plans of road building and maintenance under a three year period.

Our snow removal arrangement and ice control system is, I believe, second to none. It is our intention to keep the roads open at all times and to sand the roads when and where it would do the most good. This program I feel sure was carried out to the complete satisfaction of all concerned. We were able to return to the Town Treasury a balance of \$4,792.19 from our Snow Removal Account. This sum will later be used towards the lowering of taxes.

The work performed under the supervision of the Highway Surveyor during the year ending december 31, 1941, is herewith presented under the proper classifications.

New Construction

1. New Drainage
4000 linear feet
(Complete with catch basins)
2. Macadam Gutter
500 square yards
3. Concrete Curbing
1820 linear feet
4. Concrete Sidewalk
300 linear feet
5. New Streets
Borden Road and Morton Road
600 linear feet
Eleventh Avenue
1100 linear feet
Spaulding Avenue
700 linear feet
Egypt Beach Road
1200 linear feet
6. State, County and Town Project (Chapter 90)
Country Way
2800 linear feet

SEALER OF WEIGHTS AND MEASURES

Maintenance

1. Bituminous Patching continuous performed where required.
2. Bituminous Resurfacing
Front Street
5600 square yards
3. Drainage Maintenance as a continuous operation when and where necessary.
4. Guard Rails repaired in various locations.
5. Shoulders Widened
First Parish Road
1000 linear feet
Neal Gate Street
1000 linear feet
6. Street Cleaning in business areas.
7. Street Traffic Regulations including painting traffic lines and installing and maintaining traffic signs.
8. Surface Treatment.
9. Maintenance of Buildings.

In closing this report I would like to take this opportunity to thank the various Town Departments for their cooperation throughout the past year.

Respectfully submitted,

CHARLES M. WAGNER,
Highway Surveyor.

REPORT OF THE SEALER OF WEIGHTS AND MEASURES

Board of Selectmen,
Scituate, Mass.

Gentlemen:

The following is my report for the year ending December 31, 1941.

Six hundred and eight devices were sealed for use in trade. Four devices were condemned, being unfit for use in trade. Sixty-seven adjustments were made on various devices.

Many peddlers licenses were inspected.

All transient vendors were licensed and the fees received by the town.

Packaged goods and food products were inspected.

Reweighings were made of many packages put up for sale by weight.

Sealing fees collected for the year of 1941 were \$98.60. Adjusting charges were \$1.75. Sealing fees collected for 1940 were \$0.59. Outstanding fees December 31, 1941, \$0.59. The total amount paid the Town Treasurer in 1941 was \$100.94.

Respectfully submitted,

HOLLIS H. YOUNG,
Sealer of Weights and Measures.

BOARD OF REGISTRARS REPORT

REPORT OF THE
BOARD OF REGISTRARS

Meetings held for registration of voters in 1941:

February 17th at North Scituate Fire Station
February 18th at Scituate Harbor Fire Station
February 19th at Town Hall

A meeting was held on Thursday afternoon, February 6, 1941 for certification of names on nomination papers.

There were 74 names added to the voting list in 1941 by registrations, while 88 names were dropped because of deaths and change of residence, resulting in a loss in registration of 14.

Registered Voters in the Town of Scituate on December 31, 1941:

Males 1522
Females 1479

The Board made a house to house canvass throughout the entire Town of Scituate as required by Chapter 440 of the Acts of 1938, an Act transferring certain duties of local Assessors to the Registrars of Voters relative to the listing of inhabitants.

The attention of interested parties is called to Chapter 51, Section 2 of the General Laws, viz: If the name of a female who is duly registered as a voter is changed by marriage or by decree of court, her right to vote in her former name shall continue until January first next following. Adherence to this law thus requires every female now on the voting list whose name is changed by marriage or by decree of court to appear at an advertised meeting of the Board of Registrars and re-register as a voter if desirous of continuing to vote in Scituate, as her previous name will automatically be stricken from the list.

Respectfully submitted,

BERTHA L. TURNER,
J. EDWARD HARNEY,
DANIEL J. QUEENEY,
WILLIAM M. WADE,

Board of Registrars of Voters.

SCITUATE PUBLIC HEALTH NURSING SERVICE
REPORT OF THE TREASURER

To the Citizens of Scituate:

Herein is a review of the accomplishments of the Scituate Public Health Nursing Service during the past year.

SCITUATE PUBLIC HEALTH NURSING SERVICE

In July we sent three children for three weeks to the Tuberculosis Camp at a cost of \$180. A Tonsil Clinic, sponsored by the Service, took care of eighteen children at a cost of \$360. We purchased and outfitted two new bags for the use of the two Town Nurses costing approximately \$70. Necessary medical supplies during the year were contributed by the Service, as well as a donation of \$75 for additional Pre-School Dental work.

The Nursing Service has maintained a Thrift Shop at headquarters on Front Street, which has netted us \$328 during the last eleven months. It has been of great benefit to many people. Telephone 827 or send us any clothing, shoes, baby things or dishes that you don't need, to replenish our stock.

We are very grateful to the people who so generously gave to our membership drive. It is this support that enables us to carry on the Public Health work. We hope to continue this good work in the future as in the past, and to have your support. Owing to the war conditions, we are obliged to make our report as brief as possible. So the names of the Sustaining Members will have to be omitted from the Town Report. They will be published in the Scituate Herald the first week in March.

Following is the financial statement for 1941.

ANNUAL FINANCIAL STATEMENT OF THE SCITUATE PUBLIC HEALTH NURSING SERVICE

Receipts

REPORT OF THE BOARD OF HEALTH

To the Citizens of Scituate:

The work of your Health Department has continued as in former years, conforming to all State Law regulations and rules relating to Public Health. It has been our main object through the year to prevent, as far as possible, the spread of all types of disease, and success has been obtained by employing those agencies which have a tendency to check, in its infancy, epidemics of communicable diseases.

Health and health conditions are one of our first lines of defense, therefore every citizen should interest himself in health and health measures which are so vital to everyone. Scituate is rated as one of the healthiest communities of the Commonwealth and it is the desire of your Board to keep it such; "it can be done", it will be done, and we know that the cooperation of every citizen in this Town will be given as it has in the past, to promote health measures. We are listing below some of the various agencies that are concerned with Health and Sanitation.

Collection of Garbage

The demand on your Board for more collections of garbage was met during the past year by increasing the collections during the winter months. The increase in new houses on the water front, especially at Humarock, necessitated an increase of collections during the summer. To meet the requirements, a new contract was let in June of 1941, and our expenditure will be larger than in former years and we are asking a slight increase in our annual budget to care for this service.

BOARD OF HEALTH

Town Dumps

Dumps are maintained, one in the West part of Scituate and one on Stockbridge Road near the Greenbush line. These dumps have been kept in good condition at all times. The burning of, and covering accumulations of waste materials at the dumps is necessary, this has been done, thus helping to keep down any possibility of disease starting from those areas.

Clinics

Dental Clinic . . . A Pre-School and School Dental Clinic has been maintained as in former years and under the reports of the Dentists you will find their recommendations and services rendered. Dental Clinics are essential and we will continue during the coming year both the School and Pre-School Dental Clinics.

Well Baby Clinic . . . During the past year this Clinic was held monthly in cooperation with the Scituate Public Health Nursing Service and results obtained are highly commendable. During the year 1942 the Scituate Public Health Nursing Service will maintain this Clinic, relieving the Board of Health of the financial part of maintenance, also enlarging on the work for better health for our children.

Antitoxin Clinic . . . We were requested by the State Department of Health to hold this Clinic because Scituate was not fully up to its quota in immunizations against diphtheria. During the early Fall this Clinic was held and an additional fifty or more children were immunized bringing our quota nearly up to the standard requirements.

Inspectors

The following Inspectors are under the jurisdiction of the Health Department; Milk Inspector, Inspector of Meat and Slaughter, Animal Inspector, Plumbing Inspectors. These Inspectors have carried on their work in a manner which, in every way, conforms to the laws of the State and rules of the Board. Each of them has rendered a separate report of the work done and their recommendations for the coming year.

Vital Statistics

As in former years these statistics have been kept by the Town Clerk and under his report you will find the records of marriages, deaths, and births and other items, termed Vital Statistics.

Roadside Cleaning

We have continued as in former years to clean the roadsides of waste materials deposited by people who seem to disregard signs and the health of the community in general. The worst offences seem to be committed during the opening up and closing of some of our summer communities. Why people continue to deposit waste materials on the side of the road is something we cannot understand and we make an earnest appeal to our townspeople to report any violations immediately, so that we may apprehend the parties responsible.

Care of Beaches

During the summer months we have, from time to time, removed from our beaches all waste materials that might be a health menace if left on the beach. Kelp, dead fish, and other waste brought in by storm or tide should be removed; therefore we feel that the small amount expended has obtained favorable results and will continue this practice.

BOARD OF HEALTH

Town Free Parking Spaces

The Town maintains free parking spaces in various parts of our town and Comfort stations are maintained in each. These spaces are under the jurisdiction of the Board of Selectmen. Health regulations have been conformed with and the parking spaces are in first class condition.

Rivers, Ponds and Brooks

These have been cared for during the year by your Board of Health and the fly nuisance that gave us so much trouble in past years has been kept down to a minimum.

Investigations have been made of all complaints properly entered with the Board and satisfaction obtained in nearly all cases.

During the year no serious epidemics have occurred and we know that by the cooperation of all those interested we can keep this town free from any serious epidemic. Many types of disease can be prevented by immunization and we strongly urge immunization against diphtheria, typhoid, smallpox, or any other type of disease, that if not carefully guarded against, will become a community hazard. Consult your family doctor frequently, avoid contacts with those in quarantine, report any violations. We have two Public Health Nurses and we know they will gladly give you advice and assistance when called upon.

We wish to thank the Town Officials, the heads of various departments, the Scituate Public Health Nursing Service Organization, The American Red Cross Chapter, and all others who have cooperated with us during the past year, which has greatly assisted us in carrying out our work for better health in our community.

WALTER L. ENOS, Chairman,
GEORGE H. OTIS,
WILLIAM P. GROVESTEN.

REPORT OF THE INSPECTOR OF PLUMBING

Board of Health
Town of Scituate
Massachusetts

Gentlemen:

During the year 1941 the number of permits issued and inspections made of installations of plumbing were 199.

On October 24th, 1941 by enactment of the legislature "An act relative to the marking, construction and installation of hot water tanks" amending G. L. (Ter. Ed.) Chap. 142, became effective. In conjunction with Section 20 of Chapter 142, the new act forms a comprehensive unit of legislation dealing solely with "hot water tanks," a hot water tank being defined in the statute as any "range boiler, tank, vessel, or container, ferrous or non-ferrous, in which water is to be heated or stored under pressure for domestic, culinary, or sanitary purposes." This law provides for the installation of temperature and pressure protective devices.

BOARD OF HEALTH

A new section was added to Chapter 142, Section 22—"whoever violates any provisions of Section seventeen, eighteen or nineteen shall be punished by a fine of not more than fifty dollars. Inspectors of plumbing and other proper authorities shall cause the provision of said sections to be enforced."

While sewage can be adequately taken care of by cesspools in certain areas, there is a crying need of a sewerage system in Scituate Harbor. Until such time as it is possible for the Town to Construct a sewer in this locality, great care should be exercised in making provision for sewage disposal by means of septic tanks to keep at a minimum the pollution of the coastal waters.

Yours respectfully,

PHILIP S. BAILEY,
WILLIAM L. HARNEY.

REPORT OF THE SCHOOL DENTIST

To the Board of Health
and Superintendent of Schools,
Scituate, Mass.

Gentlemen:

The following figures show what has been accomplished in the dental clinic in 1941 at the Jenkins and Hatherly Schools.

Fillings in Permanent Teeth	461
Fillings in Deciduous Teeth	159
Extractions of Deciduous Teeth	56
Extractions of Permanent Teeth	6
Teeth treated	69
Prophylaxis treatments	137
Completions	129

Respectfully submitted,

DR. W. B. PARSONS,
School Dentist.

REPORT OF THE PRE-SCHOOL DENTAL CLINIC

Scituate Board of Health,
Scituate, Massachusetts,

Dear Sirs:

That dental caries rank with cancer and tuberculosis as one of the great scourges of humanity is an accepted fact today. To combat it is the united task of the profession with the help of public health services.

PUBLIC WELFARE REPORT

Caries and nutrition have become so closely interwoven that the dental profession is of necessity being forced to study the physiology of nutrition; and the prevailing high incidence of caries could be markedly reduced in a comparatively few years if, once equipped with the fundamentals of nutrition, they would intelligently apply this knowledge.

Vigorous MASTICATION, effective GINGIVAL STIMULATION, DENTAL CARE with skillful PROPHYLATIC treatment from two and one half years of age on, plus a PROTECTIVE DIET, would prevent this next generations contributing over twenty percent of military rejections to dental deficiencies. That the ROENTGENOGRAM is essential to the practice of children's dentistry is undisputed.

In this year's clinic

- 48 were examined (35 more than last year)
- 43 were given Dental Care
- 273 Defects were found within the oral cavity
- 29 Radiodontic examinations were made
- 8 Extractions were made
- 169 Deciduous Teeth were filled
- 26 Permanent Teeth were filled
- 5 Treatments were given
- 34 Prophylaxis were given
- 30 children were COMPLETED

The Scituate Board of Health can look upon its accomplishments in the above direction as a contribution to the defense of future years through sounder health for tomorrow's citizens.

Yours respectfully,

JOHN F. CRIMMINS, D.M.D.

REPORT OF THE BOARD OF PUBLIC WELFARE

To the Citizens of Scituate:

As in the past, this department has continued to be conducted in accordance with Federal and State regulations. During the past year expenditures have been considerably reduced, due to increased employment. In the coming year, however, we expect conditions to be quite different. In spite of increased defense work, many businesses may be forced to close down entirely. W.P.A. will probably be curtailed, forcing many of the workers to ask for relief. There will certainly be an increase in Old Age Assistance costs, due to legislative action in the last session. It is impossible to predict at this time what these changes in the law may mean in actual expenditure. We have reason to believe that the Aid to Dependent Children case load will be considerably heavier than it has been for the past year.

For the year 1941, however, this department was able to turn back to the town a balance of \$2,477.70 for General Relief, \$3,829.55 for Old Age Assistance, \$849.79 for Aid to Dependent Children, \$550.67, Old Age Assistance Administrative, and \$32.97 Aid to Dependent Children Administrative. \$17,234.76 was received from the Federal Government in U. S. Grants, to be used directly by

ENGINEERING DEPARTMENT REPORT

this department for Old Age Assistance and Aid to Dependent Children. In addition to this amount \$21,233.08 was received from the Commonwealth and other cities and towns to go directly into the town treasury and which can not be used by this department.

We are glad to be able to report this reduced expenditure in this department for 1941 due to decreased case loads and better economic conditions. We feel, however, that the outlook for 1942 is increasingly uncertain, and have already begun to feel the change in economic pressure. While certain groups are in better circumstances than ever before, others will be forced from life long occupations. We hope that the necessary adjustments may be met and that these people may be absorbed in defense work, but we must prepare to aid in bridging the gap.

Respectfully submitted,

WILMOT M. BROWN,
ANNIE M. SOMERS,
HARRY T. HANDY,

Board of Public Welfare.

REPORT OF THE ENGINEERING DEPARTMENT

To the Honorable Board of Selectmen,

Gentlemen:

We submit the following report as a description of the various services rendered by this Department and as an explanation of the manner in which the Engineering Appropriation was expended during the year ending December 31, 1941.

The services rendered by the Engineering Department are listed as follows:

1. Attending hearings preparatory to making layouts of streets offered for acceptance as town ways.
2. Making surveys and plans for layouts of new streets and relocation of lines of existing streets.
3. Setting bounds in the ground to define the lines of layouts accepted during 1941.
4. Staking street lines for various town departments, public utilities and individuals.
5. Reproducing points and replacing monuments where same were destroyed.
6. Establishing definite street lines where none existed for land court surveys and other surveys.
7. Locating property lines of town property other than streets, i. e., gravel pits, parking spaces and playgrounds.

TOWN WPA AGENT REPORT

8. Appearing at the Massachusetts Land Court in the interest of the town.
9. Making miscellaneous plans for various town departments.
10. Engineering design and supervision of construction projects, both town and W. P. A. throughout the town.
11. Estimating costs of various proposed improvements throughout the town.
12. Locating details not shown on the Town Plan.

These services were rendered as the occasion for their need arose during the entire year and the Town Engineer and his assistants were paid for their work on an hourly basis from the Engineering Appropriation. Also, all expenses such as drafting material and engineering supplies necessary to the execution of that work were paid for from the same appropriation.

Respectfully submitted,

DANIEL F. APPLEON,

Town Engineer.

HENRY A. LITCHFIELD,

Assistant Town Engineer.

REPORT OF THE TOWN WPA AGENT

To the Board of Selectmen,
Town of Scituate,

Gentlemen:

An appropriation of \$20,000 was voted at the Annual Town Meeting, March 3, 1941, to cover the Town's contribution for materials, trucking and other necessary expenses in connection with Federal Unemployment relief projects during the year.

Increased employment provided by National Defense projects and seasonal out of door employment, have been important factors in reducing welfare aid, resulting in decreased withdrawals from this fund, to the end that at the close of the year 1941, a substantial balance remained unexpended, while unemployment and welfare relief among employables in Scituate was lowest since the Federal Government inaugurated its Emergency Relief measures.

At the beginning of the year there were 84 persons residing in Scituate on WPA pay rolls. This number decreased to 30 in June, and continued until October, when it reached 36. At the close of the year the number was 44, divided as follows: 6 in Scituate, 32 in Hull, and 6 in Hingham. The general decrease on Scituate projects for the year was caused by the necessity of giving preference to National Defense work.

During this period, there was paid from Federal funds to the residents of Scituate the sum of \$27,306.49 for labor, \$1,118.63 for non-labor items and \$7,391.66 for Surplus Commodities, a total of \$35,816.78 granted for the year.

TOWN WPA AGENT REPORT

The following W. P. A. work projects were fully or partially completed during the year 1941:

WP 17,264 Highway Department General Road Construction and Repairs, Drainage, etc. Started February 27, 1939. Operating from January 2 to May 14. Completed.

WP 20,978 Improve Water Supply System. Cedar St., Front St., Tilden Rd., Hawley Rd. and Broekton Ave. Started January 9, 1940. Operating from January 2 to March 5. Completed.

WP 21,490 Indexing School Committee Records. Started July 22, 1940. Operating from January 2 to March 5. Completed.

WP 21,689 Distribution of Surplus Commodities. Operating from January 2 to April 25. Distribution of Surplus Food Commodities at Greenbush discontinued April 25 by adoption of the Food Stamp Plan on April 22. Wearing apparel now distributed from Town Hall, under W. P. 23,045.

WP 21,771 Indexing and Classifying Old Town Records. Supplementary. Started September 30, 1940. Operating from January 2 to June 20. Completed.

WP 22,361 Construct Water Mains on Jericho Road. Operating from January 21 to October 17. Completed.

WP 22,743 Indexing School Committee Records. Supplementary. Operating from March 24 to May 12. Completed.

WP 22,784 Install a New System of Records for Water Department. Operating from April 14 throughout the year. Continued operation January 1942.

WP 23,045 Distribution of Surplus Commodities (wearing apparel) in Seituete. Starting April 25 and continuous remainder of year, superseding WP 21,689. Continued operation January, 1942.

WP 23,164 Improve First Parish Road from right of way of the New York, New Haven and Hartford Railroad to Cudworth Road. Operating from October 20 to December 16. Closed down.

This project embraces four units of work: laying 4000 linear feet 10" concrete drain pipe, furnished without cost by the Federal Government; installing 1000 linear feet 8x18" curbing; building 4200 linear feet of 5' bituminous concrete and gravel sidewalk; and grade, loam and seed down the slopes and sides wherever necessary. When work is resumed on this project, it will mean an outlay of nearly \$15,000 in Federal funds for WPA labor to complete it. Men transferred to a National Defense project at Fort Revere, Hull.

A WPA project to install 1800 linear feet 6" water main on First Parish Road westerly from Grove Street, and 450 linear feet of 6" Water Main on Otis Road northwesterly from Jericho Road, with necessary hydrants, valves and fittings, entailing an expenditure of \$5,075 in Federal funds for WPA labor, was approved by the Government November 28, but it is impossible to state when operation will be started.

A non-manual project, increasing the scope of the Assessors' records, requiring the services of a number of white collar workers of both sexes, has been prepared and submitted for official approval. It is believed that action upon it will be favorable, although date of actual operation may be delayed by reason of preference being given to Defense work.

Construction work projects at the Hingham Naval Ammunition Depot and at Fort Revere, Hull, have given employment to a number of Seituete citizens during the year. Continued operation on both these projects January 1942.

ASSESSORS' REPORT

There were increases of 4¢ per hour in the WPA wage scale for UA, I, and S classifications and 3¢ per hour in the P. & T. classification beginning November 10, based on a 120-hour month.

The present Relief Act specifies that persons terminated for 18 months employment are eligible for re-assignment after 20 days of unemployment, providing they have been certified in the meantime, unless at the time dismissal is being considered there is available other qualified persons who have been awaiting assignment over 90 days.

The rules regulating the referral for certification by the Board of Public Welfare of persons seeking WPA employment remain unchanged.

The National Youth Administration has been able to provide employment continuously during the year to four young ladies on projects at the Allen and Pierce Memorial Libraries, where they assisted the Librarians, thereby securing valuable experience in library methods.

Another NYA project to provide clerical assistants in Town Departments when required, gave employment to four young ladies from January to September. At that time all of them had been absorbed either in private employment or transferred to other projects, as a result of the experience gained during their assignment.

An NYA project to employ young ladies as school lunch assistants in the High School Cafeteria was approved, but owing to the demands of private employment, the operation of the project was held in abeyance.

With so many movements started during the year, looking toward the training of youth for present day requirements, the opportunity for expansion of NYA projects has been seriously curtailed. It has been impossible to secure a sufficient number of young people to carry on the work desired to be undertaken in Scituate.

I wish to thank the Board of Selectmen and other Departments for their helpfulness and assistance during the year.

Respectfully submitted,

HERBERT A. WHITING,
Town W. P. A. Agent.

PLANNING BOARD REPORT

January 23, 1942.

To the Citizens of Scituate:

The duties of the Planning Board are many, especially when working under the laws passed in 1936. Our board is still functionnig under the original laws and can only do most of its duties at the request of some other department or individuals.

Many of our projects for the past year have been postponed by the unsettled condition of the world in general.

Advertising the benefits of the Town to prospective Summer residents, enumerating Scituate's fine beaches, weather, etc., was one small item we thought might help our Town to grow.

LIST OF JURORS

One of our board is very interested in finding the opinion of the voters as to the advisability of a Town Manager. We have arrived at a time when Government is costing more money than a human can visualize. To have that extra burden on top of our Town and State taxes to care for, it behooves all departments in our Town to cut as much as good government and business can allow. A Town Manager (or purchasing agent) should be able to save the Town many times his salary.

Many new houses have been built in the past year, most of them small cottages, very neat, good looking for the most part; and with large lots around most. Even the few that have small lots, are too many in a town such as Scituate which has much available land. Some definite lot size will have to be decided on in the very near future.

All these improvements will take time, yet we hope to see them in Scituate.

THE PLANNING BOARD,

R. A. ACKERMAN, Chairman
R. A. LEVANGIE, Secretary,
H. W. WELCH,
G. A. GRAUER,
M. W. MURRILL.

LIST OF JURORS FOR 1941

Prepared as provided for in Chapter 234, Section 4, General Laws

Allen, Walter S., Trainman, Country Way
Ahern, Frederick E., Automobile Salesman, Cedarwood Road
Brenchick, William P., Clerk, Jericho Road
Bailey, Philip S., Plumber, Booth Hill Road
Brown, Wilson S., Farmer, Stockbridge Road
Brown, Wilmot M., Retired, Ann Vinal Road
Cole, Harold W., Salesman, Barker Road
Chipman, Henry E., Salesman, Country Way
Drew, Arthur W., Trainman, Country Way
Dwyer, Robert W., Painter, Off Jericho Road
Finnie, James, Farmer, Tilden Road
Flynn, Thomas J., Lumberman, Off Town Way
Flaherty, Marcus T., Plumber, Stockbridge Road
Gannett, W. Prescott, Plumber, Beaver Dam Road
Gurney, Chester A., Carpenter, Wampatuck Ave.
Haartz, Louis O., Electrician, Mann Lot Road
Hill, John F., Poultryman, Country Way
Kingsley, Robert, Carpenter, Clapp Road
Killifer, D. Allen, Broker, Mann Hill Road
LaVange, Fred A., Laborer, First Parish Road
Lincoln, Charles C., Mech. Engineer, Henry Turner Bailey Road
Litchfield, Ralph M., Merchant, Driftway

CHIEF OF POLICE REPORT

McCarthy, Edward P., Plumber, Otis Place
Mitchell, C. Nathan, Farmer, Hollett Street

Westerhoff, Frank L., Builder, Morton Place
Wheeler, Clarence G., Poultryman, Stockbridge Road
Whittaker, Carl A., Garage Proprietor, Turner Road
White, Edward P., Bank Clerk, Capt. Pierce Road
Young, Howard H., Farmer, Greenfield Lane
Young, John H., Clerk, Stone Road
Yenetchi, George V., Highway Maintenance, First Parish Road
Gardner, Robert, Transportation Superintendent, Tilden Road

JAMES W. TURNER,
W. IRVING LINCOLN,
WILLIAMS B. JAMES,
Selectmen of Scituate

REPORT OF THE
CHIEF OF POLICE

Honorable Board of Selectmen,
Scituate, Mass.

Gentlemen:

The report of the Police Department is here-with submitted for your approval.

This report is based on the activities of the Department from January 1, 1941 to December 31, 1941.

Arrests

Assault and Battery	11
Breaking and Entering	2
Drunkenness	84
Disturbing the Peace	17
Damage to Property	4
Dope Addict	1
Insane	8
Illegitimacy	2

CHIEF OF POLICE REPORT

Larceny	5
Lewd Person	1
Non-Support	7
Neglected Child	4
Neglect of Minor Children	1
Stubborn Child	1
Hunting not being licensed	1

Motor Vehicle Violations

Leaving the scene	3
Operating under the Influence	17
Operating without license	3
Operating so as to Endanger	4
Speed	26
Refusing to stop upon a signal of Officer	2
Violation of traffic lights	11

Summary

Found not guilty	4
Fines imposed	72
Placed on file	45
Released—first offence—Drunkenness	48
Suspended sentences—placed on Probation	13
Turned over to other Police Dept's.	6
Sentenced to County and State Institutions	26
Complaints investigated by Police Officers	2733
Cottages inspected	2568
Fires covered by police officers	85
Fires discovered	5
Intended sale and transfer of motor vehicles	94
Motor vehicle accidents investigated by police officers	62
Operators booked	249
Windows unlocked and light left on	264
Pistol permits issued	32
Summons served for other police dept's.	92

SPECIAL POLICE SERVICE

Regular Intermittent Police Officers were placed on nine hour per day shifts from May 30th to Labor Day at Humarock Beach and North Seituete Beach. This service was rendered following a petition from the residents of these two districts. The Board of Selectmen, Advisory Board and this Department viewed the request as reasonable and necessary to augment the regular police service at these points. A similar request by petition was made by the Sand Hills Beach Association and while this section was given additional police service no one regular officer was assigned there during the past season. Many clubs of young men rented cottages and some of them conducted themselves in such a manner as to prove themselves a nuisance. Such clubs have a tendency to congregate late in the night when other people are seeking their rest. This called for added police surveillance from the mid-night on. Some arrests were made and in some instances the clubs were ordered to vacate. We feel that the "Club Nuisance" should be discouraged along the beach front.

MOTOR VEHICLE EQUIPMENT

Motor vehicles now in use by the department include two cars, four motorcycles and the town ambulance. The cruiser and the ambulance are equipped with two way radio. We are of the opinion that in the present emergency that it is of vital importance that our communications system be as extensive as possible.

PUBLIC HEALTH NURSE REPORT

With this in view an appropriation necessary to equip the four motorcycles with receiving sets and the Chief's car with a two way set will be asked. Due to priorities and the difficulty to be experienced in obtaining new cars, it is deemed advisable to consider the exchange of but one of the cars at this time. The cruiser should be exchanged if possible. This car is in service practically 24 hours of each day and therefore is run many thousands of miles in the course of a year.

AMBULANCE SERVICE

This service was called upon for 221 trips to various hospitals, mostly Boston, Weymouth and Cohasset, for a total of 8,981 miles. The hours of this service required a total of 501 man hours or 55 nine hour working days. This department received many letters of appreciation from patients and those related who have had occasion to utilize this service and the operators of the ambulance have been commended for their careful driving and sympathetic consideration of the patients.

The Police School sessions were omitted this year for the first time over a period of years. Each officer in the Department however took an additional course in First Aid.

In conclusion may we express appreciation to your Honorable Board for your assistance and advice in the conduct of this department. Your very evident desire to be co-operative has been encouraging and your sympathetic understanding of our problems has made our task less difficult.

Respectfully submitted,

M. E. STEWART,
Chief of Police.

REPORT OF THE PUBLIC HEALTH NURSE

Board of Health
Board of Welfare
School Committee

I hereby render my annual report from the time of my appointment, March 20 to December 31.

Number of Bedside Nursing Visits	1062
Number of Old Age Visits	200
Number of Soldiers Relief Visits	25
Number of Hospital Visits with Patients	44
Number of Ambulance Cases to Hospitals	12
Number of Doctors Office Visits with Patients	50
Number of Infant Welfare Cases	72
Number of Pre-School Dental Clinics	4
Number of Baby Clinics	10
Number of Unclassified Visits for Public Health Work	250
Number of Prenatal Visits	50
Number of Maternity Cases	2

PLYMOUTH COUNTY EXTENSION SERVICE REPORT

Number of Follow Up Visits	150
Number of Public Health Meetings Attended	5
Number of Conferences with Health Workers	10
Number of Times Assisted at Local Clinics	8

Total Number of Visits	1954
------------------------------	------

Number of Telephone Communications (Approximately)	200
--	-----

The morbidity service has increased considerably, due to the fact that the nurse was relieved for transporting patients to Hospital Clinics in which the Red Cross Motor Corp cooperated generously.

Maternity services are few since nearly all patients receive hospital care.

Respectfully submitted,

ALICE M. DOWD, R.N.,
Public Health Nurse.

THE PLYMOUTH COUNTY EXTENSION SERVICE

The Plymouth County Extension Service during 1941 has carried on its usual work of assisting rural and village people with their problems pertaining to agriculture, homemaking, and 4-H training. Demands are ever-increasing on the Extension Service to organize, administer and teach programs of national, state, county, and town importance. In view of the present crisis programs of work are being organized so that every effort will be directed towards informing the farm people of the ever-changing developments in agriculture, and to assist them with their problems during these critical times.

The agricultural department is organized primarily on a commodity basis, working with commodity committees, associations and groups of farm people. Major agricultural enterprises are cranberries, dairy, poultry, vegetables and fruit, but many smaller projects are covered such as forestry, general livestock, farm accounts, etc. The agricultural department renders service and receives fine co-operation from such agencies as Agricultural Conservation Program, Farm Security Administration, Surplus Marketing Administration, Farm Credit Administration, and various co-operatives.

The Home Demonstration Department conducted some work in each of the towns of the county during 1941. The major program during the spring and fall was in clothing construction. Emphasis was also made on the care, repair and renovation of clothing.

Over five hundred different women attended nutrition meetings held during the year. More families were helped this past year to plan home gardens and 18 food preservation demonstration working meetings were conducted.

Homemakers were also helped in various ways in the fields of home management, home furnishing, home grounds improvement and recreation.

Four-H Club work is that part of the Agricultural Extension Service which deals with rural youth. Young people between the ages of 10 and 21 in a community organize themselves into a group with their own officers and own local program with the guidance of an adult man or woman leader (who serves voluntarily). Each member has an individual project centering around a problem

WATER COMMISSIONERS' REPORT

of the home or the farm. They raise livestock, crops, make clothing, prepare foods, etc. They serve as officers and on committees of their own club. They have camps, games, songs, exhibits, tours, hikes, and social meetings. They work and play together. They learn to co-operate by co-operating.

COMBINED STATISTICAL OF THE THREE DEPARTMENTS

Days in office	683 $\frac{1}{4}$
Days in the field	987 $\frac{3}{4}$
Leaders and Committeemen	465
Farm and Home Visits	2,783
Office and Telephone Calls	9,716
News Articles	418
Individual Letters	4,392
Number Circular Letters	340
Copies	124,247
Total number of meetings participated in by agents	804
Attendance	31,053
Total number of 4-H club members enrolled.....	1,701
Total number of different women attending meetings.....	3,097

The financial assistance and moral support of Scituate is greatly appreciated by the people the Extension Service assists. A continuation of its support is justified on the record it has achieved. Its influence cannot be measured by monetary values, but its educational programs and individual assistance constitute one measure in the first line of national defense.

CHARLES E. MITCHELL,
Town Director.

STATEMENT OF BOARD OF WATER COMMISSIONERS

The activities of the Water Department of Scituate for 1941 are carefully set forth in the report of our Superintendent, William J. Lumbert, and merit your attention and study.

The general improvement of the entire water system continues. Large additions of mains to supply new takers have been added, again this year with only a fractional part of the expense falling on the tax payer or water user. Paragraph 5 in Mr. Lumbert's report is an example. A whole development is acquired by the Town of Scituate at practically no cost, yet it will yield a good return in both taxes and water rates, as it is building up rapidly.

We are facing a problem on water supply. It is imperative that the available amount of potable water be increased. To date our efforts to find new sources have failed. This need is so urgent that we will keep crews constantly at this work until we have secured an ample supply.

WATER RATES REDUCED \$2.00 TO EACH TAKER

The water takers will be pleased to notice that once again we are able to reduce the water rates. This we are able to do because our income was \$4,570 in excess of our estimate; from our appropriation of 1941 we are able to turn back \$1,377.00 and the bond interest which is paid out of water income will be \$1,185.00 less than in 1941.

The three items amount to \$7,132.

J. F. McJENNETT,
S. C. WEBSTER,
RUSSELL J. WILDER,
Board of Water Commissioners.

WATER COMMISSIONERS' REPORT

REPORT OF SUPERINTENDENT

To the Honorable Board of Water Commissioners,

Gentlemen:

It is my pleasure to submit for your consideration, the tenth annual report of the Water Department, setting forth the work accomplished during the year 1941 and to offer recommendations for future activity of the Department.

Continuation of work on Tilden Road, under W. P. A. Authority, installing an eight inch waer main, resulted in the completion of a circuit, with the exception of approximately one hundred feet. The W. P. A. work was stopped and later on the line was completed by the Water Dept., and now there is a water main installed, the entire length of Tilden Road, providing fire service from both ends, or either end, from either standpipe.

Approval of another W. P. A. project permitted work to be started to replace the old 4 inch and six inch main on Jericho Road, with a ten inch line extending from Beaver Dam Road to Turner Road. The new pipe of larger diameter will make available nearly three times the volume of water at the Sandhills and Light House Point sections, and augment the fire service to a great extent. The installation of this new main was completed October 12, 1941.

In March, a project to revise and bring up to date and install a card index system, with new maps, was approved by the W. P. A. and the work on this project was started April 9th of this year. Work on this project is still in progress and will be completed in 1942.

Development of the southerly section of Humarock, known as "New Humarock" required the installation of a main to supply domestic and fire service. All pipe and fittings were paid for by the developer and the trench opened and backfilled at his expense. The main pipe and fittings were placed by the Water Department to insure a proper installation, as the main was eventually turned over to the Town for operation. At the same time additional short mains were laid in some of the side streets in Humarock, to provide service for new houses being erected.

During May the main on Hatherly Road was extended to and along Bailey Causeway to complete a loop in the northerly section of the North Scituate Beach Development. This loop provided a second line of supply and obviated the necessity of shutting off the entire northerly section of this development in case of a broken main.

In September, the badly corroded 16 in drain through the dyke at Webster Meadow was replaced with 16 inch Transite pipe and a concrete header was placed at the easterly or ocean end, to prevent errosion by the tide water. The drains as now constructed will last a great many years.

The year 1941 has proved to be the dryest of the last one-hundred years. There has been a deficiency of 15.59 inches in 1941 and the total deficiency for the last three years 1939, 1940, 1941 has been 27.65 inches.

As a result, there is a very severe shortage of water throughout this section of the country, more particularly on the Atlantic coastal plain. Unless the conditions governing the undergrond water supply become very much more favorable, it will be necessary to take drastic action, regulating, if not entirely prohibiting the use of hose and sprinkler.

WATER COMMISSIONERS' REPORT

Exploration for new water supply, which is now being carried on, should be continued until all possible prospects have been covered.

For immediate work, I would recommend the replacement of small lines in Bramble Avenue and Grasshopper Lane, with six inch mains. Further replacement of small lines in Humarock should be considered as money becomes available.

The mains at the bridges on Gannett Road are in a very precarious condition and should be replaced. These mains are subjected to the extreme conditions of exposure at low tide and the action of salt water, salt muck, and salt ice on tidal flows. Replacement of these cast iron mains with Transite pipe buried three feet below the bottom of the creek would eliminate this condition.

For the duration of the war, it is very probable that considerable difficulty will be experienced in obtaining material priorities through the O. P. M. for any new work other than that required for Army or Navy developments. This period is absolutely indefinite and of course all the work that can be prosecuted, after the emergency, will be very necessary to take up unemployment.

WILLIAM J. LUMBERT,
Superintendent.

SUPERVISOR CARE OF VETERANS' GRAVES

January 19, 1942

To the Honorable Board of Selectmen,
Scituate, Massachusetts,

Gentlemen:

I submit my report as Supervisor Care of Veterans' Graves, in the Town of Scituate for the year 1941.

During the past year 157 graves situated in the various Cemeteries of the Town have been cared for. Many of the graves were in a deplorable condition, but thanks to the unselfish and whole-hearted cooperation of all Cemetery Corporations and caretakers we have made great strides toward our ultimate goal, namely, to have every grave where a Veteran rests put in A No. 1 condition. Due to the fact that I had difficulty establishing the right of way to the Damon Tomb, that particular place was not taken proper care of, however I assure you that in the coming year that will be remedied.

I wish to thank all who helped me to accomplish so much this year.

Respectfully submitted,

ELMER F. RAMSDELL,
Supervisor Care of Veterans' Graves.

REPORT OF THE TOWN ACCOUNTANT

To the Honorable Board of Selectmen:

Gentlemen:

In compliance with the provisions of Chapter 44 of the General Laws, I herewith submit the following report of the Accounting Department for the year ending December 31, 1941.

I have also included a detailed statement of disbursements showing amounts paid and the persons to whom payments were made, as requested by vote at the annual meeting held March 7, 1927.

ELLEN ELIZABETH COLE,
Town Accountant.

ALLEN MEMORIAL LIBRARY REPORT

REPORT OF THE ALLEN MEMORIAL LIBRARY

The Allen Memorial Library Association suffered a great loss in 1941 through the death of Dr. Thomas B. Alexander, who had served as President for a number of years. The members of the Association are deeply conscious of the contribution Dr. Alexander made to the progress of the library, and since his death, we have done our best to continue certain programs and policies he established.

During 1941 considerable work on redecorating the interior of the building was finished, and we feel that the library is in better shape today than for a number of years.

With the completion of rather extensive alterations and repairs conducted in 1939 and 1940, a larger amount of our appropriation was available for the purchase of books—text books, fiction, and non-fiction—and we are very glad to report a steadily increasing circulation.

Our building is being made available for civic and defense purposes, and we hope to have been helpful to the people of the town in this policy.

As a special service, a member of the Association has taken upon herself the duty of distributing books to soldiers who are in camp within the town limits, and we believe this is a very practical addition to the service of the library.

No report would be complete without a word of appreciation for the splendid services rendered by our Librarian.

We look forward to broadening, if possible, the value the Allen Memorial Library to the community in 1942.

Respectfully submitted,
HOWARD O. FRYE.

REPORT OF THE PEIRCE MEMORIAL LIBRARY

The trustees of the Peirce Memorial Library submit the following report for the year ending December 31, 1941, and thank the citizens of Scituate for their assistance and co-operation.

Books in circulation in 1941	21,203
Magazines in circulation in 1941	1,837
Books purchased in 1941	556
Books received as gifts in 1941	40
Books rebound in 1941	41

There has been an increase in the number of cardholders during the year, but a slight decrease in the number of books and magazines in circulation, due without doubt to war activities; also the number of new books purchased is a bit lower, as the cost of books has increased.

The financial report of the Peirce Memorial Library will be found on another page.

Respectfully submitted,
KATHERINE ELLIS,
President.

TOWN COUNSEL REPORT

REPORT OF TOWN COUNSEL

Besides the usual variety of legal problems involving liquor licenses, lay-outs, appropriations, town meetings, real property, welfare, dogs, contracts, nuisances, mousing, shellfish, civil service, municipal rights and liabilities, legislation, zoning by-laws, statutes, planning, taxation, employment, and funds, the year 1941 was marked by special activity in the field of public aid. At the April term of the Supreme Judicial Court for the Commonwealth your counsel argued the case of *Cohasset v. Scituate* determining the Town of Scituate's obligation as to certain welfare aid furnished a mother and children moving from the town to Cohasset. The Full Bench decision was favorable to Scituate so that the town has been saved a large sum of money. The opinion of the Court supported your town counsel's contention that the Cohasset Board of Public Welfare could not continue giving a family ordinary welfare aid if entitled to Aid to Dependent Children benefits, to which the Federal Government contributes one-half and the State department one-third, leaving Cohasset to pay only one-sixth of any such support money. Under ordinary aid law Cohasset looked to Scituate for full reimbursement, claiming the case to be one of a family with a Scituate settlement for such aid. i.e. place of last five years' residence.

This Supreme Court decision is far reaching, the interest of the Commonwealth being evidenced by the presence of the State Commissioner of Public Welfare at the argument.

In two other welfare cases your counsel collected \$377, including \$257 from another town and the balance from the estate of a deceased recipient.

Your counsel participated in the Old Colony-New Haven Railway proceedings resulting in conditional inclusion of the Old Colony Railroad in the N. Y., N. H. & H. R. R. Co. reorganization plan. Threatened with discontinuance of our local service, we have retained eight trains daily, four each way, between Greenbush and Boston, besides off-peak hour service from Cohasset.

With improved conditions your counsel believes every person interested in added train service from the Scituate stations to Boston and return should write the Old Colony Railroad, South Station, Boston. Appeals from any and all groups for additional trains will help, too. Very little interest has been shown by the local people up to right now when auto traffic is being curtailed.

Your counsel was, however, encouraged by the Board of Selectmen in his efforts with assurances of monetary compensation, but served throughout the case without fees, the Interstate Commerce Commission refusing allowance of fees to "public interest" representatives, including counsel for the Commuters' League and the Commonwealth who were partially paid by their clients. Your counsel waived such pay as it would have meant an additional appropriation expense to the town. (In fact served without compensation for November and December general legal services.)

Scituate, with one railroad crossing requiring tenders, is deprived of service because of the expense of maintaining tenders at so many crossings in Cohasset, Hingham, Weymouth and Braintree. This maintenance of crossings is more than the passenger traffic can bear. Under present employment conditions, the railroad should install lights as proposed and release the employees for other service to

SCITUATE PUBLIC HEALTH NURSING SERVICE

save many thousands of dollars. The railroad trustees' failure to make such savings and the Public Utility Department's non-insistence are difficult to understand. Instead, we have seen destructive practices such as the removal of our second track to Greenbush (a dubious expense of operation).

Now that both the rail employers and employees have had a raise, they might consider John Q. Public of the South Shore and give him something—at least let him ride through the old home town to the Hingham 9 A.M. train and not make him or Mrs. J. Q. P. come home at sundown. In other words, we should have a through train to Greenbush in the evening after supper. A readjustment of schedule, moreover, should be considered to meet the needs of defense workers at Hanover, Hingham, Quincy and Boston. All who agree with these sentiments are urged to let the Old Colony management know it. Demand train service.

Feb. 2, 1942.

VERNON W. MARR.

REPORT OF THE SECRETARY OF THE PUBLIC HEALTH NURSING SERVICE

During 1941 the Scituate Public Health Nursing Service held eight regular meetings at which there was an average attendance of fourteen members. Two special meetings and one meeting of the executive board were held during the year. Following the resignation of Mrs. John McJennet in April, Mrs. Joost DeHaan, the Vice-President, took the President's chair. Due to the later resignation of Mrs. DeHaan, in September, Mrs. William A. Reynolds, the acting Vice-President, assumed the office of President for the remainder of the year.

At the special meeting held in March authorization was given to sell the automobile belonging to the Service which had been purchased at the beginning of the year. This action was taken following notification by town officials that each nurse was to be responsible for her own car. The Service was also notified that there would be two health nurses for the town: Miss Margaret O'Donnell under the direction of the Board of Health and School Department, and Mrs. Alice Dowd as General Health Nurse. At the same meeting Mrs. Chester Harts was appointed chairman of the Thrift Shop Committee.

An office on Front Street has been maintained by the Service as headquarters for the nurses and as an aid to the Board of Health. The Thrift Shop is also located here and has been very successful under the able direction of Mrs. Harts. During the year the office clerk, Miss Helen Chicko, left to enter a training school for nurses and her place was taken by Miss Geraldine Dowd.

A tonsil clinic was conducted during the summer under the guidance of Miss O'Donnell. Seventy-five dollars was voted by the Service for pre-school dental work. Two fully-equipped medical bags were procured for the nurses and the Service voted to take care of all emergency supplies required for the nurses.

The treasurer's report will acknowledge all the fine gifts to the Service during the past year. The secretary would like particularly to note the generous gift of the Women's Betterment Club. Also appreciated is the assistance of the Motor Corps of the Red Cross which was of great help in transporting patients to hospitals and clinics. Excellent work was done by Mrs. Chester Harts in handling the annual membership drive and by Mrs. Louis Rouleau who headed the Tuberculosis Seals Sales Committee.

Respectfully submitted,

ESTHER F. GILLESPIE,
Treasurer.

TREE WARDEN'S REPORT

REPORT OF THE TREE WARDEN

To the Citizens of Scituate:

During the past year, we have planted seventy-eight shade trees on our streets.

The Elm Tree Beetle situation is becoming very serious.

The Gypsy and Moth conditions are very bad in Marshfield, Cohasset, and Hingham, the outlook for defoliation this season looking bad in these towns. Because of this, we are kept very busy scouting and spraying to protect our own trees.

The Brown Tail Moth has infested Humarock Beach. But that is the only part of Scituate where that pest has located.

I have tried to keep the corners and intersections, and highways free from brush to provide the best possible vision for motorists and pedestrians.

Respectfully yours,

WILLIAM F. FORD,
Tree Warden.

REPORT OF THE INSPECTOR OF ANIMALS

To the Board of Health,
Scituate, Mass.:

I wish to report that I have quarantined all dogs which have bitten people and have attended to all matters relative to cattle, goats and swine.

CHARLES O. CHASE,
Inspector of Animals.

REPORT OF THE MILK INSPECTOR

January 20, 1942.

To the Board of Health,
Scituate, Mass.

Gentlemen:

I have issued 47 milk licenses, 4 oleomargarine licenses, 1 milk pasteurization.

The last Commercial producer of raw milk in Scituate has gone out of business. Raw milk may still be purchased here but the majority of milk sold here is pasteurized. Samples have been taken and tested and found above Standard.

Respectfully,

GEORGE H. OTIS,
Milk Inspector.

REPORT OF SPECIAL COMMITTEE

REPORT OF SPECIAL COMMITTEE

Erection of Fire and Police Station—Humarock Beach

Your Committee selected the site for the Fire and Police Station on town owned property abutting the town parking space off River Street, Humarock Beach. Plans and specifications were drawn and bids invited by advertising in the Scituate Herald. An effort was made to interest local contractors to enter bids, without success.

The contract was let to Walter S. Robbins, contractor of Falmouth, Mass., who submitted the lowest bid. Bids were handled in accordance with Chapter 480 of the Acts of 1939, entitled, "Fair Competition to Bidders" etc. and the contract called for compliance with Chapter 461 Acts of 1935, having to do with the "Minimum Wage Scale."

The supervision of the construction of the building was delegated to Mr. Frank Westerhoff, whose experience as a building contractor and the deep interest he showed in the supervision of the work was of great value to the committee and the town.

The contractor was paid a bonus of \$30.00 in accordance with an agreement had with the committee which called for the completion of the building to the satisfaction of the committee on or before July 15, 1941. The completion of the building was accepted as of July 12, hence the three days bonus at \$10.00 per day.

The building as completed includes living and sleeping quarters for two firemen, kitchenette, shower bath, toilet, boiler room and apparatus space for the fire department and an office room including first aid facilities for the police. Public convenience stations for men and women are also a part of the building.

The grounds surrounding the building were laid out, filled in, graded and seeded and early in August a well kept lawn was in evidence. Shrubbery was planted and asphalt walks laid out, all of which, in the opinion of your committee, added to the attractiveness of the building.

Necessary equipment for the kitchenette in the fire quarters was provided, furniture for the living and sleeping rooms for the fire department and office furniture for the police was installed.

A detailed list of expenditures will be found in the report of the town accountant.

Respectfully submitted,

M. E. STEWART, Chairman,
EBEN B. PAGE, Clerk
GEO. W. VOLLMER,
EDWARD P. BREEN,
FRANK L. WESTERHOFF,
Special Committee.

SCHOOL COMMITTEE REPORT

SCHOOL CALENDAR—1942

WINTER TERM—January 5 to February 20 inclusive.

One Week Vacation.

March 2 to April 17 inclusive.

Holiday—April 3.

One Week Vacation.

SPRING TERM—April 27 to June 19*.

Summer Vacation.

FALL TERM—September 8 to December 23 inclusive.

Holidays—October 12, November 11, 26 and 27.

* This date is tentative. The statutes require high schools to have one hundred eighty sessions per year.

“NO SCHOOL” SIGNAL

The “No School” signal is 3-1-3, and will be sounded from the fire stations at North Seituete, Seituete Harbor and Greenbush at 7:20 a. m. to designate the omission of school sessions for the first six grades—e. g. the Hatherly and Jenkins Schools. If the signal is repeated at 7:30 a. m., it will indicate no school in the High School. It is, however, the general policy of the Committee to hold regular sessions whenever it is practicable to maintain transportation service.

COMMITTEE MEETINGS

The regular meetings of the Committee are held monthly, at the office of the Superintendent, Old High School Building, September to June, inclusive.

Appointments with the Superintendent may be made upon request.

The age of admission to Grade One of the Hatherly and Jenkins Schools is five years and four months on the day of the opening of school in September.

No child will be admitted to school for the first time after October 1, unless, before this date, permission has been granted by the Superintendent for a later entrance.

A vaccination certificate must be presented to the school when the pupil enters for the first time.

A birth certificate must be presented by those pupils whose births were recorded outside of Seituete.

REPORT OF THE SCHOOL COMMITTEE

To the Citizens of Scituate:

The School Committee presents for your consideration the following report of the Superintendent of Schools. You will find in it a detailed account of what has been accomplished during the past year.

Last April, at a joint meeting of the Union, Mr. Wingate was re-elected as Superintendent of the Schools of Scituate and Marshfield for the regular period of three years.

With sorrow we note the passing of Dr. T. B. Alexander, who for twenty-eight years served faithfully and well as school physician.

The resignation of Mrs. Marion C. Alexander was accepted with sincere regret. Mrs. Alexander was a faithful and competent member of the School Committee for over twenty-three years, and always felt a deep interest in the schools of the town. Mr. Fred T. Waterman was appointed to fill the unexpired term.

All precautions possible have been taken to protect the children of the schools in this time of crisis. A detailed account of what has been done will be found in the Superintendent's report.

We wish to express our appreciation to the citizens of the town for their generous support, and to state that the welfare of the schools is our first consideration.

Respectfully submitted,

MRS. EMMA L. DAMON, Chairman,
THOMAS W. MACY, Secretary,
FRED T. WATERMAN,

School Committee.

SCHOOL COMMITTEE REPORT

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Committee of Scituate:

I take pleasure in submitting my sixteenth annual report for your consideration.

CHANGES IN SCHOOL STAFF

When the Scituate Schools reopened on Monday, September 8, there were five new teachers on the faculties of the different schools. The greatest number of changes occurred at the Hatherly School where three of the seven teachers resigned at the close of the last school year. Mrs. Souther and Mr. Burrill both retired after long service in the teaching field. Miss Cushing resigned to be married.

The teacher selected for Grade I was Miss Barbara O. Annis of Quincy, a graduate of the Lowell Teachers' College in 1940 with one year's experience as teacher of the primary grades at Salem, New Hampshire. The teacher elected to the third grade position was Miss Jeanne H. Lockhart of Milton, a graduate of the Perry Kindergarten School, with three years' experience in the primary grades of schools in Carver and Middleboro, Massachusetts. In the sixth grade position—and in charge of the building—is Mr. Robert L. Stevenson of Lynn, a student at Northeastern University for two years and a graduate of Bridgewater State Teachers' College. Mr. Stevenson has had several years' experience, last year being principal of a four-room elementary school at Auburn, Massachusetts.

At the Jenkins School, Miss Grace Hague was transferred to the second grade position made vacant last spring by the death of Miss Lillian M. Weeden. Miss Rose M. Fisher of Fort Fairfield, Maine, a graduate of Washington State Normal and the Perry Kindergarten School, was elected to the first grade position. Miss Fisher has had eighteen years' experience in the public schools of Fort Fairfield. The large enrollment in Grade I made it necessary to provide a full-time assistant for this grade, and Miss Mary A. Tenney of Gardner, Massachusetts was appointed to the position. Miss Tenney is a graduate of the Perry Kindergarten Normal School.

The vacancy in the Art Department at the High School, brought about by the resignation of Mrs. Barbara Arnold, was filled by the election of Miss Doris M. Rowell, a graduate of the Massachusetts School of Art, and for the past two years supervisor of drawing in the schools of Holbrook and Avon, Massachusetts.

At the end of the fall term Mr. Edward W. Whitmore accepted a position as head of the science department of the Middleboro High School. Mr. Whitmore came to the Scituate High School in September, 1930, serving first as principal of the two junior high school grades and later as teacher of science in the senior high school. A permanent appointment has not yet been made.

Mention has been made above of the retirement of Mrs. Sara M. Souther and the death—while in service—of Miss Lillian M. Weeden. Mrs. Souther retired after nearly forty-four years service in the Scituate schools. Miss Weeden, a teacher at the Jenkins School since 1921, died at the Cohasset Hospital on March 28 after a short illness. They were both faithful teachers, greatly interested in their work, and I am glad to pay tribute to their long and useful service in the community.

Dr. Thomas Branch Alexander, school physician since 1913, died on August 28. He was a sincere friend of the schools and he had the respect and confidence of teachers and parents. His loss to the department is keenly felt.

SCHOOL COMMITTEE REPORT

SCHOOL ENROLLMENT—OCTOBER 1

Ten-Year Period

	Elementary Grades I-VI	High School Grades VII-XII	Total
1932	436	272	708
1933	443	304	747
1934	440	333	773
1935	400	341	741
1936	412	356	768
1937	388	358	746
1938	409	357	766
1939	411	368	779
1940	415	359	774
1941	449	375	824

There has been a decided increase in the number of pupils enrolled in our schools this year. The increase is general, but more marked in the elementary grades. Compared with last year the total increase is fifty, and in both the elementary and high school departments the enrollment on October 1 was the highest in the history of the Scituate schools.

The desirability of carrying forward the school building program for Scituate was recognized several years ago. At the special Town Meeting held on Nov. 29, 1938, an article, sponsored by the School Committee, was acted upon by the appointment of a committee to report on the purchase of land for a central elementary school. This was followed, through action of the next annual town meeting, by the appointment of a committee of five to look into the matter of school housing for the elementary grades,—to investigate present conditions and determine future requirements. This committee made a careful study of the problem, having the buildings inspected by representatives of the State Building Inspection Department, the State Fire Marshal's office and the Scituate Fire Department, as well as by a school architect, and reported back to the Town Meeting of 1940. The Committee recommended that no building for elementary schools be considered at that time, particularly in view of the more imminent need of an addition to the High School.

For several years previous to this your attention had been called to the rapid increase in High School enrollment and the probable need of additional classrooms at an early date. Acting upon this knowledge, the School Committee placed an article in the Warrant for the 1940 Town Meeting to see if the Town would vote to authorize the School Committee to secure detailed plans and specifications for an addition to the present high school building. This article was indefinitely postponed by the Town Meeting.

In the present national emergency, with everything subordinated to the "all-out" war effort, we fully understand that it is impossible to engage in a major school building program. On the other hand, we should report the situation as it exists. The enrollment has increased by fifty this year and this trend may well continue; all buildings share in the growth; the lack of room creates difficult problems; we must be ready to carry forward our building program as soon as conditions make it possible.

TEXTBOOK ADOPTIONS IN ELEMENTARY GRADES

In the elementary schools, during the year, the use of the "New Work-Play Books" by Gates, Huber, Ayer and Peardon has been extended to the second grade. The "Daily-Life Arithmetics" by Buswell, Brownell and John have been introduced in Grades III-VI, and the "Essentials of Everyday English" by Ferris and Keener have been adopted in Grades II-VI.

SCHOOL COMMITTEE REPORT

Closer contact between the teachers of our elementary schools is being secured by monthly meetings held alternately at the two buildings. Administrative procedures are presented and school problems are discussed. One meeting this year was devoted to an explanation of the best use of the new arithmetic series, another to a discussion of the program of studies for the first six grades, and a third to a presentation of plans made for the protection of pupils during air raids.

UPKEEP OF BUILDINGS AND GROUNDS

In addition to the usual routine yearly repairs and replacements at the Hatherly School, the interior of the sixth grade room was painted and in several rooms the desk tops were refinished. Black shades were installed in one of the rooms to make possible the use of the movie projector presented to the elementary schools by the Parent-Teacher Association.

At the Jenkins School, the partition between the two small classrooms on the upper floor was removed, and a section of the room parted off to provide an office. Up to this time there has been no adequate place in the building where the principal could meet parents for conferences. All classroom walls and ceilings throughout the building were painted. A new combustion chamber was installed in one of the furnaces and the two outside basement doors were replaced with new ones. Black shades were installed in one of the rooms and a new steel cabinet was furnished for the office.

Included in the repairs and replacements at the High School were three storage batteries used with the clock and bell system, a new outside door for the girls' entrance at the rear of the building and seventeen woodworkers' benches and vises for the shop. These benches were made by the boys of the Practical Arts Classes, thus saving considerable expense to the school department. A new maple table was likewise made by the Practical Arts department for the Cafeteria. More of these tables will be made during 1942 to replace those that have been used for many years for lunchroom purposes. In addition, six black shades were installed in one of the Junior High School rooms, and forty-eight chairs were purchased for use in the Cafeteria. The top floor of the Household Arts building was insulated with rock wool to help cut fuel costs in the heating of this building.

The parking place adjacent to the tennis courts was repaired and resurfaced; curbs were placed around it and a section of the cement walk leading to the High School was rebuilt.

PRESENT DAY PROBLEMS

Several of the more serious problems confronting school administrators today have to do with the difficulty of securing materials for school house construction or enlargement, the increasing problem of keeping teaching staffs intact, and the scarcity and higher costs of most supplies and materials for operating schools and maintaining school plants.

Towns with rapidly-growing populations are particularly affected by lack of building materials and by higher construction costs. The position of Scituate in this respect has been discussed earlier in this report.

For some years past the supply of teachers in most branches of school work has been greater than the demand. That situation is rapidly changing, however. On account of the draft and because of greater opportunities in other fields, many teachers have already left the service. The yearly turnover is likely to be considerably larger, and teachers of high educational qualifications and successful experience are likely to move on to communities that offer greater advantages and that have higher salary schedules.

SCHOOL COMMITTEE REPORT

The third problem is a part of the general inflationary tendency brought about by the unusual demand for products that are limited in quantity. It can be partly solved by practicing greater economy in the use of all supplies, particularly those used by pupils in their regular school activities. There has been a decided increase in the cost of all paper products, so that the care of textbooks and library books, the use of school papers and other scholars' supplies and the use of paper towels is being carefully supervised by teachers.

DEFENSE MEASURES

The question of providing the best possible protection to the pupils of the Scituate schools in the event of enemy air raids has been a matter of the utmost concern to the school authorities since war began. Acting upon the most reliable information available, the Committee has adopted measures that seem most likely to secure this result. It is entirely obvious that ideas of different individuals will vary as to the proper steps to take, and it is possible that further information from time to time may cause some revision of measures being taken.

It is the opinion of all local school officials that pupils should be evacuated from school buildings if there is time to get them safely to their homes by the regular bus trips. That means that there must be not less than one hour from the time the alarm is sounded until raiders are expected to appear. The bus conveyors have been asked to be on call at any time during the school day.

The procedure adopted is as follows: In case of an air raid alarm the air warden notifies the High School, giving available particulars. The Principal or officer in charge decides whether or not evacuation is feasible, and reports to the Principals of the Hatherly and Jenkins schools. If evacuation has been decided upon, each school notifies certain designated bus drivers. If the time is insufficient for this, the air raid alarms are sounded in each school, and the pupils are sent to the prepared air raid shelters under the supervision of the teachers.

In the Hatherly and Jenkins schools the air raid shelters are the basements of the buildings. Sandbags have been placed outside of each window, making adequate protection against flying shell fragments. Methods are being taken to prevent the glass from shattering and flying into the shelters. More electric lights have been added, and several battery-type lanterns have been provided for each school in case the electric current is cut off.

At the High School the air-raid shelter is in the basement and consists mainly of the Cafeteria room and the long corridor leading from it through the middle section of the building and into the east wing. In this part of the basement the windows are smaller or fewer in number. As this report is being written, plans are under way to protect the Cafeteria windows by arcways that will allow some light and air for this room. Methods of blacking out the building are also being considered.

In connection with the measures adopted for air raid protection, all teachers who have not already taken courses in first aid, are now taking the regular Red Cross first-aid course. Miss Bessie M. Monahan of our own staff is the instructor.

Your attention is called to the several reports of school officers and teachers, together with the various statistical tables and the Financial Statement for 1941.

Respectfully submitted,

HAROLD C. WINGATE,

Superintendent of Schools.

SCHOOL COMMITTEE REPORT

REPORT OF THE HIGH SCHOOL PRINCIPAL

Mr. Harold C. Wingate
Superintendent of Schools
Scituate, Massachusetts

Dear Sir:

I submit herewith my seventh annual report as principal of the Scituate High School.

At the time of writing, our school numbers 381 students. Several now must sit in armchairs in home rooms and in some subject classes because of the crowded conditions throughout the building. It is hoped that additional classrooms, shop space, and laboratory room may be added soon.

With the recent declaration of war some of the older boys of the school have shown a desire to enlist in some branch of the service, but, as a group, were discouraged by the principal who thought that they could be more value to their country with at least a high school diploma. In fact our government needs young men of more than a high school education for responsible positions in the army and navy. I am glad to say that recent graduates of the Scituate High School are enrolled in the following colleges: Boston College, Boston University, Brown, University of California, Duke, Fitchburg Teachers College, Harvard, University of Los Angeles, Lowell Textile Institute, Mary Washington College, Massachusetts State College, Massachusetts School of Art, University of New Hampshire, Northeastern, Simmons, and the United States Naval Academy—a fine showing for a school of our size.

Troubled times are a great incentive to Junior Red Cross activities. In the 1941 membership drive about 90% of the School enrolled and a large proportion of these members shared in the projects completed during the year. The girls of the Household Arts Department made dresses, petticoats, night clothing, babies bibs, and toys made of face cloths. They also made candy in their cooking classes for the Red Cross sale at the school play. The boys of the Practical Arts Department made 27 wooden toys, 10 combination trays and reading tables for sick war veterans, and repaired dolls for the Christmas baskets. The Art Department completed 200 menu covers, painted toys and dolls made or restored in the Practical Arts Shop, while pupils thru their rooms filled 25 individual Red Cross gift boxes. All of these articles were sent to hospitals for children, veterans' hospitals or similar institutions. Much credit should be given to Miss Anne Cunneen for her untiring effort in organizing these Junior Red Cross projects and to the teachers in the departments doing hand work. Teachers and pupils alike have been given much satisfaction from letters of commendation received.

The course in Character Guidance given during home room periods in grade 9, started in 1940, has been continued this year. Many favorable comments have been heard from parents and pupils as a result of these discussions of school problems.

Our physical education program, the most extensive of any South Shore high school, is giving supervised exercise to a large proportion of the boys and girls of our school. Friends of the school gave complimentary banquets to the football and hockey teams after successful seasons in competitive play.

SCHOOL COMMITTEE REPORT

The fall sports schedule was made more enjoyable by the fine work of our newly organized band of twenty-five uniformed musicians. This organization also furnished music at the football banquet and at patriotic assemblies in school. The high school orchestra, which numbers about forty pieces this year, has also shown that the school is very music-minded. The fine work of this department of the school has been recognized by the State Department of Education and some experimental work has been requested of the school by the State Supervisor of Music.

After our conferences on Air Raid Precautions, rules were put into effect in the High School to safeguard the children in case of an air raid, and drills will be practiced with this end in mind.

I wish again to thank you and the members of the school committee for the helpful suggestions given to me during the year.

Respectfully submitted,

FREDERICK A. CALKIN.

Principal.

THE CHANGING ENGLISH CURRICULUM

Bessie M. Dudley

Teacher of English, High School

In changing times such as these increasing attention is given to curriculum revision, especially in the non-vocational subjects. So today teachers of English are analyzing the content of their courses to determine what subject matter should be discarded, what retained.

The procedures in English courses are designed to promote three main values: the practical, the cultural, and the inspirational. The practical values need no justification. Most people would agree that everyone should know how to read his own language intelligently and appreciatively, to write it clearly and accurately, and to speak it correctly and effectively. This phase of English is surely vocational, and it provides the basic requirements of the subject. Undoubtedly, however, to vitalize our courses, some modern techniques can be applied, such as integration and correlation with other subjects, the use of the English class room as a workshop for various projects, increasing attention to magazines, newspapers, and radio, and other devices.

During recent years the literature studied by juniors and seniors has been a survey of American and English literature, presenting the chronological development of various types with representative reading from outstanding writers of each period, including many moderns.

It would seem, at first consideration, that in such a study the values are largely cultural. Perhaps we should omit or place less emphasis on this phase of the course,—at least in divisions of pupils who are not preparing for college. We have already eliminated the intensive study of each selection which used to be the practice. It is true, however, that reading enduring books is not only cultural, but is also practical in that it provides acquaintance with other times, other ways of life that can be known from one's own experience. Then too the classics present a challenge to one's reading ability; to get an idea when it is figuratively expressed or bigger than can be caught at a cursory glance is good training in reading.

SCHOOL COMMITTEE REPORT

Also the literature that has stood the test of time has an inspirational value. Here and there in great books is to be found expression of the attitude toward life of great men of all times. Familiarity with their ideas helps one to develop a philosophy of life that might be a source of strength in meeting the future. If so, this by-product of reading, although somewhat intangible, might be the most practical of all values.

These are days of change, and doubtless we shall be changing the content of our courses, placing the emphasis on the practical objectives. Most educators agree, however, that the change should not be a sweeping one, but should be rather an adaptation of the existing course to present day requirements.

THE SCIENCE OF HOME ECONOMICS

Mary S. Kingsbury
Teacher of Household Arts

The science of Home Economics is working toward an orientation of the individual into the life of which he is a part; a reconstruction of values as new conditions call for them; the growth of individuality through the stimulation and development of special interests and talents; the understanding and sharing of common purposes of related groups; and the working out of an integrated philosophy of personal, home and family life. It draws its subject matter from science, art, psychology, ethics, and sociology.

With these aims in mind the household arts girls are learning how to buy food and prepare it attractively and without loss of food value; to plan meals at a minimum price, for large and small families, for children, and for the sick; to make attractive clothing from materials that will give service; to remake dresses, coats and hats; to care for their clothing so that it will give them the longest wear possible; to care for children; to understand and enjoy them; and to set up standards of happy family life.

In these days of increased worry and activity we need our greatest strength. The home economics teacher must feel that directly or indirectly she is doing her part in feeding the world to make stronger and steadier people.

Vitamins are no longer a fad and diets are no longer for weight reduction only. We must learn to eat to have maximum health and steady nerves to face whatever the future holds for use.

This year we have carried on an interesting experiment with rats and have proved that minerals and vitamins contained in milk and raw fruit and vegetables are essential to the health and growth of these experimental animals. When the rats did not receive all the minerals and vitamins necessary to an adequate diet they did not gain in weight and became sick.

The following chart shows the results of the entire experiment:

Rat A—Correct Diet.					
Rat B—Correct diet for 6 weeks—then received no milk.					
Rat C—Fed on starches and sugar for 6 weeks—then changed to correct diet.

SCHOOL COMMITTEE REPORT

GEOGRAPHY TODAY

Dorothy L. Maxim

Teacher of Geography, Junior High School

For the past several years, teachers of geography have been confronted with a new and controversial problem. How should geography be taught when boundaries change by the month, when countless countries are invaded, new territories annexed by conquering nations?

It first must be remembered that boundaries and capitals do not constitute a very large part of real geography. The solution for the present, it would seem, lies in the continuation of our studies of foreign countries as it has been taught in recent years. The knowledge of things as they have been is absolutely essential to an understanding of what is taking place at the present and of what might occur in the future. How else can Norway, France and other conquered nations be taught unless the material is presented as it was in 1938 and the years immediately preceding? By so doing, we can give our pupils a knowledge of the potentialities of those regions, the character of the native inhabitants, how they developed their resources when left free to do so and the part which each nation normally played in the world's work and affairs.

Obviously though, our textbooks must be supplemented by and kept up to date with information gathered from the radio, newspapers and magazines. A new service has recently been inaugurated whereby each week we receive a large, colorful map of the world containing a picturization of up to the minute changes together with reliable data concerning them. Much interest has been shown and only as pupils gain an understanding of such situations are they really trained to think for themselves and in later years to interpret a world quite different from the one of which they learned in school.

Today's children not only study geography—they live it!

MUSIC IN THE HIGH SCHOOL

John T. Samuelson

Teacher of Music, High School

Most educators now agree that the fundamental aim of music in the public schools is the development of an appreciation of the standard forms of music through participation in vocal and instrumental organizations. It is not the aim or duty of the music department to produce a group of professional musicians at the end of each year. The modern public school program is not designed to produce "subject-matter specialists" in any particular field.

Music as a curricula subject is now recognized by most school systems as a necessary part of the program of studies because of the number and variety of skills, concepts, and attitudes which it develops.

For example, the educational values of music to a pupil who is active in instrumental work may be summarized as follows: correct posture and breathing which are essential to general health are directly cultivated through singing and playing; the performance of music obviously involves a high degree of mental and physical control and coordination and thus develops a command of the fundamental processes; group musical performance demands the merging of individual effort and cooperation with that of other pupils; the study of music provides a worthy use of leisure time both in performance and in intelligent listening; it develops poise, standards of conduct, and ideals of citizenship through participation in patriotic, civic, social, and school functions in which music always plays an important part; an integrated program of music provides an approach to other fields of study through coordination with English, social studies, modern languages, mathematics, science, art and physical education; music has a few vocational advantages as a profession, business, or industry.

SCHOOL COMMITTEE REPORT

The program of the past year has resulted in the production of a forty-three piece orchestra, a thirty-piece concert and parade band, a hundred-voice senior high school chorus, and a sixty-voice junior high glee club. The members of these groups represent over one-half of the entire school enrollment.

The music classes in the senior high school are on an elective basis and pupils are required to elect two periods per week in order to receive credit. The seventh and eighth grades have one required period a week. Orchestra and band periods range from two to five a week, with only one period in school time. Instrumental classes are held Saturday mornings for beginning and advanced pupils in grades V to XII.

REPORT FROM THE HATHERLY SCHOOL

Robert L. Stevenson
Principal

Registration day enrollments at the Hatherly School again showed an increase over the previous year's record. As defense work necessitated the relocation of families considerable fluctuation in school enrollment continued until late December.

The serving of hot chocolate milk for luncheon was resumed in November and has continued to gain increasing favor among children of all grades.

Due to the prevalence of mumps, particularly in the lower grades, previously planned Christmas programs had to be limited this year.

Frequent use of the new motion picture machine equipment as a vital teaching aid has been received with great interest by pupils and teachers alike. The radio has also been used on several selected occasions in the upper grades and has met with very favorable response.

As a result of the Kiwanis Club's generous action in presenting each pupil with a defense stamp and book for Christmas keen interest has been aroused throughout the entire building in the part that each pupil might play in our national effort.

The response to the call for membership in the Junior Red Cross Chapter and in the Christmas Seal drive has again met with worthy success.

REPORT FROM THE JENKINS SCHOOL

LeRoy E. Fuller
Principal

School opened in September with an increase in enrollment due partly to the defense program—parents being employed in nearby Government Projects—and to the fact that several families who have made Scituate their summer residence have now taken up their year-round residence in town. Distribution of the enrollment by grades may be found elsewhere.

It has been possible, through funds provided by the Department as well as from our small school fund, to add many books to our classroom libraries. Although we do not have a central school library, we do have a list of all library books in the classrooms on file in the office. This makes it possible for each teacher to know what books are available for children's reference and for additional reading.

The moving picture machine which was presented by the Scituate Parent-Teacher Association to the School Department for use in the elementary schools has already found favor with the pupils of Jenkins School. A definite program of teaching films, as well as films for entertainment, has been prepared. The

SCHOOL COMMITTEE REPORT

stereoptican, the moving picture machine, and the radio have been accepted by school authorities throughout the country as very desirable and worthwhile aids to teaching. Through the eye or the ear, the world can be brought into the classroom, thus affording both teacher and pupil a much wider phase of activity in the fields of history, geography, health, music, and drama.

Probably there are some people who are not aware of the preparation that has been made for the care of the boys and girls in case of an air raid during school hours. If sufficient warning is given, pupils will be dismissed at once to go to their homes. On the other hand, if there is not time for this, the boys and girls will be taken care of in the basements of the building. Sections of the basements have been assigned to each class; windows have been sandbagged; boxes or pails of sand have been placed on each floor; shovels, ax, and hose are available for immediate use. To date (Jan. 1) two air raid drills have been held.

Pupils have contributed generously to the Red Cross and to the Plymouth County Hospital; scrapbooks have been made for distribution to children in hospitals; papers and magazines are being collected by one class to be turned over to the Red Cross.

The boys and girls are doing their bit in still another way. Each pupil was presented with a Savings Stamp Book and one stamp at Christmas time by the local Kiwanis Club. A survey of the school shows that many children have added stamps to their books and many are now owners of United States Savings Bonds.

REPORT OF THE SCHOOL PHYSICIAN

To the School Committee of Scituate:

The passing of Dr. T. B. Alexander who served you faithfully for so many years is deeply regretted by all those who knew him as a competent, kindly, and conscientious physician. In no small measure he was responsible for the good health of the pupils of the Scituate Schools, which as found by physical examination this past fall was generally quite satisfactory. It was noted that in many instances the children of parents who had recently moved into Scituate were less sturdy than those who had lived here longer.

There has been an extensive epidemic of mumps in the lower grades the past several weeks. While mumps in a child is not a serious disease, and is rarely accompanied by complications, it is well to remind parents that whenever a child appears ill he should be kept home and preferably in bed, not only to shorten his illness but to lessen the likelihood of an epidemic starting or spreading. In the long run this would save thousands of school hours.

Although there are certain minor health hazards at the elementary schools, which are difficult to correct until a new building is erected, the way the School plant is kept up should be commended highly.

I appreciate very much the cooperation of the School Nurse, the Athletic Directors, and the School Staff.

Respectfully submitted,

M. D. MILES, M. D.,
Acting School Physician.

SCHOOL COMMITTEE REPORT

REPORT OF THE SCHOOL NURSE

Mr. Harold C. Wingate
Superintendent of Schools
Scituate, Massachusetts

Dear Sir:

This report, the fourteenth annual summary of my work in the school health service, differs in several respects from accounts of previous years.

Of primary interest is the fact that in March of this year Alice M. Dowd was appointed to take over part of the work. Thus the strain placed on one nurse in a generalized community health program was conceivably lessened.

The need for the second nurse had been all too apparent for some time. There were times when it was very difficult to keep the entire program in balance. Fortunately the program was so flexible that whenever necessary adjustments were easily made. With the help of volunteers and the non-nurse assistant, the greater part of the planned program was achieved.

Alice Dowd was no stranger in the community, having substituted during the regular nurse's vacation and on many other occasions for about twelve years. The newly appointed nurse became responsible for general public health measures including work for the Department of Public Welfare. I remained in charge of school and Board of Health Services. Clinic services in a few instances were carried on jointly by the nurses.

This new work arrangement afforded me freedom for devoting more time to care for school and pupil needs. Especially pleasing was the opportunity to expand the program in directions, which in the past had received only limited attention.

As a guide throughout the school health services the outline suggested by the National Organization for Public Health Nursing was carefully followed.

Some members of the community are already familiar with the functions of the school nurse, however I have listed a few here to give a better understanding of her duties:

To participate in formulating and developing a health education program based on the needs of the pupils.

To assist physician in the examination of pupils and the interpretation of findings to teachers, parents, and children.

To teach the value of adequate health supervision and facilities for medical and nursing care, and assist in securing corrections of defects.

To inspect pupils and instruct teachers, parents, and pupils to observe and recognize deviations from normal health.

To assist in the control of communicable diseases through teaching the recognition of early symptoms, the importance of isolation, and the value of immunization.

To promote the maintenance of a healthful school environment — physical, emotional, and social.

SCHOOL COMMITTEE REPORT

To arrange for the care of emergency and minor injuries and illnesses in accordance with medical standing orders.

To participate in a program for the prevention of handicaps and the care and education of handicapped children.

To develop relationships to co-ordinate school nursing activities with all other health forces of school, home, and community to promote community health resources.

During the year some of the outstanding activities for the promotion of health and prevention of disease consisted of:
Well child conferences held once a month.

Sponsored by the Board of Health.

Preschool Health Examination.

Sponsored by School Department.

Preschool Dental Clinic.

Sponsored by Board of Health and Scituate Nursing Service.

School Dental Clinic (Grades one to six).

Dental Examinations (High School).

Sponsored by the Board of Health.

Diphtheria Prevention Clinic (Parents not fully cooperating with this part of the program).

Sponsored by the Board of Health.

Clinic for the mentally retarded.

Sponsored by the School Department.

Follow up on contacts and suspected cases of tuberculosis.

Sponsored by Board of Health.

Tonsil Clinic.

Sponsored by Scituate Public Health and Nursing Service.

The Red Cross Motor Corp rendered valuable service to the community by providing transportation to the local and many out-of-town clinics. May I express my sincere thanks to these volunteer workers. Their services helped to leave the nurse's time free for specific nursing duties.

At this time I wish to mention that I, with all others engaged in school work, deeply regret the passing of Dr. T. B. Alexander, for many years our school physician and friend.

Rapidly changing world conditions will no doubt, affect future school programs and many difficult tasks may be ahead for us, it is with this thought in mind that I seek united effort on the part of all who are vitally concerned with the welfare of tomorrow's citizens.

Respectfully submitted,

MARGARET J. O'DONNELL, R.N.

SELECTMEN'S REPORT

REPORT OF THE BOARD OF SELECTMEN FOR 1942

To the Citizens of the Town:

During the past year your Selectmen advocated, practiced and urged strict economy in all Departments.

Reports of the several Town Departments herein recorded indicate results. No further eulogy of our stewardship is necessary.

SPEND TO WIN THE WAR. SAVE TO SAVE SCITUATE.

Respectfully submitted,

DENNIS H. SHEA,
W. IRVING LINCOLN,
WILLIAMS B. JAMES,
Selectmen of Scituate.

TOWN CLERK'S REPORT

REPORT OF THE TOWN CLERK

SPECIAL TOWN MEETING

January 5, 1942

At a legal meeting of the inhabitants of the Town of Scituate qualified to vote in Elections and Town Affairs held at the Scituate High School Auditorium in said Scituate on Monday, the fifth day of January, 1942, at 8 o'clock P.M.; the assembly was called to order by Moderator Dennis H. Shea.

The Warrant was read by Town Clerk William M. Wade.

Tellers appointed by the Moderator and sworn by the Town Clerk were: Ralph C. Ackerman, C. Harry Driscoll, George F. Dwyer and J. George Vollmer. Monitors sworn: Roy E. Litchfield and Robert Tilden.

It was unanimously voted to accept the following resolution:

Whereas: Upon this date we record the passing of one of Scituate's native sons, Charles M. Litchfield, who has served the Town in many capacities; and

Whereas: He will be long remembered for the faithful and conscientious services which he so willingly rendered as member and Chief of both the Fire and Police Departments of our Town;

Be it resolved: That we in Town Meeting assembled recognize his faithful and valuable service and extend to his bereaved family our sincere sympathy in our mutual loss; and

Be it further resolved: That this resolution become a part of the record of this meeting and a copy be sent to his wife and family.

ARTICLE 1

Will the Town vote to establish as the Town's Committee on Public Safety the Committee created by the Governor as the Scituate Committee on Public Safety, or act thereon.

VOTED: To indefinitely postpone.

ARTICLE 2

To see if the Town will raise and appropriate a sum of money for the Selectmen for defense purposes as set forth under Chapter 487 of the Acts of 1941, and otherwise authorized by law, to be expended

TOWN CLERK'S REPORT

with the approval of the Scituate Committee on Public Safety, or take any other action thereon.

On the motion of John F. McJennett it was voted to divide the question in three parts:

First—Scituate Committee on Public Safety.

Second—Fire Department.

Third—Police Department.

Section One—It was voted to raise and appropriate the sum of \$5,000.00 for the use of the Public Safety Committee, appointed by the Governor, for the carrying on of the work of civilian defense in the Town of Scituate. Yes, 144; No, 92.

Section Two—It was voted that a committee of three be appointed by the Moderator to act with the present Board of Fire Engineers, to make a further study of the needs of the Fire Department, and report at a meeting to be held here next Monday night at 8 P.M. Yes, 134; No, 78.

Committee appointed by Moderator Dennis H. Shea to meet with Fire Engineers: Mark W. Murrill, Daniel A. Killefer, George A. Grauer.

Section Three—It was voted that the Town raise and appropriate the sum of \$4,000.00 under Section 3 of Article 2 as per budget submitted by the Police Department to be spent in accordance with the provisions of said Article 2. Yes (voice vote).

It was voted to adjourn the meeting until 8 P.M. Monday, January 12, 1942.

Attest: WILLIAM M. WADE,
Town Clerk.

ADJOURNED TOWN MEETING

January 12, 1942

Section Two of Article 2—It was voted that we raise and appropriate the sum of \$12,435.05 for the Fire Department to be spent for the following items:

Maxim 500 gal. portable pumper	\$1,662.50
Two 100 gal. Forest Pumps	1,180.00
Signal System	2,500.00
1500-watt Generator set complete	417.10
3000-watt Generator	582.90

TOWN CLERK'S REPORT

2000 ft. 2½" hose	1,900.00
2000 ft. 1½" hose	1,260.00
4000 ft. 1" hose	1,280.00
Fittings, etc.	500.00
Auxiliary Equipment	767.55
Gas Masks	385.00
	\$12,435.05

Yes, 138; No, 78.

The meeting adjourned at 9:30 P.M.

Attest: WILLIAM M. WADE,
Town Clerk.

ANNUAL TOWN MEETING

March 2, 1942

At a legal meeting of the inhabitants of the Town of Scituate qualified to vote in Elections and Town Affairs held at the High School Auditorium in said Scituate on Monday, the second day of March, 1942, at 7 o'clock P.M., order was called by Moderator Dennis H. Shea.

The warrant was read by Town Clerk William M. Wade.

Tellers appointed by the Moderator and sworn by the Town Clerk were: J. George Vollmer, Joseph R. Dillon, James Finnie, C. Harry Driscoll, and Charles H. Schultz.

ARTICLE 1

To choose all the necessary Town Officers other than those elected by ballot, viz.: Surveyor of Lumber, Measurer of Wood and Bark, two or more Field Drivers, one Pound Keeper.

VOTED: Measurer of Wood and Bark and Surveyor of Lumber, Russell L. Fish.

Field Drivers, Ernest M. Damon, Paul Quinn.

Pound Keeper, Augustus L. Abbott.

ARTICLE 2

To hear the report of the Selectmen or other Town Officers and Standing Committees and act thereon.

TOWN CLERK'S REPORT

VOTED: That reports of Selectmen, other Town Officers and Standing Committees be accepted as printed in Town Report.
—Unanimous vote.

ARTICLE 3

Will the Town vote to establish salaries and compensation of all elected Town Officials, or act thereon.

To establish salaries and compensation of all elected Town Officials, as follows:

Selectmen: Chairman \$1,800.00 and legitimate expenses. Other members \$540.00 each and legitimate expenses.

Board of Public Welfare: Chairman \$400.00 and legitimate expenses. Other members \$150.00 each and legitimate expenses. This sum shall include their charges for all services performed by them or either of them.

Assessors: Chairman \$1,800.00 and legitimate expenses. Other members \$450.00 each and legitimate expenses.

Highway Surveyor: \$2,200.00, he to furnish his own conveyance while in the performance of his duties and receive \$400.00 to cover expense of same.

Town Collector: \$2,000.00 and legitimate expenses. All demand fees to accrue to the Town.

Town Treasurer: \$1,800.00 and legitimate expenses.

Tree Warden: \$300.00.

Town Clerk: \$1,200.00 and legitimate expenses.

Board of Health: \$1,200.00 divided as follows: Secretary \$500.00 and legitimate expenses. Other two members \$350.00 each and legitimate expenses. This sum shall include their charges for all services performed by them or either of them, other than the inspection of plumbing, meat and cattle.

Park Commissioners: Each member to be paid the same amount per hour for work actually performed as is paid laborers in the Highway Department.

Water Commissioners: \$180.00 each and legitimate expenses to be taken from the Water Department Budget.

Moderator: The Moderator to receive \$50.00 for the Annual Town Meeting and \$20.00 for each special meeting thereafter, not to exceed \$50.00; total amount not to exceed \$100.00.

ARTICLE 4

To raise and appropriate such sums of money as may be necessary to defray the expense estimated for the year 1942 and make appropriations for the following departments:

VOTED: Yes—\$85.00.

ARTICLE 28

To see if the Town will authorize the Selectmen to sell at Public Auction to the highest responsible bidder, the land owned by the Town lying easterly of Hollett Street and southwesterly of land now or formerly of Joseph and Gentilina Bonomi, containing approximately 6,750 square feet, or act thereon. —Selectmen.

VOTED: That the Town authorize the Selectmen to sell at Public Auction to the highest responsible bidder, the land owned by the Town lying easterly of Hollett Street and southwesterly of land now or formerly of Joseph and Gentilina Bonomi containing approximately 6,750 square feet.

—Unanimous vote.

ARTICLE 29

To see if the Town will accept the layout of the Selectmen of a widening of Country Way southerly from the crossing of the N. Y., N. H. & H. RR. Co. at North Scituate as laid out on a plan on file in the Town Clerk's Office and raise and appropriate the sum of \$180.00 to cover the cost of land damage, or act thereon. —Selectmen.

VOTED: To accept and raise and appropriate \$180.00.

—Unanimous vote.

ARTICLE 30

Will the Town accept the layout of the Selectmen widening Jericho Road on its easterly side and lying easterly and southerly from the intersection of Jericho Road and Hatherly Road as laid out on plan on file with the Town Clerk and raise and appropriate the sum of ninety-three dollars and fifty cents (\$93.50) to cover costs of land damage, or act thereon. —Selectmen.

VOTED: To accept and raise and appropriate \$93.50.

ARTICLE 31

To see if the Town will accept the layout of the Selectmen as on file with the Town Clerk making certain changes in the layout accepted last March of First Parish Road from land of Marie M. Otis to a point on the southerly side of said road on land of Ella G. Waterman and raise and appropriate the sum of one hundred eighty dollars (\$180.00) to cover costs of land damages, or act thereon. —Selectmen.

VOTED: To accept and raise and appropriate \$180.00.

TOWN CLERK'S REPORT

ARTICLE 32

Will the Town instruct its Board of Fire Engineers under Article 2, Section 2, Item 1, of the Special Town Meeting of January 12, 1942, not to be limited to the purchase of a Maxim Trailer Pump, but to authorize them to purchase a Maxim Trailer Pump, or any approved equal, or act thereon.
—Fire Engineers.

VOTED: To indefinitely postpone.

ARTICLE 33

Will the Town authorize the Board of Fire Engineers, acting with the approval of the Public Safety Committee, to expend for defense purposes any balance of the appropriation which was raised under Article 2, Section 2, at the Special Town Meeting, January 12, 1942, and which is available after the purchase of the items specified in said vote, or act thereon.
—Fire Engineers.

VOTED: To authorize Board of Fire Engineers as written in article.

ARTICLE 34

To see if the Town will raise and appropriate the sum of \$2,500.00 to be used in conjunction with such sums as the Commonwealth of Massachusetts and the County of Plymouth may allocate for the completion of the improvement of First Parish Road from the point covered by present contract easterly to Country Way, or act thereon.
—Selectmen.

VOTED: To raise and appropriate \$2,500.00.

ARTICLE 35

Will the Town accept the following amendment to its Zoning By-Laws: Upon well founded evidence that any person or persons are violating the terms of the Zoning By-Laws of the Town the Selectmen shall take immediate steps to enforce the provisions of these by-laws by applying for an injunction in the Superior Court or take other appropriate steps to enforce compliance.
—Planning Board.

VOTED: Yes, 178; No, 25. No report being made by the Planning Board at the Town Meeting as required by law, the by-law failed to be approved by the Attorney-General.

ARTICLE 36

Will the Town raise and appropriate the sum of one hundred dollars (\$100.00) to provide additional lights at Humarock, or act thereon.
—Humarock Beach Improvement Association.

VOTED: To indefinitely postpone.

TOWN CLERK'S REPORT

ARTICLE 37

To see if the Town will raise and appropriate the sum of \$1,000.00 to provide curbing on Central Avenue at Humarock for a distance of 900 feet northerly from the northerly terminus of the existing sidewalk. This work to be done in conjunction with a Federal Project authorized for the rebuilding of Central Avenue, or act thereon.

—Humarock Beach Improvement Association.

VOTED: To indefinitely postpone.

ARTICLE 38

Will the Town raise and appropriate the sum of \$500.00 for the maintenance and improvement of the Town Forests, or act thereon.

—Town Forest Committee.

VOTED: Yes—\$500.00.

ARTICLE 39

What name will the Town give to the road laid out and constructed in 1940 leading westerly from Ann Vinal Road. —Selectmen.

VOTED: To name Pleasant Street.

ARTICLE 40

What name will the Town give to the new road laid out and constructed in 1940 running northerly from Union Street to land of John S. Fitts. —Selectmen.

VOTED: To choose a committee consisting of three members of Historical Society—Nathaniel Tilden, Mrs. Emma Farmer, and Charles H. Tilden to report at next Town Meeting.

ARTICLE 41

To see if the Town will vote to appoint a committee of five for the purpose of investigating as to the advisability of adopting a Town Manager form of government. Said committee shall consist of the following: Arnold Lawson, Russell L. Fish, Mark W. Murrill, Frank L. Westerhoff and Thomas H. Stearns. Said committee to report at a future Town Meeting. —Arnold Lawson et al.

VOTED: To indefinitely postpone. Yes, 161; No, 138.

ARTICLE 42

To see if the Town will raise and appropriate a sum of money for the purpose of constructing a sidewalk on the westerly side of Country Way from its junction with Captain Pierce Road to a point opposite the Hatherly School, or act thereon.—John F. Dalby et al.

VOTED: Yes—\$1,000.00.

TOWN CLERK'S REPORT

ARTICLE 43

To see if the Town will vote, as an expression of opinion, that public convenience and necessity require a means of transportation upon certain public ways within the confines of the Town of Scituate for the carriage of passengers for hire between the North Scituate Railroad Station, so-called, and Scituate Harbor and intermediate points comprising North Scituate Beach, Shore Acres, Hatherly Beach and the Sandhills, and that the Selectmen be instructed to issue such license or licenses under the provisions of General Laws, Chapter 159A, and amendments thereto, for the carriage of passengers for hire upon such highways within the Town of Scituate that public convenience and necessity require as a means of transportation to and from the aforesaid points.

—John J. Heffernan et al.

VOTED: That as public convenience and necessity require a means of transportation upon certain public ways within the confines of the Town for the carriage of passengers for hire, particularly to provide transportation to and from the various so-called summer residential sections of the Town and the railroad stations and the Harbor, so-called, the Selectmen should issue such license or licenses under the provision of General Laws, Chapter 159A, and amendments thereto, for the carriage of passengers for hire upon such highways within the Town of Scituate that public convenience and necessity shall require as a means of transportation.

—Unanimous vote.

ARTICLE 44

Will the Town Meeting present to the proper railroad officials resolutions asking for due consideration of the passenger traffic needs of people in this section, especially defense workers at Hanover, Hingham, Quincy and Boston, or act thereon.

—Town Counsel.

VOTED: To accept the following resolution—Resolved: That the Town Meeting convey the sentiments of the Meeting that the Town needs more and better train service and that the railroad officials be asked to acquaint the public with the services they do and will render the South Shore section.

—Unanimous vote.

ARTICLE 45

To see if the Town will raise and appropriate the sum of \$300.00 for the purpose of painting the Town Pier, or act thereon.—Selectmen.

VOTED: Yes—\$300.00.

ARTICLE 46

Will the Town raise and appropriate the sum of six hundred dollars (\$600.00) to purchase and install a siren on Ray's Garage, Clapp Road, or act thereon.

—Franklin T. Sharp et al.

TOWN CLERK'S REPORT

VOTED: That the sum of \$600.00 be appropriated to purchase and install a type D Diaphone Horn on Ray's Garage, North Scituate, on Clapp Road, installation to be supervised by the Fire Alarm Superintendent, amount to be taken from the Overlay Surplus Account.

ARTICLE 47

Will the Town vote to enlarge the School Committee from three to five members as authorized under Chapter 41, Section 1, General Laws, and in compliance with Chapter 41, Section 2, General Laws.

—Kenneth Mansfield et al.

VOTED: To indefinitely postpone. Yes, 178; No, 57.

ARTICLE 48

Will the Town raise and appropriate the sum of \$450.00 for the establishment and maintenance of a free bed for Scituate residents in the Weymouth Hospital during the year 1942, under the provisions of Chapter 111, Section 74, General Laws, or act thereon.—Selectmen.

VOTED: To raise and appropriate \$450.00 per subject matter of article.

ARTICLE 49

To see what action the Town will take in the matter of a trust fund authorized under the will of the late Emeline A. Jacobs of Hanover to the Town of Scituate as Trustees for the administration of a fund of \$100.00 for the care of the Caroline Jordan lot located in the Cudworth Cemetery.

—Selectmen.

VOTED: To indefinitely postpone.

ARTICLE 50

Will the Town raise and appropriate the sum of three hundred dollars (\$300.00) to compensate Mr. William Driscoll for personal injuries suffered by him by accident on sidewalk, Front Street, Scituate.

—Thomas J. Flynn et al.

VOTED: To indefinitely postpone.

ARTICLE 51

To see if the Town will pay to Julia M. Barber fifty dollars (\$50.00) for board and care of a public charge from October 31 to December 23, 1940.

—Julia M. Barber.

VOTED: To indefinitely postpone.

ARTICLE 52

To see what sum of money the Town will raise and appropriate to reimburse Thomas T. Doggett for land taken for the widening of Gilson Road and Kent Street.

—Charles P. Curran et al.

VOTED: To indefinitely postpone. Yes, 134; No, 132.

The meeting adjourned at 11:30 o'clock P.M.

Attest: WILLIAM M. WADE,
Town Clerk.

TOWN CLERK'S REPORT

WARRANT FOR SPECIAL TOWN MEETING

Commonwealth of Massachusetts

Plymouth, ss.

To either of the Constables of the Town of Scituate in the County of Plymouth, Greeting:

In the name of the Commonwealth of Massachusetts, you are hereby directed to notify and warn the inhabitants of said Town, qualified to vote in elections and in Town Affairs, to meet at the Scituate High School Auditorium in said Scituate on Saturday, the thirteenth day of June next, at three o'clock in the afternoon, then and there to act on the following articles:—

ARTICLE 1

Will the Town raise and appropriate or transfer from any available funds, the sum of three thousand dollars (\$3,000.00) to be used in conjunction with any monies appropriated by the Town of Marshfield and by the County of Plymouth or either of them to be used to defray the difference in cost of constructing a permanent bridge in place of a temporary bridge to be built by the Federal Government and the Department of Public Works across South River between Julian Street in the Town of Scituate as laid out by the County Commissioners under decree No. 1015, and Bayberry Road in the Town of Marshfield as laid out by the County Commissioners under decree No. 1014, and to authorize the Selectmen to agree in writing to pay the money thus appropriated upon the order of the Department of Public Works, in accordance with Section 30 of Chapter 81 of the General Laws, or act thereon.

ARTICLE 2

Will the Town raise and appropriate or transfer from any available funds the sum of three hundred dollars (\$300.00) for the payment of damages caused by the taking of land on Julian Street at Humarock by petition to the County Commissioners, No. 1015, or act thereon.

ARTICLE 3

To seek the opinion of the voters relative to the establishing of precinct voting for the duration of the emergency.

ARTICLE 4

Will the Town vote to raise and appropriate or transfer from available funds a sum of money not to exceed three hundred dollars (\$300.00) to provide adequate transportation, by bus or otherwise, between Humarock and the Greenbush railroad station; and thereby

TOWN CLERK'S REPORT

avoid a reduction or discontinuance of such service, and authorize the Selectmen to enter into agreements for said purpose, or take any other action relative thereto.

ARTICLE 5

To see if the voters will instruct the Selectmen to request His Excellency the Governor to add another hour of daylight saving.

ARTICLE 6

To hear the new waterfront regulations pertaining to boats, etc.

And you are directed to serve this warrant, by posting up attested copies thereof at each of the Post Offices in the Town and at the Town Hall in said Town, seven days at least before the time of holding said meeting.

Hereof fail not, and make due return of this Warrant with your doings thereon, to the Town Clerk, at the time and place of meeting, as aforesaid.

Given under our hands this fourth day of June in the year of our Lord one thousand nine hundred and forty-two.

DENNIS H. SHEA

W. IRVING LINCOLN

WILLIAMS B. JAMES

Selectmen of Scituate.

A true copy. Attest:

ERNEST M. DAMON, Constable.

Scituate, Mass.,

June 13, 1942.

Plymouth, ss.

By virtue of the within named warrant I have hereby notified and warned the inhabitants of the Town of Scituate qualified to vote in Elections and Town Affairs, to meet at the time and place and for the purpose herein stated, by posting up attested copies thereof, one in each of the Post Offices in said Town and one at the Town Hall, said posting being at least seven days before time of meeting.

ERNEST M. DAMON,

Constable of Scituate.

Attest: WILLIAM M. WADE, Town Clerk.

TOWN CLERK'S REPORT

SPECIAL TOWN MEETING

June 13, 1942

A quorum was lacking and Moderator Nathaniel Tilden at 3:15 o'clock P.M. adjourned the meeting to 7 o'clock P.M. on Thursday, June 18, 1942.

Attest: WILLIAM M. WADE, Town Clerk.

ADJOURNED TOWN MEETING

June 18, 1942

At 7:25 o'clock P.M. Moderator Nathaniel Tilden announced that having been advised a quorum was lacking, declared the meeting dissolved.

Attest: WILLIAM M. WADE, Town Clerk.

Commonwealth of Massachusetts WARRANT FOR STATE ELECTION

Plymouth, ss.

To either of the Constables of the Town of Scituate in the County of Plymouth, and the Commonwealth of Massachusetts.

Greeting:

In the name of the Commonwealth of Massachusetts you are hereby directed to notify and warn the inhabitants of the Town of Scituate, qualified to vote in Elections to meet at the High School Auditorium, Scituate, on Tuesday, the 3rd day of November, 1942, at six o'clock in the forenoon.

To give their votes for:

Governor, Lieutenant Governor, Secretary, Treasurer, Auditor, Attorney General, Senator in Congress, Congressman ninth District, Councillor second District, Senator Norfolk and Plymouth District,

TOWN CLERK'S REPORT

Representative in General Court Second Plymouth District, District Attorney Southeastern District, County Commissioner for Plymouth County, Register of Probate and Insolvency for Plymouth County, County Treasurer for Plymouth County.

Also to vote "Yes" or "No" on the following:

Question No. 1

Law Proposed by Initiative Petition

Shall the proposed measure which provides that the present statutes which make it a crime punishable by fine or imprisonment knowingly to advertise, print, publish, distribute or circulate any matter containing reference to any person from whom or place where any drug, instrument or means whatever, or any advice or information may be obtained, for the purpose of preventing pregnancy, or to sell, lend, give away, exhibit, offer or advertise any drug, medicine, instrument or other article for the prevention of conception, or to write or print information of any kind stating when, where, how, of whom, or by what means such article can be obtained, or to manufacture or make such article, shall not apply to treatment or prescription given to married persons for protection of life or health by or under the direction of registered physicians nor to teaching in chartered medical schools nor to publication or sale of medical treatises or journals, which was disapproved in the House of Representatives by a vote of 77 in the affirmative and 133 in the negative and in the Senate by a vote of 16 in the affirmative and 18 in the negative, be approved?

1. Shall the pari-mutuel system of betting on licensed horse races be permitted in this county?

2. Shall the pari-mutuel system of betting on licensed dog races be permitted in this county?

Question of Public Policy

"Shall the Representative in the General Court from this district be instructed to vote to request the President and Congress to call at the earliest possible moment a convention of Representatives of all free peoples, to frame a Federal Constitution under which they may unite in a Democratic World Government?"

To obtain a full expression of opinion, voters should vote on all three of the following questions:—

(a) If a voter desires to permit the sale in this city (or town) of any and all alcoholic beverages to be drunk on and off the premises where sold, he will vote "Yes" on all three questions.

(b) If he desires to permit the sale herein of wines and malt beverages only to be drunk on and off the premises where sold, he will vote "No" on question one, "Yes" on question two and "No" on question three.

TOWN CLERK'S REPORT

(c) If he desires to permit the sale herein of all alcoholic beverages but only in packages, so called, not to be drunk on the premises where sold, he will vote "No" on questions one and two and "Yes" on question three.

(d) If he desires to permit the sale herein of wines and malt beverages to be drunk on and off the premises where sold and in addition other alcoholic beverages but only in packages, so called, not to be drunk on the premises where sold, he will vote "No" on question one and "Yes" on questions two and three.

(e) If he desires to prohibit the sale herein of any and all alcoholic beverages whether to be drunk on or off the premises where sold, he will vote "No" on all three questions.

1. Shall licenses be granted in this city (or town) for the sale therein of all alcoholic beverages (whisky, rum, gin, malt beverages, wines and all other alcoholic beverages) ?

2. Shall licenses be granted in this city (or town) for the sale therein of wines and malt beverages (wines and beer, ale and all other malt beverages) ?

3. Shall licenses be granted in this city (or town) for the sale therein of all alcoholic beverages in packages, so called, not to be drunk on the premises?

All the above to be voted for on one ballot in the manner prescribed by law.

The polls will be open from 6 a. m. to 8 p. m.

And you are directed to serve this warrant in the manner prescribed by vote of the town, seven days at least before the time of holding said meeting.

Hereof fail not, and make due return of this warrant with your doings thereon to the Town Clerk at the time and place of meeting as aforesaid.

Given under our hands this twenty-second day of October, A.D. 1942.

DENNIS H. SHEA,
WILLIAMS B. JAMES,
W. IRVING LINCOLN,

Selectmen of Scituate.

Plymouth, ss. October 24, 1942, Pursuant to the foregoing warrant, the inhabitants of the Town of Scituate, qualified to vote in elections are hereby notified to meet at the time and place and for the purpose therein notified.

CHARLES B. JENSEN,
Constable of Scituate.

TOWN CLERK'S REPORT

Scituate, November 3, 1942.

Plymouth, ss.

By virtue of the within named warrant I have hereby notified and warned the inhabitants of the Town of Scituate, qualified to vote in Elections and Town Affairs, to meet at the time and place and for the purpose herein stated, by posting up attested copies, thereof, one in each of the Post Offices in said Town and one at the Town Hall, said posting being seven days at least before time of said meeting.

CHARLES B. JENSEN,
Constable of Scituate.

TOWN CLERK'S REPORT

Parents, be sure to record the birth of your child with given name in full.

READ THE LAW!

"Parents, within forty days after the birth of a child, and every householder, within forty days after a birth in his house, shall cause notice thereof to be given to the clerk of the town where such a child is born." General Laws, Chapter 46, Section 6.

SOME OF THE REASONS WHY BIRTHS SHOULD BE RECORDED

To establish identity.

To prove nationality.

To prove legitimacy.

To show when the child has a right to enter school.

To show when the child has the right to seek employment under the child labor laws.

To establish the right of inheritance of property.

To establish liability to military duty, as well as exemption therefrom.

To establish the right to vote.

To qualify to hold title to, and to buy and sell real estate.

To prove the age at which the marriage contract may be entered into.

To establish the right to public office.

To make possible statistical studies of the health conditions.

Your co-operation to the end that all births may be properly recorded will be greatly appreciated.

Blanks for returns of births will be furnished upon application to parents, householders, physicians, and registered medical offices as provided in Chapter 46, Section 15, General Laws.

Attest: WILLIAM M. WADE,
Town Clerk.

Town Clerk.

PARK COMMISSIONERS' REPORT

REPORT OF PARK COMMISSIONERS

Citizens of Scituate:

The past year was an excellent one for grass and shrubbery. There was rainfall enough to keep the grass on most of the parks green all summer. This necessitated mowing oftener than usual.

The Park Commissioners cared for the Peggotty Beach themselves this year at what we believe was a saving to the taxpayers. In this respect we were fortunate in having only two storms that covered the beach with kelp.

After trying for two years to get a stand of grass on the small triangle at Greenbush we finally succeeded this year and we believe the two plots at that section looked the best they ever have and perhaps made the best looking park in town.

Lawson Park is in the poorest condition of any of our parks. We took up about one-half acre and reseeded it this year. We recommend that a portion of this park be reseeded each year until it is completely reseeded.

Respectfully yours,

CHARLES E. MITCHELL,
Chairman.

REPORT OF FIRE DEPARTMENT

To the Honorable Board of Selectmen:

The report of the Scituate Fire Department for the year 1942 is herewith submitted for your approval.

This board assumed office May 1, 1942 and found the department as a whole to be operating smoothly. Very few changes in policy or operation have been effected, and those of a minor nature. It has been our aim to function as economically as possible without lowering the high efficiency of the department.

There have been few major fires during the past year. We wish to point out, however, that the number of calls for minor fires and other emergencies was exceptionally large. A summary of all calls will be found elsewhere in this report.

FIRE DEPARTMENT REPORT

Because of the present emergency, we had difficulty in maintaining our manpower at normal strength. Some eight of our call men, and one permanent man are now on leaves of absence with the armed forces. These men have been replaced by temporary appointments, but it is becoming increasingly difficult to find men eligible under Civil Service rules. Although our roster is complete at this writing, a great number of our call men are now working on defense projects out of town and are therefore unavailable during a large part of the day.

The community as a whole, and this department in particular, have sustained a great loss in the passing of Edgar F. Whittaker, for some twenty years a valued and faithful call fireman.

We have had many calls for the oxygen tent during the past year. This service has, we believe, been of great value to the people of the town. In the budget to be submitted to the voters at the annual town meeting, we have inserted a new item covering the purchase of oxygen for use with this equipment.

It has come to our attention that many people are storing additional supplies of fuel and range oil. Under the law, permits are necessary for all storage of oil. It is to the best interests of our citizens that they obtain these permits and we urge that they do so.

All equipment is in good repair. It should be noted, however, that our largest pumping unit is now twenty years old. While this unit is working fairly well at this time, it is our opinion that too much confidence should not be placed in a pumper of that age.

This board feels strongly that the present system of yearly appointments, entailing as it does the constant and almost yearly change of engineers, is costly to the townspeople and detrimental to the efficiency of the department. We are, therefore, inserting an article in the annual warrant providing for a permanent chief of department. It is our hope that the voters will consider the merits of this article very carefully.

The co-operation of the various members of the department has been gratifying, their efficiency unquestioned, and their morale of the highest.

We extend our thanks to the Board of Selectmen and all other officials with whom we have worked, and to the people of the town as a whole, for their many courtesies and helpful collaboration during the past year.

Respectfully submitted,

JAMES FINNIE,
WALLACE GOODNOW,
RUSSELL J. WILDER,
Engineers.

FIRE WARDEN'S REPORT

REPORT OF THE FOREST FIRE WARDEN

To the Honorable Board of Selectmen:

Scituate, Massachusetts.

I submit herewith the report of the Forest Fire Department for the year 1942.

During the year, the department was summoned to 103 fires. This was an unusually small number of alarms, and none of them serious.

We were unable, because of the lack of man power, to burn over many of the hazards existing in the town, but because of rainy weather we were spared any major fires. As these hazards were not burned they will, of course, present a far greater danger in the coming forest fire season.

I call your attention to the figures pertaining to forest fires incorporated in the summary of the Fire Department's report and point out that of 103 fires 77 were caused by carelessness. In most of these cases no permits had been issued. Under the laws of the Commonwealth, these permits for open air fires are necessary and are designed for the protection of you and your neighbor.

I extend my thanks to the Board of Selectmen and all others with whom I have worked during the past year.

Respectfully submitted,

JAMES FINNIE,
Forest Warden.

SCITUATE COMMITTEE ON PUBLIC SAFETY

36 Country Way, Greenbush, Massachusetts

Board of Selectmen,
Scituate, Mass.

December 31, 1942.

Gentlemen:

The Scituate Committee on Public Safety begs to submit the following outline of its organization and activities to date for the information of our citizens.

Governor Saltonstall requested our Board of Selectmen to nominate a citizen for him to appoint as Chairman for this Town's Committee on

COMMITTEE ON PUBLIC SAFETY REPORT

Public Safety with authority and instructions to organize a Committee of such size and personnel as he deemed advisable. On June 11, 1940 he made such an appointment and as a result a Committee was organized with representatives from the Police Department, Fire Department, Water Department, School Department, and two Veteran Associations. This Committee has functioned to date with only two changes, occasioned in the first place by the resignation of Chief George E. Vollmer when a new head of the Fire Department was appointed and secondly when Major Frederick A. Calkin was ordered to active duty with the Armed Forces. These vacancies were filled by the appointment of Chief James Finnie of the Fire Department and Superintendent Harold C. Wingate of the School Department.

This Committee felt its way along, gradually developing its activities to meet the conditions as they arose. Beginning with December 8, 1941 our Report Center was put on twenty-four hour service and has been so served since. We had organized our Protection Department to such an extent that when the, what proved to be false, alarm on December 9, 1941 was received, we were able to function fully.

We established a Medical Center which is now located in the Women's Club. From this center our Red Cross Ambulance Service, consisting of six privately owned beach wagons completely equipped as ambulances, operates. Here also are centered our First Aid and Rescue Parties as well as our First Aid Dressing Station. Our Emergency Canteen Service also operated by the American Red Cross is located in the town building at Greenbush and also our Red Cross Supply Depot and Surgical Production Work rooms. The local Red Cross Chapter has given us very intelligent and full assistance and cooperation.

The Town has been divided into six Air Raid Warning Districts, each organized with a Post Warden and the necessary number of assistant wardens, operating under the Town Chief Air Raid Warden.

Both our Police and Fire Departments have organized a group of auxiliary members operating directly under the orders of their department chiefs.

Our women's section has been organized with the help of the different women's organizations in town and is now designated as the War Services Division, which in addition to such duties as may come under it in the event of attack by the enemy, is also in a position to furnish information and instructions to our town's people in connection with reduced supplies caused by rationing.

We have plans and arrangements made to care for such of our people as may be obliged to close their homes if our fuel oil supply becomes exhausted and cannot make their own arrangements to go to

COMMITTEE ON PUBLIC SAFETY REPORT

friends or relatives. Our Red Cross Disaster Committee, the Chairman of which is active in our organization, is to furnish cots and blankets and our School Committee will place at our disposal the coal-heated High School Auditorium for barracks and the Cafeteria for canteen purposes.

The supervision and enforcement of the drastic dimout regulations prescribed by the Army for observance in this section, although coming under the Police Department jurisdiction, has required the assistance of the Air Raid Wardens in addition to the Auxiliary Police.

The Army with the cooperation of our American Legion Post established a Post of the Ground Observation Corps, Aircraft Warning Service. Although all instructions and regulations for the establishment and operation of this service were issued by the Army, no provision for any of its expense was made, therefore, this Committee has paid from its appropriation the necessary heat, light and telephone bills, but no rent, as the Club where it is located has donated, without charge, the use of its property.

We have established a Servicemen's Recreation Center or Club House in the property formerly operated as the Colonial Inn on Meeting House Lane. We have a large number of Servicemen quartered here in Scituate and expect that number will be at least doubled shortly. This activity is not being financed from town funds but by the U. S. O. Soldiers and Sailors Committee of Boston, because of our past participation in the Boston Community Fund drives.

We have assisted the First Corps Area Recruiting and Induction Officer in furnishing a means of contact between our citizens who needed information regarding enlistments and that office.

The Chairman of this Committee has also been appointed as the Town War Transportation Coordinator. He has cooperated with and assisted when possible the Town Rationing Board in arranging Group Riding by bus and private cars to Defense plants.

All services, other than a very small amount of clerical work, in connection with our whole activities have been volunteer, without pay of any nature and at our own individual expense for transportation. The response of the general public to our requests for action in carrying out the instructions of the Governor through the State Committee on Public Safety has been very cooperative and helped greatly in obtaining satisfactory results.

Although all regulations and instructions under which this Committee operates originate from either National or State authority no Federal or State funds or material have been made available for our use. Through the exercise of careful judgment, and the elimination of such activities, as seemed to us, required only by the larger communities, we

SUPERVISOR CARE OF VETERANS' GRAVES REPORT

have been able to operate within the appropriation voted us at the Special Town Meeting of January 5, 1942 and have enough balance left, unless an unforeseen emergency arises, to carry our activities on until the annual Town Meeting, at which time the matter of additional appropriation will come before the citizens for action.

Respectfully submitted,

SCITUATE COMMITTEE ON PUBLIC SAFETY.

PHILIP L. SCHUYLER,
Representing the Governor, Chairman.
WILLIAM J. LUMBERT,
Water Department, Vice-Chairman.
MICHAEL E. STEWART,
Police Department.
JAMES FINNIE,
Fire Department.
HAROLD C. WINGATE,
School Department.
ROY E. LITCHFIELD,
American Legion.
ELMER RAMSDELL,
Veterans of Foreign Wars.

VETERANS OF FOREIGN WARS

To the Honorable Board of Selectmen,
Scituate, Massachusetts.

Gentlemen:

I submit my report as Supervisor Care of Veterans Graves in the Town of Scituate for the year 1942. During the past year 160 graves situated in the various Cemeteries and Tombs have been cared for. I have inspected all graves and I find that all Cemetery Corporations and Caretakers are fully cooperating with me in my efforts to see that all graves of Veterans in the Town are properly taken care of. All neglected graves show a very great improvement in their condition. The right of way to the Damon Tomb has been established and cleared.

I wish to thank all who are continuing to assist me in this work.

Respectfully submitted,

ELMER F. RAMSDELL,
Supervisor Care of Veterans' Graves.

HIGHWAY DEPARTMENT

REPORT OF THE HIGHWAY DEPARTMENT

To the Citizens of the Town:

During the past year the Highway Department had to curtail almost all major improvements that we contemplated. The present emergency, with the rationing and restricting of road building materials, prevented the completion of projects already started. In many instances we were fortunate to secure permission from the Public Roads Administration and the War Production Board to treat many of our roads with bituminous material, such as tar, which is the most difficult of all material to obtain.

The demand for drainage installations has increased considerably. In most cases we were able to correct the most urgently needed of these requirements and many unfavorable conditions were alléviated. However, there still remains drainage difficulties that will have to wait a more opportune time.

Due to the dimout regulations and through the request of the local Committee on Public Safety we have had painted almost twice the amount of road that we had done in normal times or in any previous year. We considered this expedient, as the safety of the townspeople was greatly endangered by the driving hazard then prevalent. Considering the difficulty in securing labor, and especially painters, we believe we were fortunate to secure this service.

The road surface treatment program was contingent upon our receiving approbation from the Public Roads Administration to purchase tar. This material, being a vital war necessity, had, therefore, to be meted out or allocated to the various towns and cities in much smaller quantities than formerly used. However, of our seventy-five miles of public roads in the Town, we were able to treat with tar and sand cover approximately one-ninth of the whole. In normal times it is customary to treat about one-sixth of your roads so the program for last year was not as much of a deviation as one might expect. Country Way, from the Cohasset line to the recently built Chapter 90 section was tarred and sanded. Also included were Hatherly Road from Gannett Road to Egypt Avenue, Garden, Hawley, Irving and Jay Roads, Norwell Avenue, Ann Vinal Road, part of Capt. Pierce Road, Edward Foster Road, Elm Street and Cudworth Road.

At Minot the parking space near the post office was raised three feet thus checking inundation by the tidewater which constantly flooded this section. That part of Baileys Causeway was also raised a similar

PEIRCE MEMORIAL LIBRARY REPORT

height with gravel, rolled and tarred. A new wooden sidewalk, built with 2 by 8 planking was completed for a distance of two hundred feet, displacing the old one which had served its purpose and was rotting away.

Cement sidewalks were erected at the entrance to the pier. New guard rails, embedded in cement, were constructed along the sidewalks, eliminating a serious menace to public safety. Jericho Road was widened considerably and a five foot cement sidewalk, protected its entire length by rip-rap, was built from the moss beach to a point beyond Hatherly Road. This section has always been a source of danger to pedestrians, especially during the Summer months when we have an influx in our population. We trust the use of this sidewalk by the public will to a great extent remedy this dangerous situation.

The Winter months are almost entirely devoted to snow removal and ice control activities. We have nineteen plows; fifteen are mounted on private trucks and four on town owned equipment. Many Winter visitors to the Town express surprise at the rapidity in which our streets are cleared to facilitate traffic. The most difficult part of last year's snow removal program was to find laborers to operate sand spreaders during icy rain and sleet storms. We can say that we did the best possible under the existing circumstances.

Respectfully submitted,

CHARLES M. WAGNER,
Highway Surveyor.

REPORT OF THE PEIRCE MEMORIAL LIBRARY

The following is the report of the librarian of the Peirce Memorial Library for the year ending December 31, 1942.

Total number of books circulated	16,012
Fiction	9,638
Nonfiction	2,852
Juvenile	3,522
	16,012
Magazines circulated in 1942	1,697
Books purchased during year 1942	367
Books given in 1942	31
Books rebound during 1942	37
Number of active card holders	404

ALLEN MEMORIAL LIBRARY REPORT

The financial report of the library will be found elsewhere.

We wish to thank our fellow citizens for their generous support and cooperation.

Respectfully submitted,

VERNETTA G. BARNES,
President Peirce Memorial Library Association.

January 28, 1943.

REPORT OF THE ALLEN MEMORIAL LIBRARY

During the year 1942 we were able to devote a larger proportion of our appropriation to the purchase of books than has been possible in the last few years when the building required rather heavy expenditures for repairs. Today, we believe for a small library, we have an exceptional assortment of all types of literature—fiction, non-fiction, text books, and periodicals—which has made the library of greater interest and value to the people of Scituate.

In January this year, the shortage of fuel made it necessary for us to reduce the number of days the library is open from three to two, and we hope on this reduced schedule, we will secure sufficient oil to keep the building comfortable on the days the library is open. It is not possible for us to convert our heating unit to coal, and the trustees have given considerable study to the heating of the library and believe they will be able to keep it functioning until the warm weather solves the problem for us.

Some minor repairs and a partial re-arrangement of the furnishings of the library, plus the purchase of a small amount of additional equipment have improved the building, and we hope will prove of real help to our efficient librarian.

We believe there is a growing interest in the library indicated not only by the larger number of people withdrawing books, but also its increasing status as a social and community center, and this is a development that we hope will continue to grow in importance.

Respectfully submitted,

HOWARD O. FRYE

SEALER OF WEIGHTS AND MEASURES

REPORT OF THE SEALER OF WEIGHTS AND MEASURES

Board of Selectmen,
Scituate, Mass.

Gentlemen:

Following is the report of your Sealer of Weights and Measures for the year ending December 31, 1942.

Four hundred and nineteen devices were sealed for use in trade. Twenty-three adjustments were made. Twelve devices were not sealed and one was condemned.

Several peddlers' licenses were inspected. All transient vendors were licensed and the fees received by the Town.

Forty trial weighings were made, and forty-seven gasoline and fuel tanks were measured. These tanks were measured as a special request of the Commonwealth of Massachusetts.

Sealing fees collected for the year of 1942 were \$78.80. Adjusting charges were \$1.70. The total amount paid the Town Treasurer in 1942 was \$80.50.

Respectfully submitted,

JOSEPH N. MURPHY,
Sealer of Weights and Measures.

BOARD OF REGISTRARS' REPORT

REPORT OF THE BOARD OF REGISTRARS

Meetings held for registration of voters in 1942:

February 5th.....	at Town Clerk's Office
February 16th.....	at North Scituate Fire Station
February 17th.....	at Scituate Harbor Fire Station
February 18th.....	at Town Hall
August 26th.....	at Town Hall
October 14th.....	at Town Hall

Meetings were held at the Town Clerk's office for the purpose of certifying names on nomination papers on February 5, June 30, July 7, July 14, and July 21.

There were 271 names added to the voting list in 1942 by registrations, while 145 names were dropped because of deaths and change of residence, resulting in a gain in registration of 126.

Registered Voters in the Town of Scituate on December 31, 1942:

Males	1581
Females	1546

The Board made a house to house canvass throughout the entire Town of Scituate as required by Chapter 440 of the Acts of 1938, an Act transferring certain duties of local Assessors to the Registrars of Voters relative to the listing of inhabitants.

The attention of interested parties is called to Chapter 51, Section 2 of the General Laws, viz: If the name of a female who is duly registered as a voter is changed by marriage or by decree of court, her right to vote in her former name shall continue until January first next following. Adherence to this law thus requires every female now on the voting list whose name is changed by marriage or by decree of court to appear at an advertised meeting of the Board of Registrars and re-register as a voter if desirous of continuing to vote in Scituate as her previous name will automatically be stricken from the list.

Respectfully submitted,

BERTHA L. TURNER,
J. EDWARD HARNEY,
DANIEL J. QUEENEY,
WILLIAM M. WADE,

Board of Registrars of Voters.

SCITUATE PUBLIC HEALTH NURSING SERVICE

REPORT OF THE PRESIDENT

To the Citizens of Scituate:

The Scituate Public Health Nursing Service has endeavored to carry on its regular activities amid the unusual conditions of the past year.

The Well-Baby Clinic, held monthly, is one of our most important activities. The response of the mothers of the town has been gratifying. Dr. Fitzgerald, well-known baby specialist, has been in charge, assisted by Mrs. Alice Dowd, town nurse. We wish to thank the members of the Motor Corps who provided transportation for the clinic.

The thrift shop, located at the Harbor, offered needed clothing, furniture, etc., to the townspeople. Owing to heating difficulties the thrift shop has been closed for the winter months, but will be opened later.

Last summer the Nursing Service sent three children to the Plymouth County Health Camp in Hanson, Mass.

We have been glad to co-operate with the Board of Health in sponsoring clinics for diphtheria immunization.

Our membership drive was successful this year, as it has been in the past. The generous contributions of the people of Scituate are greatly appreciated. Recognizing the dangers and uncertainties of the times due to the war, we have endeavored to build up a fund so that in the event of any emergency occurring we will be able to be of as much assistance as possible when called upon.

The proceeds of the Christmas Seals sale, sponsored by the Nursing Service under the chairmanship of Mrs. Louis J. Rouleau, were greater than last year.

I wish to thank Mrs. Alice Dowd and the members of the Nursing Service board for their support.

The Scituate Public Health Nursing Service is ready, as always, to be of service to the town and its people in this or any emergency.

Respectfully submitted,

MARGARET M. REYNOLDS,
President.

PUBLIC HEALTH NURSE REPORT

REPORT OF THE PUBLIC HEALTH NURSE

Board of Health:

I herewith submit my annual report of activities for the year 1942:

Bedside Nursing Visits	1727
Old Age Visits for Welfare Dept.....	143
Soldiers' Relief Visits	10
Hospital Visits with patients.....	52
Ambulance Cases	25
Doctor's Office Visits with patients.....	78
Infant Care Visits	241
Baby Clinics	12
Antitoxin Clinics	3
Prenatal Visits	116
Postnatal Visits	62
Maternity Cases	3
T.B. Follow up Cases	145
Contagious Visits	35
Public Health Meetings	3
Conferences with State Health Workers.....	12
Unclassified Visits	500
Total Number of Visits.....	3167
Telephone Communications for Health Work.....	500

Antitoxin Clinics for Diphtheria and Small-Pox, sponsored by the Board of Health, were very successful. One hundred eighty-three (183) children were cared for.

Health Education programs are carried on and based on the individual needs.

Respectfully submitted,

ALICE M. DOWD, R.N.

PUBLIC HEALTH NURSING SERVICE REPORT OF THE TREASURER

The Association, through the treasurer, wishes to thank all the people who helped to make our membership drive so successful this past year. We hope to have your continued support to enable us to carry on. The president's report will give an account of our activities. Owing to war conditions this report is necessarily short.

PUBLIC NURSING SERVICE FINANCIAL REPORT

A list of sustaining members will be published in the Scituate Herald the first week in March.

Following is the financial statement for 1942.

ANNUAL FINANCIAL STATEMENT OF THE SCITUATE PUBLIC HEALTH NURSING SERVICE

	\$1,290.05

Balance on hand Jan. 1, 1943.....	795.52	
		\$2,085.57

C. L. HARTS, Treasurer.

REPORT OF THE BOARD OF HEALTH

Our work during the past year has consisted of following out all Laws, Rules and Regulations pertaining to Health and Health measures. Our main object has been to check communicable diseases, prevent epidemics, and to keep Scituate one of the healthiest towns in our Commonwealth.

We have employed agencies that have checked, in its infancy, the spread of disease, and all employed by us have carried on their work in a creditable manner.

War conditions have added greatly to our work, but by carefully guarding against elements that naturally follow crowded conditions in shops, factories or armed service, we have kept this town free from epidemics.

Our School Dental and our Pre-School Clinics have been a success. Our Antitoxin Clinics were the largest in years; 183 children were immunized against Diphtheria and Smallpox during the year.

Beaches, Rivers, Ponds, Brooks, and Roadsides have been kept clean of any debris that might spread disease.

During the year the Scituate Public Health Nursing Service has conducted a Well Baby Clinic which has been a greater success than in former years.

Alice M. Dowd, R.N., our Public Health Nurse, has been extremely busy cleaning up tuberculosis cases and other contacts of long standing. I quote from a letter received from the State Department of Health: "We wish to commend the Scituate Board of Health for their success during the past year and to thank them for the cooperation given by their Health Nurse whenever called upon."

During the year we have followed our usual practice of notifying the school authorities of every case of contagious disease, so that they might follow out their rules in regard to school attendance.

Many types of illness can be prevented by care and an early consultation with the family physician; and whenever possible, advantage taken of our Clinics which are held to prevent outbreaks of contagious disease.

All situations involving health and health conditions are paramount today more than ever before because of War and War conditions; therefore citizens should take advantage of every opportunity to

BOARD OF HEALTH

secure health knowledge and when war is over we will be in a position to combat any and all types of disease that naturally follow unusual conditions.

We wish to thank the Red Cross and their Motor Corps for assisting in the success of our Clinics, and the Scituate Public Health Nursing Service for the use of their office and supplies.

Town officials, heads of departments and many others have given their cooperation when called upon and this has been an added help in making Scituate 100% in health and health measures.

Respectfully submitted,

WALTER L. ENOS, Chairman,
GEORGE H. OTIS,
DR. WILLIAM P. GROVESTEIN,
Board of Health.

REPORT OF THE INSPECTOR OF ANIMALS

To the Board of Health,
Scituate, Mass.:

I wish to report that I have quarantined all dogs which have bitten people and have attended to all matters relative to cattle, goats and swine.

Respectfully submitted,

CHARLES O. CHASE,
Inspector of Animals.

REPORT OF THE MILK INSPECTOR

To the Board of Health,
Scituate, Mass.
Gentlemen:

I have issued 29 store licenses, 10 wholesale licenses to dealers and one license for the pasteurization of milk.

Many samples of milk have been taken and sent to the Brockton City Laboratory for examination and found to be up to standard.

BOARD OF HEALTH

Several State Inspectors have been in Scituate the past year, giving valuable information and help to milk dealers regarding their equipment and methods of milk production.

The local milk producer is having much trouble with labor and is carrying on only under difficult conditions. The government has promised relief but this is slow in coming.

Respectfully submitted,

GEORGE H. OTIS,
Milk Inspector.

REPORT OF THE INSPECTOR OF SLAUGHTERING

To the Board of Health,

Scituate, Mass.:

Dear Sirs:

I have inspected all animals slaughtered in the Town of Scituate according to the laws of Massachusetts and found the same in perfect condition.

Respectfully submitted,

EDWIN L. MERRITT,
Inspector of Slaughtering.

REPORT OF THE SCHOOL DENTIST

To the Board of Health and Superintendent of Schools,

Scituate, Mass.

Gentlemen:

The following work was done in the grade schools of the town in 1942:

Fillings in Permanent Teeth.....	430
Fillings in Temporary Teeth.....	117
Extractions of Permanent Teeth.....	2
Extractions of Temporary Teeth.....	87

BOARD OF HEALTH

Teeth Treated	113
Prophylactic Treatments	136
Completed Cases	127

The largest percentage of work is done in the second, third and fourth classes. The first permanent molars are in position at this time, and are filled as soon as small defects are discovered. Near the end of the school year a chance is given to the sixth graders to have their work completed before leaving for Junior High School.

Respectfully yours,

DR. W. B. PARSONS,
School Dentist.

REPORT OF THE PRE-SCHOOL DENTAL CLINIC

Scituate Board of Health,
Scituate, Massachusetts.

Dear Sirs:

The summer of 1942 saw the completion of one of the largest and most successful Pre-School Dental Clinics since its inception. Its accomplishments will go far beyond the usual health results and will, in these times, when the professions are taxed to the limit of their strength, assure a greater measure of health within the community.

Preventive Dentistry will again prove its value, in that in creating a sound and healthful condition within the oral cavity, the acknowledged source of entrance for most infection and pathology, it will have built up that much more immunity to sickness and epidemic in a time when such immunity is desperately needed.

This year's clinic generalized; and the effort to spread the services to all was realized with each child given the maximum amount of attention time would permit. Defects were great in number.

Thirty-eight children were examined. Three hundred ninety-four defects were found within the oral cavity.

Thirty-four children were given dental care.

Thirty-eight roentgenograms were taken.

Thirty-nine treatments were given.

Two hundred thirty-seven restorations were made.

PUBLIC WELFARE REPORT

Fifteen extractions were made.

Twenty-nine prophylactics were given.

Twelve cases were completed.

The interest shown by the mothers was particularly heartening, and for the 1943 clinic, the opportunity for one or two group meetings with the mothers, to discuss their problems is a recommendation I strongly urge.

Commendable indeed is a Board of Health whose foresight finds functioning as part of a regular and well established program a public health service the Government is today demanding.

Yours sincerely,

JOHN F. CRIMMINS, D.M.D.

REPORT OF THE BOARD OF PUBLIC WELFARE

To the Citizens of Scituate:

Your Board this year lost one of its oldest and most universally known and esteemed of its members in the sudden passing of Dr. Harry T. Handy. We who have associated with him in official, professional or personal capacity can appreciate the truly great qualities of the man; and together with the hundreds of his patients to whom he has brought healing and cheer, we unite in mourning his loss.

The Welfare load this year has been small, owing to almost universal employment. Those now on our rolls are unable to provide for themselves due to age or infirmities, and in a few cases, due to unexpected illness or temporary inability to provide for themselves.

The State law establishing minimum payments to Old Age Assistance recipients went into effect this year, resulting in many adjustments in their payments. These adjustments were invariably upward, and as the cost of living increases the budgets furnished by the State from which the allowances are computed are also showing an increase. The abandonment of all W.P.A. projects in the near future will probably be followed by further applications for this form of relief, and, of course, each year a number reach the age of eligibility.

The Aid to Dependent Children rolls are fairly constant, some families having become ineligible due to the children becoming of age in excess of the limit or by moving away, but these have been replaced by other families coming into town.

RATIONING BOARD REPORT

We anticipate no great change in the demand for aid during the coming year. There are a number of disputed cases of charges against the town for support of Scituate people in other localities, some of which are very old and have dragged through the administration of several previous boards. These cases we hope to settle; and as the laws permit other towns and cities to collect reimbursements for aid rendered our citizens, these charges, if proven, will have to be paid. It is, of course, reciprocal, and we collect from other towns for aid rendered their citizens.

We are including no statistics in this report as a full statement of receipts and expenditures will be found in the Treasurer's and Town Accountant's reports.

We wish to thank all organizations, individuals and other town departments for their cooperation during the past year.

Respectfull submitted,

WILMOT M. BROWN,
ANNIE M. SOMERS,
FRANKLIN T. SHARP,

Board of Public Welfare..

REPORT OF THE SCITUATE RATIONING BOARD No. 271

January 29, 1943.

To the Board of Selectmen,
Scituate, Mass.

Gentlemen:

Scituate Rationing Board No. 271, appointed by the request of the Office of Price Administration, and later known as the War Price and Rationing Board, started operation in January, 1942, with three members: Herbert A. Whiting, Chairman; Ralph C. Ackerman and Peter W. Sharp.

The first articles to be rationed were Tires and Tubes, these being followed by Gasoline, Sugar, Typewriters, Bicycles, Men's Rubber Footwear, Coffee, Fuel Oil and Stoves.

Russell L. Fish was appointed a member of the Board to fill the vacancy caused by the death of Mr. Sharp, and its membership was further increased by the addition of A. Willis Totman.

ENGINEERING DEPARTMENT REPORT

With the activities of the OPA constantly expanding and to bring about an equitable distribution of same, it was deemed expedient to further increase the Board's membership and to appoint the several panels as recommended by the State Director, and to this end the following were named: Wilmot M. Brown, Marion E. Brown, Frances H. Cole, Edmund J. Corrigan, John J. Heffernan, Florence M. O'Hern and Doris D. Ward. This gives the Board four active Panels, viz.: Tires and Gasoline, Food, Fuel Oil, and Price Control.

While the initial registrations for War Ration Book No. 1 and Gasoline were under the direction of the School Department officials and teachers, this Board desires to express its sincere appreciation for their assistance; also to the many volunteers who worked faithfully as a patriotic duty to help make this important undertaking successful, and to the Police Department for their cooperation in the delivery of ration books to citizens whose business hours did not permit them to call at the Town Hall for same.

Respectfully submitted,

HERBERT A. WHITING, Chairman,
RALPH C. ACKERMAN,
RUSSELL L. FISH,
A. WILLIS TOTMAN,

War Price and Rationing Board 271.

REPORT OF THE ENGINEERING DEPARTMENT

To the Honorable Board of Selectmen.

Gentlemen:

Engineering work, because of the existing conditions, was greatly curtailed. I believe, however, that at the end of the national emergency, this department should receive the attention of the citizens, especially toward bringing our Town Maps up to date.

The following is a summary of the work performed by the Engineering Department for the year ending December 31, 1942:

1. Attending hearings preparatory to making layouts of streets offered for acceptance as Town ways.
2. Making surveys and plans for layouts of new streets and relocation of lines of existing streets.
3. Setting bounds in the ground to define the lines of layouts accepted during 1942.

TOWN WPA AGENT REPORT

4. Reproducing points and replacing monuments where same were destroyed.

5. Establishing definite street lines where none existed for land court surveys and other surveys.

6. Appearing at the Massachusetts Land Court in the interest of the Town.

7. Making miscellaneous plans for various Town Departments.

Respectfully submitted,

HENRY A. LITCHFIELD,

Assistant Town Engineer.

REPORT OF THE TOWN WPA COORDINATOR

To the Board of Selectmen,
Town of Scituate.

January 28, 1943.

Gentlemen:

The appropriation of \$5,000 by the Town at its Annual Meeting in March, 1942, as a general unemployment relief fund in connection with Federal Unemployment Relief projects was an important factor in keeping local unemployment at its lowest level in many years. It provided employment on WPA projects for those who otherwise would have been unable to meet the necessary physical or age requirements prevailing on Defense projects.

Early in the year it was evident that employment in Defense plants and on Defense projects would require the services of all available skilled workers, while construction projects would absorb those familiar with that class of work, thus from a total of 44 Federal Relief workers at the beginning of the year the number was gradually reduced to 12 at the close of the year, divided between two WPA projects, one covering road work at Humarock and the other assisting Civilian Defense Authorities in Scituate, both of which will undoubtedly continue operation in 1943 for a time at least.

We are fortunate, however, in having several approved projects from last year ready for operation on short notice should the necessity arise to relieve any unemployment situation, provided Federal aid is made available as in the past.

I wish to convey to your Board my sincere appreciation for the assistance given me during the year in meeting the problems arising in the administration of this most important relief work.

Respectfully yours,

HERBERT A. WHITING,

Town WPA Coordinator.

TOWN COUNSEL'S REPORT

REPORT OF THE TOWN COUNSEL

Scituate, Mass.

January 18, 1943.

One might ask "What has been the effect of the war upon the field of municipal law?" 1942 has been our first year affording an answer to this question.

First it must be borne in mind that legal problems handled in a given year may have been the result of events years ago. Matters which reach the litigation or court stage generally grow out of situations or policies of some years' standing.

Yet 1942 ushered in some war activity evidenced by a special town meeting on January 5th to consider civilian defense measures. Later problems arose in connection with bridge construction at Humarock and public easements in 4th Cliff where the United States government has condemned land for war uses.

In my report for 1941 I called attention to our special transportation needs in the form of rail service thru to Greenbush in the evening and a nine o'clock train to Boston in the morning. It may be noted we now have two after-supper trains down to Greenbush and the late morning train to Boston, the Massachusetts Department of Public Utilities having been much concerned for the welfare of the South Shore public

The Cohasset Board of Public Welfare has again instituted suit against the Inhabitants of the Town of Scituate for so-called temporary welfare aid furnished a mother and children who moved back to Cohasset to live, this suit being brought despite the Supreme Court decision in *Cohasset vs. Scituate*, 309 Mass. 402 (1941). Cohasset officials take the position that they do not have to furnish aid under the provisions of the Federal Social Security Act which would require about one-sixth of the expense of such aid to be borne by Cohasset. They prefer the Massachusetts statute under which they claim Scituate must reimburse Cohasset one hundred percent, a position which defeats the new law and which disapproved in the welfare case already adjudicated.

The case of *Needham vs. Scituate* for reimbursement for welfare aid was disposed of in December in the Norfolk Superior Court by entry of judgment for the defendant, extensive litigation in the Supreme Court thus being avoided. A case against the Commonwealth was also dismissed, the latter having settled the claim. Needham was in doubt as to the right debtor. Scituate did not have to pay.

TOWN COUNSEL'S REPORT

Several cases were disposed of at the Massachusetts Appellate Tax Board for the Board of Assessors upon terms advantageous to the town.

The present Board of Selectmen has, in keeping with its policies for economy, raised a diminishing number of questions for the attention of counsel. This policy may result in a substantial saving to be reflected in expense for legal services in 1943. As pointed out, however, recurring problems and unforeseen circumstances make such prophecies uncertain of fulfilment. The war effort will continue to be the focus of public attention. Municipal government should run with every reasonable economy of time, materials and money, our public officials being quite evidently conscious of this duty.

TOWN BY-LAWS (1937 to 1941)

The following report is made to bring our own By-Laws up to date and may be used for reference as a supplement to compilation in Annual Town Report for 1936, page 143.

Jan. 25, 1943.

VERNON W. MARR.

REVISION

Town By-Laws, Part I, page 143, Annual Town Report for 1936, Billboard By-law, at page 156 under (i), misprint, line 10, insert after word "application" as follows:

"Notice thereof having been posted in three public places in said Town"—as per page 143, Annual Report, 1929.

Amendments since 1936 to the By-Laws of the Town of Scituate, i.e. By-laws, page 143—Annual Town Report for 1936.

1937. Section 8 of Zoning By-law by vote under Art. 28 of Annual Town Meeting (correction of typographical error).

1938. Zoning Board of Appeals established by vote under Art. 50, Annual Town Meeting.

Sale of lands regulated by vote under Art. 1 Special Town Meeting June 22, 1938.

1939. Regulation of Clams, etc. by vote under Art. 59, Annual Town Meeting.

1940. Zoning By-laws—detailed plans for Zones A and B, Art. 12, Annual Town Meeting.

New Advisory Committee (abolition of Adv. Board) Art 13, Annual Town Meeting.

REVISION

Legislative Acts accepted by Town, Part II, page 163, Annual Town Report 1936.

ASSESSORS' REPORT

M. E. STEWART,
Chief of Police.

REPORT OF

THE PLYMOUTH COUNTY EXTENSION SERVICE

During 1942 the Extension Service program has been greatly changed as a result of war-time conditions. At the beginning of this war, food production was immediately recognized as one of the great essentials in combat. Our slogan "Food Will Win the War and Write the Peace" is being brought to a more definite realization as our allied forces assume greater offensives. On the home front, the production of food is becoming a critical item. Therefore, Extension Service programs have been geared to do their important part in the organization and education of the production and preservation of food.

Because of the nature of Extension Service work, as it is conducted for many projects on a county-wide basis, it is difficult to outline specifically all of the benefits that a particular town has derived. More than ever, in 1942 the Extension Service has been called upon to execute a large share of the assignments found necessary to promote the war effort. Through the Plymouth County U. S. D. A. War Board, of which the Extension Service is a principal factor, leaders have been chosen to act in the interest of fellow farmers and for rural people. While many of the committees such as Farm Machinery Rationing, Farm Transportation, and Rural Policy Committees, have not func-

tioned on a town basis, they have indirectly and directly contributed to the welfare of the townspeople. Town War Action Committees were set up early in 1942 in practically every town in Plymouth County to assume responsibility and to organize and promote the assignments felt necessary within the town. In the year to come these committees will assume a greater role in furthering the Food Production Program.

Commodity project work for dairy, poultry, fruits, vegetables, forestry, and cranberries are conducted largely on a county-wide or regional basis. The Extension agents plan to distribute these meetings in as many towns as possible so that the work may be brought to the attention of as many people as possible on a practical basis. Farm and home visits are made only to fulfill requests, or where visits promote project work. Travel limitations greatly reduced the number of farm visits, but greater demands were made by telephone and through individual letters. Rural families having use for information released by the Plymouth County Extension Service and the Massachusetts State College Extension Service will find this available upon request to the county office. Three departments in Agriculture, Homemaking, and 4-H Club Work, are represented by two agents for each department. Joint responsibility is often shared for certain projects.

The County Home Demonstration Agents conducted meetings on clothing instruction, food buying, Christmas Greens, Garden Planning, Food Preservation, and Food Storage during the past year. However, the majority of the work was placed on the essential item—food production, preservation, and storage.

Four-H Club projects were carried on in every town offering the possibilities of organized clubs for poultry, dairy, garden, and handicraft for boys. Girls' 4-H Club work was available in clothing, food, home furnishing, and food preservation. Outstanding work has been accomplished by these departments on a town basis. Much credit is due local leadership in the success of these projects.

The Extension Service work is of such wide scope that the efforts of Extension agents cannot be confined to strictly Extension Service activities. Close cooperation is given any worth-while organization which contributes to better family living.

In 1943, the Food Production Program must of necessity require the major part of the Extension Service work. Food is considered a most critical item in the war strategy. Extension agents and leaders will devote long and arduous hours in making sure that this item does not fall short of the essential demands. Each town which contributes to the support of this organization is doing its part to make sure that Democracy shall live and that this educational process of proven value shall endure.

Respectfully submitted,

CHARLES E. MITCHELL, Town Director.

WATER COMMISSIONERS' REPORT

REPORT OF THE WATER COMMISSIONERS

The activities of the Water Department, due to the war and to restrictions laid down by our government, have consisted mostly of care and upkeep of our present system.

The Water Commissioners have been most concerned the past year with an effort to secure a greater supply of good water for Scituate. Notwithstanding a continuous search for a new supply during the entire year, we have not located a well of sufficient capacity to warrant installing a pump and piping to our system. We are still working at one location which may develop a well of moderate yield.

For this reason, and with the advice of the State Board of Health, we have filed a bill with the State legislature to allow us to prospect for water in Norwell. If this bill is passed, we may discover and pipe to Scituate a supply adequate for all our needs. We consider this to be the most urgent need for Scituate at this time.

Respectfully submitted,

JOHN F. McJENNETT, Chairman,
RUSSELL J. WILDER,
STEPHEN C. WEBSTER,

Water Commissioners.

STATEMENT OF BOARD OF WATER COMMISSIONERS REPORT OF SUPERINTENDENT

January 1, 1943.

Board of Water Commissioners,
Scituate, Mass.

Gentlemen:

I beg to submit herewith the eleventh annual report of the Scituate Water Department, outlining the activities of 1942, and presenting recommendations for further consideration.

Drastic curtailment of all normal activities became mandatory on the declaration of war. General projects being carried on, under W.P.A. authority were stopped and the labor was transferred to projects on defense work. As a result of this Federal action, the project to lay a water main, westerly from Grove Street on First Parrish Road, **was**

WATER COMMISSIONERS' REPORT

deferred for the duration of the war, and a project to compile records and file cards for the Water Department office was also stopped. This labor was transferred to Civilian Defense activities.

A very considerable portion of Civilian Defense work has been carried on in the offices of the Water Department, and the Water Commissioners should receive credit on this count.

The drought of the last three years is affecting the sources of supply to a very serious extent and new developments had to be considered from the beginning of the year. Holes, from six to twelve inches in diameter have been drilled in various parts of the town. A large part of this work has been accomplished by the men in the Water Department, and several holes were drilled by a contractor. The available water developed in the wells (with one exception) was not sufficient to warrant the installation of pumps and pipe lines to the distribution system. The well with the possible supply, is being developed, and the well field itself is being searched, to substantiate the amount of water available.

If these wells, when developed, stand up under standard pumping tests and the entire situation is approved by the Mass. State Board of Health, the necessary pumping equipment and mains should be installed as soon as possible.

Unless the water tables in the well fields, now developed, return to normal elevations in the near future, the Old Oaken Bucket filtration and pumping system should be placed in condition for active use. This would afford some four hundred thousand gallons of water a day, but would be more expensive and less potable.

The possible advent of army camps in town would be a severe strain on the present supplies and it would seem very advisable to obtain an act of the legislature to allow the Town of Scituate to prospect further for sources of water supply in the Town of Norwell.

The global war that is disturbing the entire world developed relief that was very seriously needed in the Scituate Water supply, due to the fact that there were considerably fewer summer visitors than usual and the demand for water was much less and more evenly distributed. Had there been the usual number of people in Scituate during the summer months, the seriousness of the drought would have been felt very definitely.

The distribution line from Kent Street to the Second Cliff is in a very precarious condition due to the action of the salt water on the cast iron pipe. This main should be replaced with Transite immediately after the war is over. A similar condition exists on Gannett Road at the several bridges where the water main is laid in the marsh. The main should be extended westerly on First Parish Road to replace a small shallow line that is now serving a number of dwellings.

WILLIAM J. LUMBERT, Superintendent.

REPORT OF THE TREE WARDEN

To the Honorable Board of Selectmen:

Gentlemen:

This year there were forty-two maple and twenty elm shade trees planted on our roadsides. These are growing well.

All brush on bad corners and intersections has been cut at least once.

The Gypsy Moth is not as bad in Scituate as it is in some of our neighboring towns. Two small colonies were found this year and destroyed. The Brown Tail Moth was found in Humarock Beach last year and destroyed by cutting and spraying.

Our elm trees were sprayed twice this summer. No signs of the Dutch Elm Disease have been found in our section of the state. In 1941 it was found in the Town of Alford, Berkshire County. This is the first found in Massachusetts. Spraying to kill the Elm Tree Beetle is the best way to stop this disease.

Respectfully submitted,

JOHN W. FORD,
Tree Warden.

REPORT OF THE TOWN FOREST COMMITTEE

Last year death took our chairman, Mr. William F. Ford, who had been chairman since the Town Forest project was started in 1924. At a meeting of the Selectmen held October 8, 1942, Mr. John W. Ford, the son of Mr. William F. Ford, was appointed to serve as a member of the Town Forest Committee.

Since being appointed he has done a vast amount of trimming at both forests and as the small trees have made a wonderful growth, they will need a great deal of trimming out this coming year to give a better chance to let the smaller trees grow.

These Town Forests are easily accessible and a fine recreation spot.

TREASURER'S RECEIPTS AND EXPENDITURES REPORT

A Fire Trail has been cut in both forests, which will prove very valuable in case of fire.

A general invitation is extended to visit these Town Forests.

JOHN W. FORD, Chairman,
MARY E. CRESSEY, Secretary,
EMMA P. LITCHFIELD,
Town Forest Committee.

TREASURER'S REPORT OF THE RECEIPTS AND EXPENDITURES

For the Year Ending December 31, 1942

REPORT OF THE TOWN ACCOUNTANT

To the Honorable Board of Selectmen:

Gentlemen:

In compliance with the provisions of Chapter 44 of the General Laws, I herewith submit the following report of the Accounting Department for the year ending December 31, 1942.

I have also included a detailed statement of disbursements showing amounts paid and the persons to whom payments were made, as requested by vote at the annual meeting held March 7, 1927.

ELLEN ELIZABETH COLE,
Town Accountant.

STATE AUDIT

June 23, 1942.

To the Board of Selectmen,
Mr. Dennis H. Shea, Chairman
Scituate, Massachusetts

Gentlemen:

I submit herewith my report of an audit of the books and accounts of the town of Scituate for the period from January 1, 1941, to May 11, 1942, made in accordance with the provisions of Chapter 44, General Laws. This is in the form of a report made to me by Mr. Herman B. Dine, Assistant Director of Accounts.

Very truly yours,

THEODORE N. WADDELL,
Director of Accounts.

Mr. Theodore N. Waddell,
Director of Accounts,
Department of Corporations and Taxation,
State House, Boston.

Sir:

As directed by you, I have made an audit of the books and accounts of the town of Scituate for the period from January 1, 1941, the date of the previous audit, to May 11, 1942, and report thereon as follows:

The financial transactions, as recorded on the books of the several departments collecting or disbursing money for the town, were examined and checked for the audit period.

The books and accounts of the town accountant were examined and checked. The general ledger accounts were analyzed, the recorded receipts and payments being checked with the treasurer's books, while the appropriations and transfers, as entered, were checked with the town clerk's records of financial votes passed at town meetings and with the advisory committee's authorizations of transfers from the reserve fund.

A trial balance, proving the accounts to be in balance, was taken off, and a balance sheet, showing the financial condition of the town as of May 11, 1942, was prepared and is appended to this report.

STATE AUDIT REPORT

The books and accounts of the town treasurer were examined and checked. The recorded receipts were analyzed and verified by comparison with the records in the several departments collecting money for the town, with other sources from which money was paid into the town treasury, and with the town accountant's books. The recorded payments were checked with the selectmen's warrants authorizing the disbursement of town funds and with the records of the town accountant.

The cash book was footed and the cash balance on May 11, 1942, was verified by reconciliation of the bank balances with statements furnished by the banks of deposit and by verification of a deposit in transit.

The recorded payments of debt and interest were proved with the amounts falling due and by examination of cancelled securities and coupons on file.

The records of tax titles taken by the town were examined and listed. The amounts added to the tax title account were compared with the collector's records, the reported redemptions were checked with the receipts as recorded on the treasurer's cash books, and the tax title deeds as listed were checked with the records in the Registry of Deeds.

The savings bank books representing the investment of the several trust funds in custody of the selectmen were examined, the income being proved and the withdrawals verified.

The books and accounts of the town collector were examined and checked. The taxes and assessments outstanding according to the previous examination and all subsequent commitments were audited and checked with the assessors' warrants for their collection. The recorded collections were checked with the payments to the treasurer as shown by the treasurer's and town accountant's books, the abatements, as entered, were checked with the assessors' record of abatements granted, and the taxes transferred to the tax title account were checked with the treasurer's record of tax titles held by the town.

The commitments of departmental and water accounts receivable were examined and checked. The payments to the treasurer were verified by comparison with the treasurer's and the accountant's books, the abatements were checked with the departmental records of abatements granted, and the outstanding accounts were listed and proved to the accountant's ledger.

The outstanding tax, assessment, and water accounts were further verified by mailing notices to a number of persons whose names appeared on the books as owing money to the town, the replies received thereto indicating the accounts, as listed, are correct.

STATE AUDIT REPORT

The collector's cash balance on May 11, 1942, was verified by actual count of cash in the office.

The records of dog and sporting licenses issued by the town clerk were examined and checked in detail. The recorded payments to the treasurer and to the State were verified and the cash balance on June 8, 1942, was proved by actual count of the cash in the office.

It was found, although the attention of the town clerk has been repeatedly called since 1934 to the provisions of law governing the payment to the treasurer of dog license fees collected by him, that he has again failed to pay to the town treasurer on the first Monday of each month the money due the county for dog licenses issued by him, as required by Section 147, Chapter 140, General Laws, as amended. The following schedule shows the amount collected by the town clerk for dog licenses during each month of 1941, the deductions therefrom for fees allowed him by law, and the dates on which these collections were paid to the town treasurer.

Month	Value of Dog Licenses Issued	Less Fees Retained by Town Clerk	Amount Pay- able to Town Treasurer	Date of Payment to Town Treasurer
April	\$334.00	\$23.80	\$310.20	December 30, 1941
May	96.00	9.00	87.00	December 30, 1941
June	424.00	30.40	393.60	December 30, 1941
July	36.00	3.00	33.00	December 30, 1941
August	21.00	1.80	19.20	December 30, 1941
September	145.00	10.60	134.40	December 30, 1941
October	26.00	1.40	24.60	December 30, 1941
November	14.00	1.40	12.60	December 30, 1941
December	4.00	.40	3.60	January 9, 1942
	<u>\$1,100.00</u>	<u>\$81.80</u>	<u>\$1,018.20</u>	

It will be noted from the foregoing schedule that dog licenses were issued during each month from April to November during the year 1941, but that no payment was made to the town treasurer until December 30, 1941.

The repeated violation by the town clerk of the provisions of Section 147, Chapter 140, General Laws, as amended, could, in my opinion, be stopped if the selectmen would take action under Section 169, Chapter 140, General Laws, which reads as follows:

“A county, city or town officer who refuses or wilfully neglects to perform the duties imposed upon him by the provisions of this chapter relating to dogs shall be punished by a fine of not

STATE AUDIT REPORT

more than one hundred dollars, which shall be paid, except in Suffolk County, into the county treasury. Whoever is aggrieved by such refusal or neglect may report the same forthwith to the district attorney of his district."

It was further noted that payments to the Division of Fisheries and Game by the town clerk of the money received for sporting licenses issued by him have not been made on the first Monday of each month as required by Section 5, Chapter 129A, General Laws, inserted by Chapter 329, Acts of 1933. The following schedule shows the amount collected by the town clerk during each month of 1941 on account of sporting licenses, the deductions therefrom for fees allowed him by law, and the dates on which these collections were paid to the Division of Fisheries and Game, per receipts examined:

1941 Month	Value of Licenses Issued	Less Fees Retained by Town Clerk	Amount Pay- able to Divi- sion of Fish- eries and Game	Date of Payment to Division of Fisheries and Game, per receipts
January 1, 1941	\$7.00		\$7.00	Jan. 15, 1941
January	87.00	\$8.75	78.25	Feb. 10, 1941
February	8.50	1.00	7.50	Mar. 7, 1941
March	8.50	.75	7.75	Apr. 2, 1941
April	66.75	6.50	60.25	June 9, 1941
May	8.50	1.00	7.50	Nov. 12, 1941
June	6.50	1.00	5.50	Nov. 12, 1941
July	4.50	.75	3.75	Nov. 12, 1941
August	10.50	1.00	9.50	Nov. 12, 1941
September	59.25	7.25	52.00	Nov. 12, 1941
October	150.50	18.75	131.75	Dec. 8, 1941
November	37.50	4.25	33.25	Dec. 15, 1941
December	6.00	.75	5.25	Jan. 5, 1942
	\$461.00	\$51.75	\$409.25	

The penalty for violation by a town clerk of the provisions of Section 5, Chapter 129A, General Laws, previously mentioned, is found in the same section, and reads as follows:

"Any town clerk violating any provisions of this section shall be punished by a fine of not less than fifty nor more than five hundred dollars, or by imprisonment for not less than one month nor more than one year, or both."

It was also noted that the minutes of the annual town meeting of March 2, 1942, were not recorded in the town clerk's permanent record of town meetings on May 11, 1942.

STATE AUDIT REPORT

The surety bonds of all officials required by law to furnish them were examined and found to be in proper form.

In addition to the departments mentioned, the books and records of the sealer of weights and measures, of the selectmen, and of the health department, as well as the records of all other departments collecting money for the town, were examined and checked.

There are appended to this report, in addition to the balance sheet, tables showing a reconciliation of the treasurer's and collector's cash, summaries of the tax, tax titles, tax possessions, and interest accounts, as well as tables showing the condition and transactions of the various trust funds.

While engaged in making the audit, cooperation was received from all town officials, for which, on behalf of my assistants and myself, I wish to express appreciation.

Respectfully submitted,

HEMAN B. DINE,

Assistant Director of Accounts.

For complete details and figures consult Director of Accounts' Audit on file at the Selectmen's Office.

Annual Report
OF THE
SCHOOL COMMITTEE
OF THE
TOWN OF SCITUATE

For the Year Ending December 31

1942

SCHOOL COMMITTEE REPORT

School Calendar—1943

WINTER TERM—January 4 to February 19 inclusive.

One Week Vacation.

March 1 to April 16 inclusive.

One Week Vacation.

SPRING TERM—April 26 to June 18.

Summer Vacation.

FALL TERM—September 8 to December 23 inclusive.

Holidays—October 12, November 11, 25 and 26.

The calendar for 1943 must be considered as tentative as war conditions may make changes necessary.

"No School" Signal

The "No School" signal is 3-1-3, and will be sounded from the fire stations at North Scituate, Scituate Harbor and Greenbush at 7:20 a. m. to designate the omission of school sessions for the first six grades—e. g. the Hatherly and Jenkins Schools. If the signal is repeated at 7:30 a. m., it will indicate no school in the High School. It is, however, the general policy of the Committee to hold regular sessions whenever it is practicable to maintain transportation service.

Committee Meetings

The regular meetings of the Committee are held monthly, at the office of the Superintendent, Old High School Building, September to June, inclusive.

Appointments with the Superintendent may be made upon request.

The age of admission to Grade One of the Hatherly and Jenkins Schools is five years and four months on the day of the opening of school in September.

No child will be admitted to school for the first time after October 1, unless, before this date, permission has been granted by the Superintendent for a later entrance.

A vaccination certificate must be presented to the school when the pupil enters for the first time.

A birth certificate must be presented by those pupils whose births were recorded outside of Scituate.

REPORT OF THE SCHOOL COMMITTEE

To the Citizens of Scituate:

The School Committee presents herewith the following report of the Superintendent of Schools, which also includes reports of the several principals and various departments of education.

We wish to pay tribute at this time to over 150 former students of our schools who are in the armed forces of our country. We feel that this is a record to which we can point with pride. During the past year, three High School teachers have been granted leaves of absence to enter the service: Mr. Frederick A. Calkin, principal; Mr. Michael B. Gillespie and Mr. Clarence O. Atkinson. Our thoughts and best wishes are with them all.

SCHOOL COMMITTEE REPORT

In keeping with the war effort, several additions have been made to the courses at the High School. You will find detailed accounts of these in the following reports. Every effort will be made to include such courses as will prepare our pupils to meet the changing demands of the times. It is very difficult under present conditions to plan a policy very far in advance, but the Committee is earnest in its desire to maintain a high standard in our schools, and will always continue to work for the best interest of the pupils.

The Committee wishes at this time to thank the citizens of the town for their most generous support of the schools. Your continued support and co-operation will be deeply appreciated.

Respectfully submitted,

MRS. EMMA L. DAMON, Chairman,
THOMAS W. MACY, Secretary,

FRED T. WATERMAN,

School Committee.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Committee of Scituate:

I take pleasure in submitting my seventeenth annual report for your consideration.

The school year opened for the fall term of 1942 on September 9. The October 1 census showed a total enrollment of 827 in the three schools, compared with 824 last year. The Hatherly School numbered 212; the Jenkins School, 242; and the High School, 373.

TEACHING STAFF CHANGES

During the year 1942, six teacher resignations were received, three from the High School, two from the Hatherly School and one from the Jenkins School.

Principal Frederick A. Calkin, Assistant-Principal Michael B. Gillespie, and Clarence O. Atkinson of the commercial department are all serving in the armed forces of the United States as commissioned officers. These men were all granted leaves of absence.

Mr. Wallace A. Parkhurst of Dartmouth, Mass., a graduate of Tufts College, 1930, and a student in summer courses at Harvard University, was appointed as acting-principal. Previous to his appointment here Mr. Parkhurst was a teacher at the Dartmouth High School for eleven years, being assistant-principal for five years and acting-principal for one.

SCHOOL COMMITTEE REPORT

Mr. Robert L. Douglas of Bellows Falls, Vermont, was appointed as instructor of mathematics. Mr. Douglas is a graduate of the University of Maine, with summer study at Boston University. He has had fourteen years' experience, the last seven as teacher of mathematics and science at the Bellows Falls High School.

Mr. Richard M. Rogers of Pawtucket, R. I. was appointed to the vacancy in the commercial department. Mr. Rogers attended the State Teachers' College at Albany, N. Y. for several years and later was graduated from Northeastern University. He has had seventeen years of teaching experience in the commercial field, the last seven being at Kinyon's Commercial School at Pawtucket, R. I.

At the Hatherly School, Miss Evelyn Ames, for the past two years teacher of Grade II, resigned to take a similar position at Winchester. Her successor is Miss Ruth W. Neville of Woburn, a graduate of the Lowell Teachers' College and the Boston University School of Education. Miss Neville has had nine years' teaching experience in the elementary field.

Miss Jeanne H. Lockhart, teacher of Grade III, resigned to take a position in the Milton schools. This vacancy was filled by the appointment of Miss Ruth Hughes of West Concord, a graduate of the Fitchburg Teachers' College with two years' experience in grades three and four at Ashby, Mass.

At the Jenkins School, Miss Mary A. Tenney, assistant teacher in Grade I, resigned to take a school position in Kittery, Maine. Mrs. Madeline Vickery, one of our substitute teachers, is serving in this position at the present time.

UPKEEP OF SCHOOL PROPERTY

The usual routine repairs and replacements were made at the different school buildings during the year. In addition, for the Hatherly School, four new teachers' desks and chairs, four visitors' chairs, and forty-eight chair backs for pupils' seats were purchased. A reading table was bought for the second grade room, and nine benches to accommodate four pupils each were made and placed in Grades III, IV and V. Two Goal-Hi standards were purchased for playground use.

At the Jenkins School, during the summer vacation, the partition between the two front rooms on the lower floor was moved to make more space for a larger Grade II that was anticipated for the fall term. The dentist's room on the third floor and the boys' toilet room in the basement were painted. Pupil desk tops throughout the building were refinished. Seven teachers' chairs and sixty chair backs for pupils' seats were purchased. In addition, a new electric service line was run to the building and new lighting fixtures were installed in all of the classrooms.

SCHOOL COMMITTEE REPORT

All of the pupil desk tops in the rooms of the central section of the High School were refinished and the ceilings and lower walls of the rooms in the east wing of this building were painted. In the Household Arts building new shades were installed and the walls and ceiling of the dining room were painted. The chimney of this building was retopped. A section of the Civic Center Grounds that remained unfinished after the parking place adjoining the tennis courts had been remade last year was levelled off, loamed, and seeded down.

SCHOOL PROBLEMS

It is becoming increasingly difficult to maintain our schools as usual. Last year I stated that because of the draft, greater financial rewards in other fields and the scarcity of teachers in certain branches we faced a serious problem in keeping our teaching forces intact.

The draft took three of our teachers last year. It may possibly take others. We have lost no teachers to defense work although the high pay offered in many of these positions causes some unrest among men in the teaching field. There is a critical shortage of teachers in branches such as science, mathematics, practical arts and physical education with a consequent bidding up of salaries in these departments by towns and cities with vacancies in them. To retain competent teachers and to make replacements in case vacancies occur, it is necessary for towns to maintain adequate salary schedules.

There are certain teachers, however, who, fearing a more drastic curtailment of motor travel and other forms of transportation, leave their positions in order to be more accessible to their homes. When this is the case, and where there is no dissatisfaction with local teaching conditions or with salaries paid, we can do little to improve the situation.

There have been more interruptions than usual in the school calendar during 1942. This is likely to be repeated and even increased in 1943. The two principal causes of this are the scarcity of fuel and the use of school houses and teachers in the rationing registrations. Thus far, in Scituate, the general lack of fuel has not caused any inconvenience as our three principal buildings have coal-burning heating plants and we have sufficient fuel for the present school year. In the rationing periods, however, the schools have generally been closed for all or for part of the time. Such interruptions are unavoidable, as we realize that there is no other organized group that can as effectively take over these rationing registrations.

CURRICULUM REVISION

The needs of the nation in this war period have made necessary certain changes in our courses of study in the high school. In all grades—elementary as well as high school—the teaching of the fundamental subjects is being emphasized. In all grades the responsibility

SCHOOL COMMITTEE REPORT

of the individual to the state is stressed. The will to help the war effort in such ways as the scrap drives and the purchase of war stamps and bonds by all pupils is encouraged.

For the details of what is being done in the High School to meet the new conditions, I invite your attention to the reports from the several high school departments that are a part of the school report this year. The physical education program—especially for the boys of the upper classes—has been broadened to meet the need for physical fitness. The mathematics and science courses are placing more emphasis upon those sections that will be especially helpful to the boy who may be inducted into the armed forces. In the industrial arts department aeronautics is being emphasized by the construction of a large airplane model, with a study of its parts and how they work. Geography and current events become subjects of vital interest and importance.

SCHOOL BUILDING ACCOMMODATIONS

For the last several years I have called your attention to the increased school population and to the strain it places upon the capacity of our buildings. We have no spare rooms in any of our school buildings. Eight of the fourteen elementary rooms enroll over thirty-five pupils each, three over forty. Our two seventh grade rooms are very crowded with a total of eighty-six pupils. The high school science laboratory is inadequate in size and lacking in proper storage space for supplies and equipment for the large present day classes.

I fully realize that further plant expansion is impossible for the present, but we must not lose sight of the fact that we have an important building problem to meet as soon as conditions make it possible.

Your attention is called to the following reports of school officers and teachers, together with the various statistical tables and to the Financial Statement for 1942.

Respectfully submitted,

HAROLD C. WINGATE,
Superintendent of Schools.

REPORT OF THE HIGH SCHOOL PRINCIPAL

Mr. Harold C. Wingate,
Superintendent of Schools,
Scituate, Massachusetts.

Dear Sir:

I herewith present my first annual report as acting principal of the Scituate High School.

School opened in September with an enrolment of 375 pupils, a number very nearly the same as last year. With decreasing registration in secondary schools and colleges this would seem to indicate that our school has not yet been affected by war conditions. There is, however, a noticeable decrease in the number of Seniors and Post-Graduates which has been offset by an unusually large class in Grade 7.

The smaller number of Seniors and Post-Graduates is indicative of the war trend and draws attention to a rapidly changing situation which is of direct concern to every parent and pupil. All high schools must make adjustments necessary to the furtherance of the nation's war effort. Some of the changes will be quite radical but educational and governmental leaders are urging all possible haste in making these changes. The need for men and women trained along scientific lines grows day by day and any new courses or changes will be made with that end in view.

Nearly every graduate this year will find himself faced directly with the situation whereby his immediate future will be decided for him by the nation's man power needs. The Draft and Industry will absorb him where he can best be used. With many of the colleges subject to government control as training centers for the Armed Forces under a special program there will be little chance for college entrance to the regular candidate for admission. There is greater opportunity for the girl graduate in industry than ever before and many girls will probably plan their high school courses accordingly.

Our school must plan to emphasize those courses which stress mathematics, science, vocations, and physical education, which the times call for. It is to be hoped that these changes and additions can be made with a minimum of rearrangement in our curriculum. For the second half year it is planned to add new courses in Pre-Flight Aeronautics and General Military Mathematics. These courses will include so far as possible the basic elements of aeronautics, navigation, elementary surveying, meteorology, mapping, etc. These courses will

SCHOOL COMMITTEE REPORT

be available to the students in the upper classes. For the lower class groups more emphasis, and perhaps additional classes, will be needed to meet the science demands.

All pupils who are able will be urged to take a more active part in our gymnasium classes and athletic groups. Many of the newer features of a stepped up gymnasium program will be introduced in order that we may give our pupils the benefit of a start in the type of physical training to which they will later be subject.

Our Practical Arts and Household Arts courses will continue to provide the type of training which is so vital today and they will play an even greater part in the curriculum of the future. They are ideally adapted to the changes which are taking place in education today.

The school has felt the impact of the war in many different ways and has helped to carry its share of the war effort. All the teachers put in many extra hours during the fuel oil rationing period and many of our students aided local farmers during the critical harvest period of this last fall.

Insofar as possible every attempt has been made to continue the usual school activities of past years. Among those activities the All-School Play, "Salad Days", and the magazine subscription drive for the motion picture projector with sound equipment met with notable success.

Interscholastic sports, especially in the smaller schools, have been hard hit by the problems of transportation. The members of the South Shore League were able to play abbreviated schedules in football and hope to be able to carry through a basketball schedule. Girls' sports have also been curtailed by transportation problems. An attempt will be made to play many basketball games in the afternoon to help overcome transportation and dim-out problems. Several local citizens contributed to make it possible for the football squad to attend the B.C.-Fordham football game in Boston.

Many adjustments must and will be made from time to time to keep pace with the rapid changes brought about by the war. Every effort will be made to keep abreast of the nation's needs and it is to be hoped that these revisions will not interfere too seriously with the daily program.

I wish to express my appreciation at this time to all those in the school system and to all the citizens of Scituate who have by word or deed helped to promote the interests of the Scituate High School.

Respectfully submitted,

WALLACE A. PARKHURST,
Acting Principal.

SCHOOL COMMITTEE REPORT

SCIENCE IN WAR TIME

Erroll K. Wilcox

Teacher of Science, High School

War developments have thrown the light of necessity on science work in our schools. Industrial plants and the Army and Navy are calling for workers with varying stages of science training.

This demand for young men and women trained in fundamentals of science will no doubt increase as war progresses.

To help in winning the war our schools must not only continue with such science courses as have customarily been given but must add more.

Those young people going into the service must be helped to find their own level of work in the Army. If this is not done while they are in school it must be done after induction which will slow up the entire work of the Army.

Our work in science must be increased and encouragement given to those who are not enrolled to enroll in science courses which are so planned that they will be of future help to the individual and the nation.

MATHEMATICS IN WAR TIME

Robert L. Douglas

Teacher of Mathematics, High School

With the entrance of the United States into the world conflict there came an unprecedented demand for mathematics instruction.

The armed services found that a large majority of the men coming to them lacked a sufficient back-ground of basic mathematics to enable them to quickly and readily grasp the training presented; also from the defense industries came a call for men and women with training in mathematics. The colleges, high schools and other educational bodies in this country responded rapidly. New courses are being introduced, old courses gone over with the idea of condensing their content. More and more students are being guided into mathematics courses.

That the public and students also realized this need is indicated by the greatly increased enrollment in mathematics courses and the fact that mathematics texts for the layman are among the best sellers on the book lists.

Recently, the army made available outlines in a number of courses of the basic material that they consider most necessary for the inducted man to have. These have made it possible for the schools to plan courses covering exactly what is needed. Arithmetic, algebra, geometry

SCHOOL COMMITTEE REPORT

and trigonometry are especially stressed. Pre-flight aviation courses have apparently come to stay and many colleges are offering courses in navigation. Refresher courses for those whose mathematics has become "rusty" are very popular.

At our High School, the mathematics courses are supplying the basic knowledge necessary. The mathematics classes have grown greatly in size and new divisions in algebra and general mathematics will be available for those not now enrolled in similar courses. New courses and divisions will be added as the necessity arises.

INDUSTRIAL ARTS AS A WAR TIME SUBJECT

Nels H. Sandberg

Teacher of Industrial Arts, High School

In our Industrial Arts work it has been our constant effort to introduce and develop subjects that are worth while.

The school's most important task at any time is to build morale and develop high ideals of Americanism, but in this immediate crisis the schools must also make practical contributions to the defense program.

Industrial arts education is standing at the threshold of a new era. The crying need of our nation is for trained men. The class room and school shop should be the source of supply for this need.

Since aviation is commanding such public attention, we believe it worth while to direct and stimulate this interest. This can be most easily accomplished by constructing model airplanes, miniature gliders, air tunnels, and plane parts. We can show how the pilot controls the various parts of his plane and can do much to make these elementary aeronautics applied knowledge, where boys can learn, at least partly, by actually doing.

Our school shop is adequately equipped to handle various elementary phases of aviation. It is our aim at the beginning of the New Year to introduce work along these lines in addition to our present industrial arts program.

PHYSICAL EDUCATION AS A WAR TIME SUBJECT

Edward L. Stewart

Instructor of Physical Education

Recently one of the training Institutes of Physical Fitness held a Regional meeting in Boston. The purpose of the institutes was to put forth in definite form what the Army and Navy and Health Educators considered to be the most efficient program to make the pupils physically fit to carry their responsibilities as members of the armed forces and as efficient workers in the war effort.

SCHOOL COMMITTEE REPORT

The armed forces prefer health and physical education programs to programs of military training in high school. To them a person who is physically fit is one capable of carrying on a sustained effort with speed and skill. Hence they stress means of developing strength, stamina, endurance, aggressiveness, leadership, and coordination. It was recommended that instructions and practice in aquatics, gymnastics, combatives and sports and games should be emphasized in high school.

The objectives in aquatics are to stay afloat, to swim under water, and to swim long distances while fully clothed. Gymnastics should include running, tumbling, conditioning exercises, grass drills, and ranger exercises. Combative activities refer to hand to hand fighting, boxing and wrestling. Under sports and games come group games, hiking, camping, football, skating, soccer, basketball, and other strenuous team games.

Pupils should be urged to make efforts to meet certain standards or to show definite improvement in the efficiency of the muscles of the arms and shoulders, abdomen, legs, and back.

Beginning the next half year we plan to adapt ourselves to present day needs and follow through with the recommendations of the armed services. The objective is one hour of physical education work each day, and two hours of interscholastic work or intramural activities each afternoon. Each boy will be examined by the school physician to preclude the possibility of some boy overexerting himself.

In this way we hope to send out boys better able to take care of themselves, because they will be physically fit, aggressive and plenty tough.

REPORT FROM THE HATHERLY SCHOOL

Robert L. Stevenson

Principal

Registration day enrollments at the Hatherly School totaled practically the same as last years' in spite of an expected increase.

The extension of moderate weather throughout the late fall kept school attendance totals high. Late in December, however, a few cases of chicken pox were reported and the attendance dropped.

Organization of a daily school-wide War Bond and Stamp buying program with individual room competition has met the enthusiastic support of both pupils and teachers.

The keen desire of our boys and girls to participate in their nation's war efforts was further evidenced by their achievement in the Victory Key Collection Campaign. In less than a month the pupils of the Hatherly School turned over to the local salvage authority upwards of 3,500 keys.

SCHOOL COMMITTEE REPORT

The response to the Silver Anniversary membership drive of the Junior Red Cross was also one of the most generous in years.

The Kiwanis Club again added joy to the Christmas season by sending Santa Claus to personally present each member of the first grade with a War Savings Stamp and book. The upper grades were entertained with a moving picture of their own sailing picnic given them by the club last summer.

REPORT FROM THE JENKINS SCHOOL

LeRoy E. Fuller
Principal

School opened in September with a large entering class and several new pupils in the other rooms. The presence of defense plants in nearby towns has brought new families to our community, resulting in this increased enrollment.

Jenkins School continues to play its part in the War Effort. Pupils are enrolled as members of the Junior Red Cross, contributions of money have been made to the County Tuberculosis Fund, boxes of keys have been collected, and stamps and bonds amounting to several hundred dollars have been purchased. The boys and girls also had a share in the general scrap metal drive.

Mr. John Hines, actor, gave readings of "Jack in the Beanstalk" and Dicken's "Christmas Carol" at our belated Christmas assemblies. The boys and girls get a great deal of enjoyment out of his clever characterizations.

Visual and auditory materials aid in enriching the school experience of boys and girls. Stereoptican slides, printed pictures and post-cards, diagrams, charts, graphs, and maps have been used for years. A newer phase of this sort of thing is the moving picture. Films are available from the State Departments on health and safety, and from some commercial houses, free of charge. Other films may be obtained for a nominal rental price.

Through the Education Department of the Boston Museum of Fine Arts we have been privileged to use one of their lectures illustrated by large copies of famous Greek architecture, statues, etc. Miss Holbrook of the same department gave a similar lecture on early Roman Life. Other lectures on the rise and fall of the Roman Empire, early English and American History will be available during the year.

We have had many interruptions in the regular school program, registrations of one kind or another. Realizing this, parents would do well to have their children regular in attendance, and we, the teachers, must, more than ever, strive to prepare these boys and girls to meet the problems that will be theirs in the future.

SCHOOL COMMITTEE REPORT

REPORT OF THE SCHOOL PHYSICIAN

To the School Committee of Scituate:

The health of the school children of Scituate has been generally satisfactory this past year. There were a few cases of scarlet fever without serious complications in October and an extensive epidemic of chickenpox in December.

It was impossible to complete the physical examination of the children as early as usual this year because war time conditions have made so many extra demands on the school physician's time. The new pre-military athletic training at the High School is strenuous but the boys stand up to it well with very few exceptions. Adequate rest at home is important.

It is also of prime importance in these days of restricted food distribution that parents take extra care that their children have sufficient milk, meat, vegetables and fruits. Continued deficiency of these foods, with excess of starches and sweets, often causes lasting harm.

The present acute shortage of physicians gives added emphasis to the rule that children at the first sign of illness should be kept home from school *in bed* and not returned to school until they are well recovered. This actually shortens the course of their illness and lessens the spread of infection to other children and their teachers. The Golden Rule pays in matters of health.

Respectfully submitted,

M. D. MILES, M.D.,
School Physician.

REPORT OF THE SCHOOL NURSE

Mr. Harold C. Wingate
Superintendent of Schools
Scituate, Massachusetts

Dear Sir:

In presenting this annual report, it hardly seems necessary to elaborate on the School Health Service Program. As a matter of fact, the objectives are practically the same as in previous years. The program is familiar to nearly all the parents in the town, therefore, details are omitted.

SCHOOL COMMITTEE REPORT

Preschool Clinic

It is regretable that only fifty per cent of the children who entered grade one in September reported at the clinic for the physical and dental examination. The school department provides this opportunity to acquaint parents with the knowledge of remedial defects which may be corrected before the child enters school. From ninety to ninety-five per cent of the preschool group should be examined in the clinic. Failure to take advantage of this clinic seems to indicate a lack of interest on the part of the parents in regard to the child's welfare.

Preschool Dental Clinic

The Board of Health sponsored this clinic during June and July. Children should have minor dental defects corrected from the third to fifth year. Most parents put off the dental experience until the child needs many fillings or extractions. When this happens the child does not cooperate well and frequently sets a bad example to others in the dental clinic.

School Dental Clinic

This clinic is also sponsored by the Board of Health. It is held in the grade schools each week. It has been established for many years and functions smoothly. Children of new families do not receive care in the clinic for the first year in the schools. Emergency work is done regardless of the length of time pupils have been in the schools.

Clinic for Mentally Retarded

This clinic was held in the spring. The group is small and the children have made a fair amount of progress during the year.

Tuberculosis Clinic

No School Clinic was held this year. Suspicious cases and all known contacts had physical examinations, x-ray and follow up.

Hearing Tests

The audiometer was used by Miss Anna Foley in doing the hearing tests. Loss of hearing is a serious handicap. Every possible effort is made to help those who were found to have impaired hearing.

Only the children in certain grades, and those carried from previous tests are included in this program. Audiometers are not costly and one should soon be added to the school equipment.

School Lunches

During the winter months hot cocoa is served in the grade schools. We are fortunate in having two very capable women in charge of this project.

SCHOOL COMMITTEE REPORT

Communicable Disease Control

Chickenpox appeared in epidemic form this fall and winter. Many children are needlessly exposed to communicable disease because of the prevailing notion that they may as well have the so called children's diseases early in life. This is a dangerous practice. In our health education program for the coming year, emphasis will be placed on the importance of measures for disease prevention. War time conditions make it impossible for people to have medical care as readily as in the past. This means responsibility will have to be borne by those who have children in their care.

I am grateful to my co-workers and all the parents who have assisted me during the year in an all out effort to promote healthful living in the community.

Respectfully submitted,

MARGARET J. O'DONNELL, R.N.,
School Nurse.

Annual Report
OF THE
SCHOOL COMMITTEE
OF THE
TOWN OF SCITUATE

For the Year Ending December 31

1 9 4 2

Ref.
919.448

SCHOOL COMMITTEE REPORT

School Calendar—1943

WINTER TERM—January 4 to February 19 inclusive.

One Week Vacation.

March 1 to April 16 inclusive.

One Week Vacation.

SPRING TERM—April 26 to June 18.

Summer Vacation.

FALL TERM—September 8 to December 23 inclusive.

Holidays—October 12, November 11, 25 and 26.

The calendar for 1943 must be considered as tentative as war conditions may make changes necessary.

"No School" Signal

The "No School" signal is 3-1-3, and will be sounded from the fire stations at North Scituate, Scituate Harbor and Greenbush at 7:20 a. m. to designate the omission of school sessions for the first six grades—e. g. the Hatherly and Jenkins Schools. If the signal is repeated at 7:30 a. m., it will indicate no school in the High School. It is, however, the general policy of the Committee to hold regular sessions whenever it is practicable to maintain transportation service.

Committee Meetings

The regular meetings of the Committee are held monthly, at the office of the Superintendent, Old High School Building, September to June, inclusive.

Appointments with the Superintendent may be made upon request.

The age of admission to Grade One of the Hatherly and Jenkins Schools is five years and four months on the day of the opening of school in September.

No child will be admitted to school for the first time after October 1, unless, before this date, permission has been granted by the Superintendent for a later entrance.

A vaccination certificate must be presented to the school when the pupil enters for the first time.

A birth certificate must be presented by those pupils whose births were recorded outside of Scituate.

REPORT OF THE SCHOOL COMMITTEE

To the Citizens of Scituate:

The School Committee presents herewith the following report of the Superintendent of Schools, which also includes reports of the several principals and various departments of education.

We wish to pay tribute at this time to over 150 former students of our schools who are in the armed forces of our country. We feel that this is a record to which we can point with pride. During the past year, three High School teachers have been granted leaves of absence to enter the service: Mr. Frederick A. Calkin, principal; Mr. Michael B. Gillespie and Mr. Clarence O. Atkinson. Our thoughts and best wishes are with them all.

SCHOOL COMMITTEE REPORT

In keeping with the war effort, several additions have been made to the courses at the High School. You will find detailed accounts of these in the following reports. Every effort will be made to include such courses as will prepare our pupils to meet the changing demands of the times. It is very difficult under present conditions to plan a policy very far in advance, but the Committee is earnest in its desire to maintain a high standard in our schools, and will always continue to work for the best interest of the pupils.

The Committee wishes at this time to thank the citizens of the town for their most generous support of the schools. Your continued support and co-operation will be deeply appreciated.

Respectfully submitted,

MRS. EMMA L. DAMON, Chairman,

THOMAS W. MACY, Secretary,

FRED T. WATERMAN,

School Committee.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Committee of Scituate:

I take pleasure in submitting my seventeenth annual report for your consideration.

The school year opened for the fall term of 1942 on September 9. The October 1 census showed a total enrollment of 827 in the three schools, compared with 824 last year. The Hatherly School numbered 212; the Jenkins School, 242; and the High School, 373.

TEACHING STAFF CHANGES

During the year 1942, six teacher resignations were received, three from the High School, two from the Hatherly School and one from the Jenkins School.

Principal Frederick A. Calkin, Assistant-Principal Michael B. Gillespie, and Clarence O. Atkinson of the commercial department are all serving in the armed forces of the United States as commissioned officers. These men were all granted leaves of absence.

Mr. Wallace A. Parkhurst of Dartmouth, Mass., a graduate of Tufts College, 1930, and a student in summer courses at Harvard University, was appointed as acting-principal. Previous to his appointment here Mr. Parkhurst was a teacher at the Dartmouth High School for eleven years, being assistant-principal for five years and acting-principal for one.

SCHOOL COMMITTEE REPORT

Mr. Robert L. Douglas of Bellows Falls, Vermont, was appointed as instructor of mathematics. Mr. Douglas is a graduate of the University of Maine, with summer study at Boston University. He has had fourteen years' experience, the last seven as teacher of mathematics and science at the Bellows Falls High School.

Mr. Richard M. Rogers of Pawtucket, R. I. was appointed to the vacancy in the commercial department. Mr. Rogers attended the State Teachers' College at Albany, N. Y. for several years and later was graduated from Northeastern University. He has had seventeen years of teaching experience in the commercial field, the last seven being at Kinyon's Commercial School at Pawtucket, R. I.

At the Hatherly School, Miss Evelyn Ames, for the past two years teacher of Grade II, resigned to take a similar position at Winchester. Her successor is Miss Ruth W. Neville of Woburn, a graduate of the Lowell Teachers' College and the Boston University School of Education. Miss Neville has had nine years' teaching experience in the elementary field.

Miss Jeanne H. Lockhart, teacher of Grade III, resigned to take a position in the Milton schools. This vacancy was filled by the appointment of Miss Ruth Hughes of West Concord, a graduate of the Fitchburg Teachers' College with two years' experience in grades three and four at Ashby, Mass.

At the Jenkins School, Miss Mary A. Tenney, assistant teacher in Grade I, resigned to take a school position in Kittery, Maine. Mrs. Madeline Vickery, one of our substitute teachers, is serving in this position at the present time.

UPKEEP OF SCHOOL PROPERTY

The usual routine repairs and replacements were made at the different school buildings during the year. In addition, for the Hatherly School, four new teachers' desks and chairs, four visitors' chairs, and forty-eight chair backs for pupils' seats were purchased. A reading table was bought for the second grade room, and nine benches to accommodate four pupils each were made and placed in Grades III, IV and V. Two Goal-Hi standards were purchased for playground use.

At the Jenkins School, during the summer vacation, the partition between the two front rooms on the lower floor was moved to make more space for a larger Grade II that was anticipated for the fall term. The dentist's room on the third floor and the boys' toilet room in the basement were painted. Pupil desk tops throughout the building were refinished. Seven teachers' chairs and sixty chair backs for pupils' seats were purchased. In addition, a new electric service line was run to the building and new lighting fixtures were installed in all of the classrooms.

SCHOOL COMMITTEE REPORT

All of the pupil desk tops in the rooms of the central section of the High School were refinished and the ceilings and lower walls of the rooms in the east wing of this building were painted. In the Household Arts building new shades were installed and the walls and ceiling of the dining room were painted. The chimney of this building was retopped. A section of the Civic Center Grounds that remained unfinished after the parking place adjoining the tennis courts had been remade last year was levelled off, loamed, and seeded down.

SCHOOL PROBLEMS

It is becoming increasingly difficult to maintain our schools as usual. Last year I stated that because of the draft, greater financial rewards in other fields and the scarcity of teachers in certain branches we faced a serious problem in keeping our teaching forces intact.

The draft took three of our teachers last year. It may possibly take others. We have lost no teachers to defense work although the high pay offered in many of these positions causes some unrest among men in the teaching field. There is a critical shortage of teachers in branches such as science, mathematics, practical arts and physical education with a consequent bidding up of salaries in these departments by towns and cities with vacancies in them. To retain competent teachers and to make replacements in case vacancies occur, it is necessary for towns to maintain adequate salary schedules.

There are certain teachers, however, who, fearing a more drastic curtailment of motor travel and other forms of transportation, leave their positions in order to be more accessible to their homes. When this is the case, and where there is no dissatisfaction with local teaching conditions or with salaries paid, we can do little to improve the situation.

There have been more interruptions than usual in the school calendar during 1942. This is likely to be repeated and even increased in 1943. The two principal causes of this are the scarcity of fuel and the use of school houses and teachers in the rationing registrations. Thus far, in Scituate, the general lack of fuel has not caused any inconvenience as our three principal buildings have coal-burning heating plants and we have sufficient fuel for the present school year. In the rationing periods, however, the schools have generally been closed for all or for part of the time. Such interruptions are unavoidable, as we realize that there is no other organized group that can as effectively take over these rationing registrations.

CURRICULUM REVISION

The needs of the nation in this war period have made necessary certain changes in our courses of study in the high school. In all grades—elementary as well as high school—the teaching of the fundamental subjects is being emphasized. In all grades the responsibility

SCHOOL COMMITTEE REPORT

of the individual to the state is stressed. The will to help the war effort in such ways as the scrap drives and the purchase of war stamps and bonds by all pupils is encouraged.

For the details of what is being done in the High School to meet the new conditions, I invite your attention to the reports from the several high school departments that are a part of the school report this year. The physical education program—especially for the boys of the upper classes—has been broadened to meet the need for physical fitness. The mathematics and science courses are placing more emphasis upon those sections that will be especially helpful to the boy who may be inducted into the armed forces. In the industrial arts department aeronautics is being emphasized by the construction of a large airplane model, with a study of its parts and how they work. Geography and current events become subjects of vital interest and importance.

SCHOOL BUILDING ACCOMMODATIONS

For the last several years I have called your attention to the increased school population and to the strain it places upon the capacity of our buildings. We have no spare rooms in any of our school buildings. Eight of the fourteen elementary rooms enroll over thirty-five pupils each, three over forty. Our two seventh grade rooms are very crowded with a total of eighty-six pupils. The high school science laboratory is inadequate in size and lacking in proper storage space for supplies and equipment for the large present day classes.

I fully realize that further plant expansion is impossible for the present, but we must not lose sight of the fact that we have an important building problem to meet as soon as conditions make it possible.

Your attention is called to the following reports of school officers and teachers, together with the various statistical tables and to the Financial Statement for 1942.

Respectfully submitted,

HAROLD C. WINGATE,
Superintendent of Schools.

REPORT OF THE HIGH SCHOOL PRINCIPAL

Mr. Harold C. Wingate,
Superintendent of Schools,
Scituate, Massachusetts.

Dear Sir:

I herewith present my first annual report as acting principal of the Scituate High School.

School opened in September with an enrolment of 375 pupils, a number very nearly the same as last year. With decreasing registration in secondary schools and colleges this would seem to indicate that our school has not yet been affected by war conditions. There is, however, a noticeable decrease in the number of Seniors and Post-Graduates which has been offset by an unusually large class in Grade 7.

The smaller number of Seniors and Post-Graduates is indicative of the war trend and draws attention to a rapidly changing situation which is of direct concern to every parent and pupil. All high schools must make adjustments necessary to the furtherance of the nation's war effort. Some of the changes will be quite radical but educational and governmental leaders are urging all possible haste in making these changes. The need for men and women trained along scientific lines grows day by day and any new courses or changes will be made with that end in view.

Nearly every graduate this year will find himself faced directly with the situation whereby his immediate future will be decided for him by the nation's man power needs. The Draft and Industry will absorb him where he can best be used. With many of the colleges subject to government control as training centers for the Armed Forces under a special program there will be little chance for college entrance to the regular candidate for admission. There is greater opportunity for the girl graduate in industry than ever before and many girls will probably plan their high school courses accordingly.

Our school must plan to emphasize those courses which stress mathematics, science, vocations, and physical education, which the times call for. It is to be hoped that these changes and additions can be made with a minimum of rearrangement in our curriculum. For the second half year it is planned to add new courses in Pre-Flight Aeronautics and General Military Mathematics. These courses will include so far as possible the basic elements of aeronautics, navigation, elementary surveying, meteorology, mapping, etc. These courses will

SCHOOL COMMITTEE REPORT

be available to the students in the upper classes. For the lower class groups more emphasis, and perhaps additional classes, will be needed to meet the science demands.

All pupils who are able will be urged to take a more active part in our gymnasium classes and athletic groups. Many of the newer features of a stepped up gymnasium program will be introduced in order that we may give our pupils the benefit of a start in the type of physical training to which they will later be subject.

Our Practical Arts and Household Arts courses will continue to provide the type of training which is so vital today and they will play an even greater part in the curriculum of the future. They are ideally adapted to the changes which are taking place in education today.

The school has felt the impact of the war in many different ways and has helped to carry its share of the war effort. All the teachers put in many extra hours during the fuel oil rationing period and many of our students aided local farmers during the critical harvest period of this last fall.

Insofar as possible every attempt has been made to continue the usual school activities of past years. Among those activities the All-School Play, "Salad Days", and the magazine subscription drive for the motion picture projector with sound equipment met with notable success.

Interscholastic sports, especially in the smaller schools, have been hard hit by the problems of transportation. The members of the South Shore League were able to play abbreviated schedules in football and hope to be able to carry through a basketball schedule. Girls' sports have also been curtailed by transportation problems. An attempt will be made to play many basketball games in the afternoon to help overcome transportation and dim-out problems. Several local citizens contributed to make it possible for the football squad to attend the B.C.-Fordham football game in Boston.

Many adjustments must and will be made from time to time to keep pace with the rapid changes brought about by the war. Every effort will be made to keep abreast of the nation's needs and it is to be hoped that these revisions will not interfere too seriously with the daily program.

I wish to express my appreciation at this time to all those in the school system and to all the citizens of Scituate who have by word or deed helped to promote the interests of the Scituate High School.

Respectfully submitted,

WALLACE A. PARKHURST,
Acting Principal.

SCIENCE IN WAR TIME

Erroll K. Wilcox

Teacher of Science, High School

War developments have thrown the light of necessity on science work in our schools. Industrial plants and the Army and Navy are calling for workers with varying stages of science training.

This demand for young men and women trained in fundamentals of science will no doubt increase as war progresses.

To help in winning the war our schools must not only continue with such science courses as have customarily been given but must add more.

Those young people going into the service must be helped to find their own level of work in the Army. If this is not done while they are in school it must be done after induction which will slow up the entire work of the Army.

Our work in science must be increased and encouragement given to those who are not enrolled to enroll in science courses which are so planned that they will be of future help to the individual and the nation.

MATHEMATICS IN WAR TIME

Robert L. Douglas

Teacher of Mathematics, High School

With the entrance of the United States into the world conflict there came an unprecedented demand for mathematics instruction.

The armed services found that a large majority of the men coming to them lacked a sufficient back-ground of basic mathematics to enable them to quickly and readily grasp the training presented; also from the defense industries came a call for men and women with training in mathematics. The colleges, high schools and other educational bodies in this country responded rapidly. New courses are being introduced, old courses gone over with the idea of condensing their content. More and more students are being guided into mathematics courses.

That the public and students also realized this need is indicated by the greatly increased enrollment in mathematics courses and the fact that mathematics texts for the layman are among the best sellers on the book lists.

Recently, the army made available outlines in a number of courses of the basic material that they consider most necessary for the inducted man to have. These have made it possible for the schools to plan courses covering exactly what is needed. Arithmetic, algebra, geometry

SCHOOL COMMITTEE REPORT

and trigonometry are especially stressed. Pre-flight aviation courses have apparently come to stay and many colleges are offering courses in navigation. Refresher courses for those whose mathematics has become "rusty" are very popular.

At our High School, the mathematics courses are supplying the basic knowledge necessary. The mathematics classes have grown greatly in size and new divisions in algebra and general mathematics will be available for those not now enrolled in similar courses. New courses and divisions will be added as the necessity arises.

INDUSTRIAL ARTS AS A WAR TIME SUBJECT

Nels H. Sandberg

Teacher of Industrial Arts, High School

In our Industrial Arts work it has been our constant effort to introduce and develop subjects that are worth while.

The school's most important task at any time is to build morale and develop high ideals of Americanism, but in this immediate crisis the schools must also make practical contributions to the defense program.

Industrial arts education is standing at the threshold of a new era. The crying need of our nation is for trained men. The class room and school shop should be the source of supply for this need.

Since aviation is commanding such public attention, we believe it worth while to direct and stimulate this interest. This can be most easily accomplished by constructing model airplanes, miniature gliders, air tunnels, and plane parts. We can show how the pilot controls the various parts of his plane and can do much to make these elementary aeronautics applied knowledge, where boys can learn, at least partly, by actually doing.

Our school shop is adequately equipped to handle various elementary phases of aviation. It is our aim at the beginning of the New Year to introduce work along these lines in addition to our present industrial arts program.

PHYSICAL EDUCATION AS A WAR TIME SUBJECT

Edward L. Stewart

Instructor of Physical Education

Recently one of the training Institutes of Physical Fitness held a Regional meeting in Boston. The purpose of the institutes was to put forth in definite form what the Army and Navy and Health Educators considered to be the most efficient program to make the pupils physically fit to carry their responsibilities as members of the armed forces and as efficient workers in the war effort.

SCHOOL COMMITTEE REPORT

The armed forces prefer health and physical education programs to programs of military training in high school. To them a person who is physically fit is one capable of carrying on a sustained effort with speed and skill. Hence they stress means of developing strength, stamina, endurance, aggressiveness, leadership, and coordination. It was recommended that instructions and practice in aquatics, gymnastics, combatives and sports and games should be emphasized in high school.

The objectives in aquatics are to stay afloat, to swim under water, and to swim long distances while fully clothed. Gymnastics should include running, tumbling, conditioning exercises, grass drills, and ranger exercises. Combative activities refer to hand to hand fighting, boxing and wrestling. Under sports and games come group games, hiking, camping, football, skating, soccer, basketball, and other strenuous team games.

Pupils should be urged to make efforts to meet certain standards or to show definite improvement in the efficiency of the muscles of the arms and shoulders, abdomen, legs, and back.

Beginning the next half year we plan to adapt ourselves to present day needs and follow through with the recommendations of the armed services. The objective is one hour of physical education work each day, and two hours of interscholastic work or intramural activities each afternoon. Each boy will be examined by the school physician to preclude the possibility of some boy overexerting himself.

In this way we hope to send out boys better able to take care of themselves, because they will be physically fit, aggressive and plenty tough.

REPORT FROM THE HATHERLY SCHOOL

Robert L. Stevenson
Principal

Registration day enrollments at the Hatherly School totaled practically the same as last years' in spite of an expected increase.

The extension of moderate weather throughout the late fall kept school attendance totals high. Late in December, however, a few cases of chicken pox were reported and the attendance dropped.

Organization of a daily school-wide War Bond and Stamp buying program with individual room competition has met the enthusiastic support of both pupils and teachers.

The keen desire of our boys and girls to participate in their nation's war efforts was further evidenced by their achievement in the Victory Key Collection Campaign. In less than a month the pupils of the Hatherly School turned over to the local salvage authority upwards of 3,500 keys.

SCHOOL COMMITTEE REPORT

The response to the Silver Anniversary membership drive of the Junior Red Cross was also one of the most generous in years.

The Kiwanis Club again added joy to the Christmas season by sending Santa Claus to personally present each member of the first grade with a War Savings Stamp and book. The upper grades were entertained with a moving picture of their own sailing picnic given them by the club last summer.

REPORT FROM THE JENKINS SCHOOL

LeRoy E. Fuller

Principal

School opened in September with a large entering class and several new pupils in the other rooms. The presence of defense plants in nearby towns has brought new families to our community, resulting in this increased enrollment.

Jenkins School continues to play its part in the War Effort. Pupils are enrolled as members of the Junior Red Cross, contributions of money have been made to the County Tuberculosis Fund, boxes of keys have been collected, and stamps and bonds amounting to several hundred dollars have been purchased. The boys and girls also had a share in the general scrap metal drive.

Mr. John Hines, actor, gave readings of "Jack in the Beanstalk" and Dicken's "Christmas Carol" at our belated Christmas assemblies. The boys and girls get a great deal of enjoyment out of his clever characterizations.

Visual and auditory materials aid in enriching the school experience of boys and girls. Stereoptican slides, printed pictures and post-cards, diagrams, charts, graphs, and maps have been used for years. A newer phase of this sort of thing is the moving picture. Films are available from the State Departments on health and safety, and from some commercial houses, free of charge. Other films may be obtained for a nominal rental price.

Through the Education Department of the Boston Museum of Fine Arts we have been privileged to use one of their lectures illustrated by large copies of famous Greek architecture, statues, etc. Miss Holbrook of the same department gave a similar lecture on early Roman Life. Other lectures on the rise and fall of the Roman Empire, early English and American History will be available during the year.

We have had many interruptions in the regular school program, registrations of one kind or another. Realizing this, parents would do well to have their children regular in attendance, and we, the teachers, must, more than ever, strive to prepare these boys and girls to meet the problems that will be theirs in the future.

SCHOOL COMMITTEE REPORT

REPORT OF THE SCHOOL PHYSICIAN

To the School Committee of Scituate:

The health of the school children of Scituate has been generally satisfactory this past year. There were a few cases of scarlet fever without serious complications in October and an extensive epidemic of chickenpox in December.

It was impossible to complete the physical examination of the children as early as usual this year because war time conditions have made so many extra demands on the school physician's time. The new pre-military athletic training at the High School is strenuous but the boys stand up to it well with very few exceptions. Adequate rest at home is important.

It is also of prime importance in these days of restricted food distribution that parents take extra care that their children have sufficient milk, meat, vegetables and fruits. Continued deficiency of these foods, with excess of starches and sweets, often causes lasting harm.

The present acute shortage of physicians gives added emphasis to the rule that children at the first sign of illness should be kept home from school *in bed* and not returned to school until they are well recovered. This actually shortens the course of their illness and lessens the spread of infection to other children and their teachers. The Golden Rule pays in matters of health.

Respectfully submitted,

M. D. MILES, M.D.,
School Physician.

REPORT OF THE SCHOOL NURSE

Mr. Harold C. Wingate
Superintendent of Schools
Scituate, Massachusetts

Dear Sir:

In presenting this annual report, it hardly seems necessary to elaborate on the School Health Service Program. As a matter of fact, the objectives are practically the same as in previous years. The program is familiar to nearly all the parents in the town, therefore, details are omitted.

SCHOOL COMMITTEE REPORT

Preschool Clinic

It is regrettable that only fifty per cent of the children who entered grade one in September reported at the clinic for the physical and dental examination. The school department provides this opportunity to acquaint parents with the knowledge of remedial defects which may be corrected before the child enters school. From ninety to ninety-five per cent of the preschool group should be examined in the clinic. Failure to take advantage of this clinic seems to indicate a lack of interest on the part of the parents in regard to the child's welfare.

Preschool Dental Clinic

The Board of Health sponsored this clinic during June and July. Children should have minor dental defects corrected from the third to fifth year. Most parents put off the dental experience until the child needs many fillings or extractions. When this happens the child does not cooperate well and frequently sets a bad example to others in the dental clinic.

School Dental Clinic

This clinic is also sponsored by the Board of Health. It is held in the grade schools each week. It has been established for many years and functions smoothly. Children of new families do not receive care in the clinic for the first year in the schools. Emergency work is done regardless of the length of time pupils have been in the schools.

Clinic for Mentally Retarded

This clinic was held in the spring. The group is small and the children have made a fair amount of progress during the year.

Tuberculosis Clinic

No School Clinic was held this year. Suspicious cases and all known contacts had physical examinations, x-ray and follow up.

Hearing Tests

The audiometer was used by Miss Anna Foley in doing the hearing tests. Loss of hearing is a serious handicap. Every possible effort is made to help those who were found to have impaired hearing.

Only the children in certain grades, and those carried from previous tests are included in this program. Audiometers are not costly and one should soon be added to the school equipment.

School Lunches

During the winter months hot cocoa is served in the grade schools. We are fortunate in having two very capable women in charge of this project.

SCHOOL COMMITTEE REPORT

Communicable Disease Control

Chickenpox appeared in epidemic form this fall and winter. Many children are needlessly exposed to communicable disease because of the prevailing notion that they may as well have the so called children's diseases early in life. This is a dangerous practice. In our health education program for the coming year, emphasis will be placed on the importance of measures for disease prevention. War time conditions make it impossible for people to have medical care as readily as in the past. This means responsibility will have to be borne by those who have children in their care.

I am grateful to my co-workers and all the parents who have assisted me during the year in an all out effort to promote healthful living in the community.

Respectfully submitted,

MARGARET J. O'DONNELL, R.N.,
School Nurse.
